Important to Farmers.

Capt. Wareham Williams, of Kent, this year, in ploughing and for Corn, observed vast numbers of the Cutworm. His labors thought these worms would destroy all his Corn, and Williams was almost resolved to try another piece of land. He, however, soaked Corn 24 hours in *beef brine*, then planted it. At the first sowing the corn remained entire through the worms were then many, and destroyed much of grass and weeds. After hoeing he planted White Beans between the hills, without soaking in brine. These the worms left entirely; but the Corn continued to flourish.

THE NATIONAL DEBT.

Ques. Supposing this debt to be only 910 millions of pounds sterling at present, (though it is much more) and that it was all to be counted in shillings, that a man could count at the rate of 100 shillings per minute, for 12 hours each day, till he had counted the whole, how much time would he take in doing it?

A. 692 years, 26 days, 6 hours and 40 minutes.

Q. The whole of this sum being 18,200 millions of shillings, & the coinage standard being 625, in the troy pound what is the whole weight?

A. 293 millions 548,000,388 troy pounds.

Q. How many carts would carry this weight, supposing a ton each?

A. 146,776 carts.

Q. The breadth of a shilling being one inch, if all these shillings were laid in a strait line close to one and other's edges; how long would the line be that would contain them?

A. 287,245 miles, which is nearly twelve times the whole circumference of the earth.

Q. Supposing the interest of this debt to be only three and a half per cent. per annum, what does the whole annual interest amount to?

A. 31 millions 850 thousand pounds sterling, and at 5 per cent. per annum, 45 millions 500 thousand pounds sterling.

Q. How doth the government raise this interest yearly?

A. By taking from those who lent the principal and others.

Q. When will the government be able to pay the principal?

A. When there is more money in England's treasury alone, than there is at present in all Europe.

Q. And when will that be?

A. NEVER!!!!!!—Star.

PROLIFIC FAMILY.

Mrs. Clavige, wife of Mr. Clavige, who keeps the sign of the Red Lion, at Paddington, was on Friday last, brought to bed of 3 children; about the same hour his cow calved two calves, and his sow littered 14 pigs, one of which had two heads!—The whole are well and likely to thrive. This is Mrs. C's first *accouchement*, although they have been married twenty years!—*London Paper*.

Cash! Cash!! Cash!!!

THE present want of *Money* makes it indispensably necessary for all those indebted to me, either by Note or Book account, which have become due to make immediate payment.—It is expected that those whose accounts are of long standing, will pay particular attention to this request—for I must have money.

William return—return to your *dear* loved Wife & prattling Children.

WILLIAM WEST, who lived in Xenia, Green County, Ohio, did on the 8th day of January last, leave his wife and two children, and that too, without a house or home, or any thing to support them—he left home on pretended business, but has forgot to return. He passes for a single man, but believe him not for he is married. He is fair complected, fair blue eyes, somewhat freckled, a brown spot on one of his arms, which may be seen when he is at work, he is a cabinet maker by trade, about six feet high slender made. I wish he would return to me, his loving wife.

ELIZA WEST.

Xenia, Aug. 23.

It is hoped that the printers throughout the U. S. will give the above an insertion in their respective papers, for pity's sake as I am unable to pay them, and they shall have the prayers of
