The Dredge Cigarette, (Syracuse Standard, May 2.)

A warning to boys who smoke cigarettes is conveyed in the death of one of their number in this city last week. Whatever the moderate smoking does not injure adults, there can be no question about its effect upon boys.

It is a sad sight to see the stunted, stunted bodies and dwarfed intellect.

Paste this axiom in your hats, boys who are under sixteen years of age: None of you who is an inveterate smoker of cigarettes will ever make a conspicuous success in life.

Every Room Taken. (New York Sun.)

St. Peter (to applicant for admission)—What disposition did you make of your property?

Applicant—I left it all to my wife on condition that she is never to marry again.

St. Peter (closing the gate)—No room for you in here.

A Rude Awakening. (New York Sun.)

They were on their way to the theater, and she was tremulously happy. She felt that the words so longed to hear would be spoken that night, and the idea made her almost dizzy with delight.

"Mr. Sampson," she said softly, "why do you wear that bit of string about your finger?"

"Oh," replied Mr. Sampson, taking it off, "that was to remind me of my engagement with you to-night."

It wasn't much, but it was enough to take away the delightful dizziness.

The Game at Albany. (New York World.)

If it is a game of "peanut politics" at Albany it must be admitted that Governor Hill manages to get the meat and to give the Republican peanuts the shucks, every time.

Southern Antidote for Malaria. It is generally known that Simmon's Liver Regulator is relied upon to secure immunity from all malarial disorders. This is proven by its popularity, and any one who lives in the South knows its curative effects and the protection it gives against this weakening and dangerous malady. It acts more promptly than calomel or quinine, without any of their injurious consequences.

Moderate Trading.

New York Stock Market Alternately Heavy and Firm Throughout the Day.

The Principal Feature Being the Upward Spirit in St. Paul and Duluth.

While the Close Was Active and Heavy at the Lowest Figures of the Day.

Local Markets—Wheat Quiet and Dull. Corn in Fair Demand—Oats and Rye Quiet—Hay Firm.

NEW YORK, May 23.—Money on call loans at 9½ per cent, last loan at 8½ per cent; closing offered at 8½ per cent.

Prime Mercantile Paper—5½ per cent.

Sterling Exchange—Dull but steady at 84 55¢/84 66 for 60 days' bills, and 84 57½ for 4 days.

The total sales of stocks to-day were 270,913 shares, including the following: Delaware, Lackawanna and Western, 10,000; Erie, 26,900; Fort Worth and Denver, 4,000; Kansas and Texas, 3,600; Lake Shore, 5,757; Louisville and Nashville, 5,000; Missouri Pacific, 5,350; Northwestern, 10,567; Oregon Trans-continental, 9,820; Pacific Mail, 14,650; Reading, 7,210; St. Paul, 21,310; St. Paul and Omaha, 3,400; Texas Pacific, 12,620; Union Pacific, 4,400; Western Union, 16,947.

The new week in the Stock Exchange opened with a quiet and generally firm market, which later developed weakness throughout the list, leaving prices at the close considerably below Saturday's closing. The market was entirely professional, with little or no margin or arbitrage business and with somewhat higher rates for money. The important stocks were generally quiet throughout the day and a few specialties monopolized the bulk of the interest. The feature of the market was an upward spirit of over 8 per cent in St. Paul and Duluth, common, part of which only was afterward lost. The story was that under the terms of its issue the preferred stock of the company must now be redeemed from the proceeds of land sales, in which case the common stock would fall here to the surplus. The Oregon stocks showed some strength, but the gains were afterward wiped out. There was considerable hammering for the purpose of securing lines of stocks, and the room traders induced their bestiary proclivities by vigorous attacks on New England. The entire list yielded to the pressure, there being a conspicuous absence of support while the market showed decided animation on the decline. The fluctuations of the leading stocks were generally fractions only.

The market opened firm with advances over Saturday's final figures extending to 3 per cent, while Northwestern was 3 per cent lower. The trading was moderate in volume, and the general list was alternately heavy and firm, with a general tendency toward the latter. A few stocks, among which St. Paul and Duluth and Oregon Improvement were conspicuous, made marked advances, while Fort Worth and Denver was specially weak. Beyond the further advance in St. Paul and Duluth the following business presented no other feature. In the afternoon, however, the entire market became more active upon increased business, and New England was the principal sufferer. Late in the day St. Paul and Duluth lost part of their large advance, and the market closed moderately active and heavy at 8½ on the lowest price of the day.

The entire active list is lower this evening and Fort Worth and Denver is down 1½. New York is still preferred and New England 1½; Canada Southern 1½; Marshall Coal and Pacific Mail 1½; St. Paul and others fractional amounts. St. Paul and Duluth, however, is up 2½.

There was a moderate business in railroad bonds. Sales \$1,655,000. Beyond the Atlantic and Pacific incomes, in which the business was \$65,000, there was very little feature, though Denver and Rio Grande fares were moderately active with sales of \$10,000. There are few important changes. Indianapolis, Bloomington and Western first preferred sevens rose 2 to 12; Texas Pacific consols 4 to 10.

Government bonds were dull but firm to strong.

State bonds were dull and steady.

Commercial.

The grocery trade continues to improve, several sales having been made yesterday of a satisfactory character. Coffees are a trifle firmer, while sugars remain steady and unchanged. Poultry receipts are large, and prices have declined. Choice butter is in good demand. No special features were developed in vegetables, drugs or oils firm.

Wheat—All grades rule quiet and dull, with few inquiries for even milling stocks. Offerings are fairly liberal and a shade easier. Receipts are moderate. Futures dull, nothing doing and not wanted. The visible supply shows a decrease of 1,439,665 bushels since last report.

Corn—Market is quiet, with not such a strong feeling prevailing. Receipts are liberal, which has a tendency to weaken prices. Fair demand for any and all grades. Offerings are light. No special inquiries are made. Futures dull. Visible supply decreased over 500,000 bushels during the last calendar week.

Oats—Not much doing. A quiet market prevails. Light offered and poor demand.

Rye—Quiet.

Bran—Faster, shade easier.

Hay—Firm, prices unchanged.
