

A Daily Necessity

that many people overlook, is the need of a full set of teeth. The loss of a finger does not injure the rest of the body; not so with a tooth. The loss of one or several teeth, affects mastication—digestion. It is very frequent to find that

TEETH THAT ARE MOST NEEDED

are those that are easiest to be neglected. One reason you will enjoy to have me give your neglected teeth the attention they need—new patients assist to send their friends to me. Come in and we will have a little talk on teeth.

FRIGHTFUL RAZOR STROKE

Cuts a Woman's Head Clean Off from Her Shoulders—End of a Quarrel.

Pittsburg, Kas., Nov. 24.—Following a family quarrel at Carona, twenty miles south of here, Hezekiah Stradler, a carpenter, aged twenty years, slashed Mrs. Butts, his next door neighbor, with a razor, cutting her head entirely off. The murdered woman was housekeeper for Stradler's cousin, who lived next door. Trouble started between Stradler's wife and Mrs. Butts. The man, it seems, had not been paying much attention to the trouble between the two women.

When the trouble broke out again and angry words were hurled across the backyard fence Mrs. Butts picked up a brick and hurled it at Mrs. Stradler, cutting a gash in her mouth. Stradler then, getting his razor, attacked Mrs. Butts. He made one slash with the razor and the head of Mrs. Butts was cut off clean at the shoulders, the head rolling into the yard, while the body of the murdered woman fell bleeding at his feet.

A slight sprinkle of rain came Sunday night, continuing along at intervals until Monday night, when a nice steady downpour set in and continued most of the night. Yesterday was clear and cooler. The rain was needed badly, and we need considerable more to wet the ground deep enough for the farmers to be able to do any plowing.

In some unexplained manner the report became current here Saturday evening that Miss Lucille Marshall, daughter of Mr. and Mrs. Geo. E. Marshall, had died at her home in Rogue River Valley, Oregon, where the family now reside. A friend of the family here called up Miss Minnie Bartoo of Remington, a sister of Mrs. Marshall, to learn if there was any truth in the rumor. Miss Bartoo stated that she had got a letter from Miss Lucille a few days before stating that she was well, and teaching school and getting \$50 per month, and hoped to save enough out of her wages to finish her way through college. Miss Bartoo had also received a letter Saturday from Mrs. Marshall stating that they were all in good health. It is not known how or where the false rumor originated.

THE CHICAGO JOURNAL.

Subscribers of The Democrat in this and neighboring counties will receive this week a sample copy of the Chicago Journal, the daily paper The Democrat is now clubbing with. Look the paper over and see if you don't think it is worth 1/2 cent per day to you—3 cents per week. This is all the paper will cost you, if taken in connection with The Democrat—\$3.00 per year for the two papers.

This is 50 cents less than our offer made last week, we having got an especially low clubbing rate with the Journal, and as we want to increase our own subscription list a few hundred before January 1, 1909, we make this astonishing low price for the two papers for a short time.

The Journal's special mail edition reaches Rensselaer on the early morning train the same date of issue in time to go out on the rural routes. It also reaches Remington, Goodland and other points having a morning mail in time to go out on the rural routes.

The market quotations of the Journal are unsurpassed by any Chicago daily, making it especially valuable to farmers and stockmen who want to keep posted on the markets.
