MORE SWINDLING.

Friday last, a man from Kentucky passed a 50 dollar note at this place, on the "Western Bank." The same man was purchasing all the Bills of Big-ge of 50 cents that he could get. It has since been found that the 50 dollar note he passed here, was a three dollar note, which he had altered by cutting out the figure 3 and the word three, and placing fifty in the place of the three. This swindler has been arrested and is now in jail at New-ky.—He had in his possession when arrested, several hundred dollars purporting to be the notes of the Western Bank at this place, for 50 dollars each, but on examination it was found that they had originated for 3 dollars each. It may not be amiss to inform the public, that no bill has been issued from this bank for a larger amount than ten dollars.

Counterfeits—The Urbana Bank says, "ten dollar notes are in circulation, purporting to be issued from the Urbana Bank—payable to Jno Winn, dated 8th, 1816, and April 1817, signed by W. Neil cash'r, and J. Reynolds, president." *Ohio Watchman.*

Expect to preach at Mr. Calli-son Saturday the 4th of Oc- tober next, at 2 o'clock P. M.—on Sunday the 5th at 12 o'clock, at William Prather's near the bridge; and on the evening of the 6th, at 'squire Thomas' by candle light.

NASHVILLE, Aug. 16. The CONVENTION finished its labors, and signed the constitution of the State of Mississippi today: The event was immediately announced by a federal salute from a six pounder, stationed in the hall of the convention. The final question on the adoption of the constitution, was taken Tuesday last, and deter- mined with but one dissenting

election will be held in the counties composing the State on the first Monday and Tuesday in next month, to choose governor, lieutenant governor, representative to congress, members of the senate and representatives of the state, sheriffs and coroners. The first session of the general assembly will be held in this city on the 1st of October next.

Among those already spoken of for the suffrages of the people, are David Holmes, for governor and Charles Mead, lieutenant governor.

—George Poindexter, representa- tive to Congress.

MAP OF INDIANA.

We understand that Mr. JOHN MELISH map seller of Philadelphia, has published a small neat map of this state, shewing the situation of the several counties, (including those laid off by the general as- sembly last session,) the towns, water courses, range and town- ship, lines &c. from materials fur- nished by a gentleman of Salem. Until a map on a large scale can be prepared, and which will take time and labor to complete, Mr. Melish's little publication will be useful. The public are indebted to Mr. Melish and the person who furnished the manuscript for such an early and valuable addition to the geographical knowledge of our country.

Mr. Samuel Williams, of the surveyor general's office, Chillicothe, a gentleman well qualified, has announced the proposed pub- lication of a map, of Indiana, "compiled from the public sur- veys and other authentic sources" on a scale of five miles to an inch. The whole will be 38 inches wide, by about 61 inches in length.

From the 'Phila.' True American, ESTIMATE

Of the time, and expenses of transporting, and establishing, exclusive of the governing and protecting a Colony of free Peo- ple of Colour, in Africa, as pro- posed by the American Coloni- zation Society.

In the United States, there are now, 1,500,000 People of Colour, (of whom 1,200,000, are slaves.) If it is contemplated to remove but one third of this number, to the colony, at least 34 years will be required for that purpose, as not more than 15,000 can be transported in one year.

To remove 15,000 in one year, will require about 60 ships or ves- sels, as it would be dangerous and oppressive to send on board of any vessel, more than 250 persons. The transporting of 15,000 persons in 60 ships, in each year, will cost 75 dollars for each person, be- ing for the 15,000 persons.

Dollars 1,125,000

The expenses of clothing and fitting each colo- nist for the voyage, as it is known almost every one will be un- provided for such an expedition, will be at least 25 dollars, each, making for 15,000

375,000

It is contemplated by the present plan of the American Coloni- zation Society, to find each colonist with food for one year, af- ter his arrival in Afri- ca, the charges for which as provisions must be sent from A- merica, will not be less than 75 dollars for each, making for 15,000

1,125,000

It is also contemplated, and admitted to be necessary, by the ad-

vocates of this plan, to clothe each colo- nist for two years af- ter his arrival in A- frica, the expenses of which, may be com- puted for each year, 25 dollars, being 50 dollars for every colo- nist in the two years, and making for 15,000

750,000

The purchase of land, supposing for every family of 10 persons, one hundred acres are procured, will require every year for 15,000 colonists 150,000 a- cres, which will cost not less than 20 cts. per acre, and will a- mount to

300,000

The cost of agricultural instruments, articles for domestic purpo- ses, the erection of buildings for each family, and of mills for the preparation of the products of their industry for food or market, will not be less for each family than 75 dollars, and for the 1,500 fami- lies will be

122,500

Amounting to an aggregate annual expenditure of 4,797,500

And to an aggregate ex- penditure for the 500,000 colonists of

163,115,000

By the period 500,000 are completely coloni- zed, the remaining colored population of the United States will have increased to 3,000,000 and to col- onize them at the rate of 90,000 per year, will require 34 years and 360 ships, each transporting 250 persons and the annu- al expences of those colonists according to the foregoing estim- ate will be

28,795,000

And the aggregate cost of colonizing the whole of those per- sons, including the ex- pences of the first col- ony of 500,000 will be

979,039,000
