If your stomach, Heart or Kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by All Dealers.

LAND BARGAINS IN THE NORTH-WEST.

The Democrat is in a position to put prospective purchasers of land in the Northwest next to some good propositions, where they can save some money and buy land that is growing rapidly in value. If you are thinking of buying either for your own use or investment, write us how much you have to invest and the sort of farm you would like. We can connect you with the right parties and you will be treated right.

Call in or write for description of a 320 acre snap within 6 1/2 miles of Grand Forks, N. Dak., that must be sold within 30 days; only \$38 per acre with half of this year's crop, which will not be less than \$1,500 and may reach \$2,500; mortgaged for \$6,200 which has four years to run. Farm will pay good interest if you never touch it yourself, and in five years will be worth \$75 per acre at least.

FOREIGN SAILORS HIRED FOR LAKES

Secretary Says Contract Labor Law Is Violated.

FIVE HUNDRED ARE SIGNED

Vessel Owners Accused in Charges Filed With the Immigration Authorities—Attempt Will Be Made to Prevent the Landing of the Imported Hands—One Detachment Reported as Having Embarked Already—Arbitration Board to Meet in Detroit.

Detroit, May 18.—Victor C. Olander, general secretary of the International Lake Seamen's union, says that he has received a report that 500 Norwegian sailors are under contract to come to this country and take the places of striking seamen on the great lakes.

One detachment of the sailors has already embarked for the United States, according to the report, and others are to follow soon.

Officials of the union have taken the matter up with the immigration authorities and will make an attempt to prevent the sailors from landing. Secretary Olander says the hiring of the Norwegians is a direct violation of the contract labor law.

In company with J. M. Secord, president of the Marine Cooks' union, Olander is here to attend a meeting of the arbitration board.

ATTACKS SAMUEL GOMPERS

Committeeman Objects to Report Made to Manufacturers.

New York, May 18.—An attack on organized labor broke the routine of the first day's session of the National Association of Manufacturers.

Before a report on industrial education was read, it became known that Frederick W. Senyer of Milwaukee, a member of the committee, had refused to sign it on the ground that it contained unwarranted attacks on labor and further, in his opinion, the personal views of the chairman of the committee to the exclusion of other members.

A reference to Samuel Gompers to which Senyer particularly objected, reads as follows:

"To put organized labor in charge of a movement in the interest of industrial education and trade training, would be like putting the lamb in the care of the wolf or the chicken in care of the hawk. Witness the efforts of Mr. Gompers and his lieutenants to secure class legislation in congress, their attacks on the power of the courts to issue injunctions and their proposed amendments to the anti-trust laws."

Anthony Itner of St. Louis presented the report. He declared that some of the methods of organized labor are "damnable."

MORE PAY FOR 6,600 MEN

Philadelphia Transit Employees to Get 22 Cents an Hour.

OPTOMETRY.

"OPTOMETRIST" means a person licensed under the laws of the State to test eyesight and fit glasses. Having recently taken the State Board Examination and was one of a few that successfully passed, the privilege to use this title has been extended to me and is the State guarantee to you of my competency and authority to correct refractive errors by proper glasses, which is not only an improvement to vision but a benefit to one's general health. Remember the word "Optometrist," it will safeguard you against incompetents who are neither capable nor authorized by law to test your sight or prescribe glasses. You owe it to yourself to get posted on the new Optometry law, recently passed by the State for your and your family's protection.

If your eyes bother you and use you to feel bad, don't put it off, but call on the "Optometrist," have your eyes properly taken care of and be relieved of your trouble. I you break a lens or any part of your glasses don't take them just any place, thinking you can get the same thing, but take them to the Optometrist, there you take no chances. Remember this.

In order to get the people familiar with the new title "Optometry," which the State law has given the science of correction of visual defects by glasses, I will give \$5.00 in gold to the person that writes "Dr. A. G. Catt, Optometrist," the greatest number of times on a 3 1/2 x 5 1/2 inch postal card and mails to me on or before the first day of June, 1909.

DR. A. G. CATT, OPTOMETRIST.
Rensselaer, Ind.

Office over Long's Drug Store.

WHEN THE GREEN GITS BACK IN THE TREES.

In spring, when the green gits back in the trees,

And the sun comes out and stays,

And yer boots pull on with a good, tight squeeze,

And you think of yer barefoot days;

When you ort to work and you want to not,

And you and yer wife agrees

It's time to spade up the garden lot,

When the green gits back in the trees—

Well! work is the least o' my fees

When the green, you—now, gits back in the trees!

When the green gits back in the trees, and bees

Is a-buzzin' aroun' again

In that kind of a lazy go-as-you-please

Old gait they bum run in;

When the groun's all bald where the hayrick stood,

And se creek's riz, and the breeze

Coaxes the bloom in the old dogwood,

And the green gits—ack in the trees—

I like, as I say, in sich scenes as these,

The time when the green gits back in the trees!

When the whole tailfeathers o' winter time

Is all pulled out and gone!

And the sap it thaws and begins to climb,

And the sweat it starts out on

A feller's forehead, a gettin' down

At the old spring on his knees—

Kindo' like jest a-loafin' roun'

When the green gits back in the trees—

Jest a-potterin' roun as I—durn—please,

When the green, you know, gits back in the trees.
