## VEVAY.

AMONGST other objects marked by the progress of improvement on the borders of the Ohio, the TOWN OF VEVAY, (the delightful situation which is already known to travellers and the public generally has progressed to that degree that an enlargement of its original limits is not only demanded by the public voice, but now necessary, on account of the high price of lots originally sold—the increase of business arising from the unparalleled settlement and the establishment of a BANK and other institutions connected with an active commercial town. From the existence of these facilities the subscribers have been induced to lay off that beautiful portion of land intervening between the original town and the first vi- yard, in connexion with the plat of the town.

The situation of Vevay—present advantages and future prospects, require no arguments to convince the public of the correct views of the proprietors bringing these lots into market. The above lots will be sold on credit of 6, 12, and 18 months. Sale to take place on the premises on Monday and Tuesday the 1st and 3d days of November next where due attendance will be given by
