## DENVER TO HEAR SPEECH BY TAFT

Interior Department Affairs to Be Discussed in Colorado.

### HIS VIEWS ABOUT RAILROADS

Executive Expresses Himself as Being In Favor of the Establishment of a Court For the Adjudication of Questions Arising Between Shippers, Consignees and Carriers—Omaha Mayor, to Prevent Strike Disorder, Orders Street Cars Kept in Barns.

Denver, Sept. 21.—President Taft tonight is scheduled to speak here on matters involved in the so-called Pinchot-Ballinger controversy. It is expected that his speech will clear away what he states have been misunderstandings with reference to coal lands in Alaska and other things.

The president found Omaha in the throes of a great street car strike. To avoid the possibility of trouble, Mayor James C. Dahlman ordered called off all attempts to run cars during the president's stay. The strike did not prevent the gathering of a great crowd in the downtown district and there were times when the president's automobile had difficulty in making its way through the cheering throng.

#### Talks About the Railroads.

In Des Moines Taft set forth his ideas with regard to railroad legislation. He declared in a speech that he is in favor of an interstate commerce court, similar to the recently established tariff court, to pass on appeals from the interstate commerce commission, to expedite and enforce decisions.

He would increase the powers of the interstate commerce commission, giving it authority to institute as well as hear complaints against unjust rates and to suspend or nullify burdensome rules and regulations by railroads.

Taft would give the commission power to correct evils in classification which has appeared since the establishment of the principle of government rate regulation.

The president has in view also the regulation of stock issues so as to prevent watering and the prohibition of the ownership by one road of the stock of a competing line.

He would allow rate agreement between railroads—not "pooling," he specifies—subject to approval by the interstate commerce commission.

#### Discusses Anti-Trust Law.

In taking up the anti-trust law, President Taft said he thought it might be made effective by confining its provisions to combinations having monopoly in view. He declared that he knew of no way in which a distinction could be made between "good" and "bad" trusts, for he regarded all combinations to suppress competition and to maintain a monopoly to be in the same category, whether the terms of the illegal contract should be regarded in some instances as "reasonable" or "unreasonable."

## EUROPE WAITING FOR RAILROAD REGULATION

Investors Want to Be Insured Against Financial Juggling.

Washington, Sept. 21.—"Hundreds of millions of dollars are in England, France and Germany awaiting investment in American railroad securities as soon as the investors can be assured of absolute federal regulation."

This statement was made by Franklin K. Lane of the interstate commerce commission, who has returned from a trip of nearly three months in Europe. He visited England, France, Germany, Switzerland and Italy and studied the railroad situation in all of those countries.

"Men of money abroad," continued Commissioner Lane, are satisfied that America is on the eve of a phenomenal era of prosperity and are ready and anxious to invest their money in any stable enterprise in this country; but what they want is some assurance from the government that their investments will be protected in a fair way. They would like to see capitalization of our railroads hedged about by federal legislation so that a purchaser of stock would be assured of getting what he paid for. With the enactment of a law

to prevent over-capitalization, American railroads would have no difficulty in obtaining in Europe all the money necessary for their development."

### MILITARY CIRCUS OPENS

Daring Feats of Horsemanship by Uncle Sam's Troops.

Des Moines, Sept. 21.—With a review of the 5,200 soldiers from all over the west by President Taft, the greatest army maneuvers and tournament in the history of the country began. Fully 25,000 witnessed the evolutions at Camp Corse.

The evolutions consisted of hair-raising exhibitions in which daring horsemen rode astride of two and three horses.

John Wilson, eight years old, was injured by a piece of the bridge which was blown up during the maneuvers.

### HUNDREDS WERE HIS VICTIMS

New Yorker Arrested For Operating Swindle Upon His Countrymen.

New York, Sept. 21.—Dominico Forte, the reputed head of the "European-American Transfer company," a concern through which it is alleged a petty swindle was conducted by which hundreds of Italians were victimized, is a prisoner charged with using the mail to defraud.

According to the inspectors, letters were sent out to credulous foreigners, explaining that jewelry had been received and that the "European-American Transfer company" had paid \$1.95 duty on the package which would be forwarded to its destination upon receipt of \$2.95.

### ODD FELLOWS' GRAND LODGE

Seattle, Wash., Sept. 21.—Twenty-five thousand members of the order from every state in the Union are here to attend the Sovereign Grand Lodge of the Independent Order of Odd Fellows of the United States and Canada.

Popular interest centers in the great parade tomorrow afternoon, when at least 20,000 men in regalia, led by the Patriarchs Militant, will march through the downtown streets. Drills of the Patriarchs Militant will be held today, tomorrow and Thursday, prizes being valued at \$8,000.

They left South Bend for Chicago as soon as the marriage ceremony was completed.

The groom is a graduate in engineering from Notre Dame. They will reside in Chicago.

### HEMENWAY SEES PROSPERITY

Former Senator Says Business Rush Answers Anti-Tariff Talk.

Washington, Sept. 21.—Arguments made against the Payne tariff bill, in the opinion of former Senator James A. Hemenway of Indiana, are being answered by the developments in the business world since the new tariff law has gone into effect.

Hemenway stopped in Washington on his return to Indiana from a trip through the east, in which he visited New York, Boston, Philadelphia and other business centers. He was bubbling over with prosperity predictions.

"That there would be great increases in the prices of the necessities of life as a result of the Payne bill," said Senator Hemenway, "is already disproved by developments in the business world."

### WATERWAY PROMOTERS BUSY

Will Ask Beveridge and Shively to Attend Fort Wayne Meeting.

Fort Wayne, Ind., Sept. 21.—Promoters of the proposed Toledo, Fort Wayne and Chicago Deep waterway, in a conference here, made preliminary arrangements for a meeting in the interest of the project to be held in this city on Nov. 10 and 11 next.

## GLAVIS TO KEEP UP HIS BATTLE

Notifies President Taft That He Has a Bomb Ready.

### THINKS EXECUTIVE IS MISLED

Land Office Chief Who Was Summarily Dismissed by Secretary Ballinger Intends to Make Public the Charges He Carried Directly to the White House—Declares Public Will Know All the Facts About Alaskan Coal Entries.

Seattle, Sept. 21.—L. R. Glavis, late chief of the United States land office, has written a letter to President Taft in which he says he will publish the evidence in the Cunningham coal land cases shortly. The communication follows:

"I have laid before you all the essential facts in my possession regarding the official conduct of certain cases by the department of the interior concerning coal lands in Alaska. As chief of the field division directly concerned and because of the tremendous values involved, I felt my personal responsibility most keenly. The evidence indicated that a great syndicate is trying to secure a monopoly of this coal, in direct violation of the law. Ultimately I felt myself obliged to appeal to you over the heads of my superior officers in order to bring about the enforcement of the law, which, in a measure, would conserve these coal lands to the people at large. I deemed it my duty to submit the facts to you and I cannot regret my action.

"Since there may be now even greater danger that the title to these coal lands will be fraudulently secured by the syndicate, it is no less my duty to my country to make public the facts in my possession concerning which I firmly believe that you have been misled. This I shall do in the near future, with a full sense of the seriousness of my action and with deep and abiding respect for your great office."

Glavis recently was summarily dismissed by Secretary Ballinger because he went directly to the White House with charges involving coal entries in Alaska.

Pinchot had some great fishing. Two swordfish, weighing 180 and 195 pounds, were captured on light fishing tackle by him. One of these was hooked while Pinchot and Pardee were in a small rowboat. They were towed ten miles to sea and were rescued by Professor Holder with a gasoline launch.
