There is on the premises a large
two story log building, a capa-

JOHN LODGE.

Madison, May 4, 1820.

NOTICE.

The terms of exchange at the
Gallatin Steam Mill after the
15th inst. will be for transient
customers, four bushels of wheat
for one hundred lbs. of flour;
those who are our customers
the year round, can be accom-
modated on the old terms, and
all can get corn ground as usual.
The reason of this alteration is
that about half of our custom
only comes in the dry season,
when we can make more by
manufacturing of flour for ex-
portation. Customers must
come the year round or pay us
as much as we can get from oth-
ers for manufacturing.

Sandy complexion, about five
feet 8 inches high, stout made,
and had with him one hundred
dollars in United States half ea-
gles sewed in a belt made of list
of Superfine cloth & tied around
his body under his shirt, and I
understand from some men that
followed a boat in quest of in-
formation on the subject, that
they were told by the boat's
crew that his name was John
Lold, and was lately from Soxas
in Germany, and was drowned
accidentally from one of their
boats on the 11th inst. The
boats were from Cincinnati,
Ohio, commanded by captain
William Adams. His body was
recently buried, and his money
is safely deposited.
