## Does Your Heart Beat

Yes, 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Poisonous substances are thus absorbed into the blood. Keep the bowels open with Ayer's Pills.

They will now appropriate the necessary funds.

## ANOTHER RECORD-BREAKER.

Remington Ind., Mch. 28, Editor Democrat:

Dear Sir: I saw in your paper a short time ago of a Duroc sow that broke the record by farrowing 44 pigs in eleven months. I had a sow farrow 16 pigs March 25, 1905; 15 pigs September 2, 1905; 16 pigs March 23, 1906; total 47 pigs in two days less than twelve months. Raised 26 of them. Will you please publish this in your paper and oblige.

Yours very truly,  
J. A. TETER.

## PEOPLE OF THE DAY

### The Standard Oil Investigation.

As a result of a recent decision of the supreme court of Missouri it is believed by Attorney General Herbert S. Hadley that the New York supreme court will order H. H. Rogers to answer certain questions put to him by Mr. Hadley at the recent oil hearings in New York city, when Rogers declined to answer on advice of counsel.

The decision of the Missouri supreme court is sweeping in its nature. In

HERBERT S. HADLEY.

substance the court says that when corporations come into Missouri to do business they impliedly agree to obey the laws of the state, and they must obey them.

In his conduct of the Standard Oil investigation Mr. Hadley, who is but thirty-four years of age, has shown himself to be a man of great force and ability. Before his election to the office of attorney general of Missouri he practiced law in Kansas City.

### Names That Don't Fit.

There are two men in congress, one in the senate and the other in the house, who might be pardoned for going into court and asking to have their names changed. They are Senator Dick of Ohio and Representative Schneebell of Pennsylvania. Dick is not thick, as his name says; but, on the contrary, he is very thin. Mr. Schneebell's name signifies a "little beak"—that is, a diminutive nose. Schneebell is the affectionate diminutive of the word meaning beak, so the name was not given his ancestors in a mean spirit. His nose is one of the large ones to be found among members of the house. Senator Long of Kansas fits his name, but Representative Kline of Pennsylvania, the only Democrat from the commonwealth, is not little, his name to the contrary notwithstanding.—Pittsburg Dispatch.

### Raw Beef For Invalids.

Raw beef proves of great benefit to persons of frail constitution and to those suffering from consumption. It is chopped fine, seasoned with salt and heated by placing it in a dish of hot water. It assimilates rapidly and affords the best nourishment.

### THE BRICK COMBINE.

Tariff Enables It to Charge Exorbitant Profits.

The Chicago brick trust has been convicted in the Illinois state courts "for conspiracy to do an illegal act, to prevent competition and to restrict the production and sale of brick in the Chicago market." Seven officials of the companies composing the trust were fined \$2,000 each, and the fines were paid. As common brick is taxed under the tariff 25 per cent ad valorem and fancy brick much higher, there is no competition to prevent the trust from charging exorbitant profits, so the trust has comparatively no competitors, since the brick companies formed the combine.

If bricks were admitted free of tariff tax Canadian brick could come by ship to Chicago and compete with the trust. The tariff is the mother of trusts, and the Democratic policy of reducing the tariff is the only plan to protect the people from trust extortion. When a trust or combination has been proved the protection that the tariff gives such trust should be abolished, except a small per cent, enough to run the government.

### WANTED TO BE SHOWN

Mitchell Asks Questions as to Coal Mines and Coal Railways.

While the debate was in full swing Mitchell said the public wanted to know the relationship between certain large coal companies and certain railroads, including the Hocking Valley, and what part of their profits is absorbed by freight rates which go to the railroads that own them. He asked what profits the Vandalla Railway company realized out of the Vandalla Coal company; the relationship between the Big Four Railway company and the O'Garra Coal company; between the Dering Coal company and the Rock Island-Frisco Railroad company; between the Missouri Pacific Railroad company and the Western Coal company; the connection between Donk's Coal company and the Eastern Railway company; what part of the profits of Peabody's Coal company are charged up to the Pawnee Railway company.

J. H. Winder stated briefly that he would say that every share of stock of the Sunday Creek company was owned by the Hocking Valley Railroad company. R. R. Hammond said that Rock Island railroad interests owned \$100,000 of the bonds of the Dering Coal company. A. J. Moorshead said some of the stock of the Madison Coal

company was owned by stockholders of the Illinois Central railroad, but that was all. F. S. Peabody said the Pawnee railroad was nine miles long. O'Garra said no railroad controlled his mines. Donk said his coal company paid the same rates as any shipper. A. M. Ogle, president of the Vandalla Coal company, explained that the Vandalla Railroad company owned no stock or securities of his company and all operators were given the same privileges by the road.

### WHITE WAS THE DOVE

London Paper Calls Him the "Peaceful Picket" of the Algeciras Conference.

London, March 29.—In an editorial on the satisfactory outcome of the Algeciras conference The Daily Telegraph today comments upon the almost passionate desire for peace which has been revealed as the prevailing sentiment at all the European courts and chancelleries, and also upon the significant fact that, though France and Germany have had a sharp diplomatic conflict, they never have shown any disposition to deliberately pick a quarrel.

"Perhaps, however," the article says, "the most significant, though least obtrusive phenomenon is the part of peace-maker played by the American representative. Mr. White has been the 'peaceful picket' of the conference. Europe is indebted to him."

The Daily Telegraph also comments upon the fact that the United States thus found circumstances too strong for "doctrines" and was compelled to concern herself with European affairs.

### Governor Pattison Feeling Fine.

Columbus, O., March 29.—Governor Pattison passed a very comfortable night and is feeling fine, is the word by telephone from the executive mansion. Denial is made of the report that the governor will be taken to his home in Milford this week if he continues to improve, but he may be taken next week.

### England to Coerce Turkey.

London, March 26.—The government, it is reported, is planning a naval demonstration against Turkey as a warning to the sultan to withdraw the troops from Tabah, on the Anglo-Egyptian frontier.

### Landis Renominated.

Wabash, Ind., March 29.—Representative Frederick Landis was renominated by acclamation by the Republicans of the Eleventh district. The district is strongly Republican.

### Death Roll Up to Twenty-Six.

Wheeling, W. Va., March 26.—Two additional bodies have been recovered from the Century mine, running the death list to twenty-six. All others have been accounted for.
