

GREAT CRISIS IN IRISH STRUGGLE

Funds Are Needed to Carry
on the Campaign.

T. P. O'CONNOR COMING HERE

Will Sail for the United States at the Request of John E. Redmond to Explain the Political Situation in England and Ireland to the Supporters of the Irish Cause in America—Nationalist Point of View as Set Forth in Appeal.

London, Oct. 8.—T. P. O'Connor, M. P., will sail shortly for the United States at the request of John E. Redmond, the Irish leader, to explain the political situation here to the supporters of the Irish cause in America and to appeal for funds to carry on the struggle for home rule.

The nationalists regard the approaching general elections as one of the most critical periods in their history, and the full power of their organization will be utilized in helping the liberals deprive the house of lords of the power of veto, which, they claim, is the sole remaining obstacle to home rule.

The nationalist point of view is set forth in an appeal Mr. Redmond is forwarding to M. J. Ryan, of Philadelphia, which is as follows:

"A great crisis in the Irish struggle has arisen. The house of lords is engaged at this moment in destroying the Irish land bill, with its promise of closing the land war of centuries and completing the restoration of all the land of Ireland to her people and the banishing forever of misery and famine from the west of Ireland.

"General elections are certain within the next two weeks. In these elections the veto of the house of lords will be at stake, and with the veto of the house of lords will disappear the last obstacle to home rule.

"In this fight Ireland will have arrayed against her all the forces of landlordism, wealth and privilege. Once more we appeal to our race to help us fight against these powerful enemies of our race."

Hearst, notified officially of the intention of his friends to run him as an independent mayoralty candidate, said he would prepare a statement, but declined to announce whether he would accept the nomination.

MIX'S DESCRIPTION OF HIS TRIP IN BALLOON

Tells of Peasants Angered Over Broken Tiles and Chimneys.

Paris, Oct. 8.—Edgar W. Mix, winner of the international balloon race for the Gordon Bennett trophy, gives the following account of his voyage:

"Leaving Zurich we were able to recognize our route only as far as Constance. Thence to the finish the weather was so thick that direction could only be determined by compass. The balloon, in a drenching rain, sometimes seemed to be at a complete standstill. We ascended and descended in search of better currents of air, without appreciable results.

"The passage of the Bavarian Alps through rain and clouds was thrilling. Once we swooped down the mountain side with frightful velocity, plunging into a chasm of fog which seemed bottomless. It was as if the earth had opened to swallow us up. The balloon several times crashed through the tree tops. When clear of the mountains we moved at a lively rate. The guide rope dragged over farm houses, breaking tiles and chimneys. The peasants rushed out with cries and imprecations."

GRADING THEME OF GRAIN MEN

Committee Appointed to Settle
All Important Question.

CHICAGO GAINS CONCESSIONS

Some of the Demands Which Are Presented by Delegates From the City Where the Bulk of Trading Is Done Are Granted by the Convention in Indianapolis—Others Are Passed. Corn, Oats, Barley and Rye Standards Are Adopted.

Indianapolis, Oct. 8.—The Grain Dealers' National association's convention conceded some of the demands made by the Chicago delegates for changes in the grades draft adopted at the St. Louis convention last year. The grain men have finally fixed upon uniform grading for corn, oats, barley and rye and adopted the Kansas City, Chicago and southwestern market grades on milo maize and kafir corn. They also made concessions by granting part of the Chicago men's demands for changes in wheat tests.

There were five demands by the Chicago men for changes in wheat gradings that were not granted. Steps were taken to reach an agreement on these five points by the authorization of a committee of five which will call a conference with the Illinois, Minnesota, Missouri and Kansas state commissions and prominent boards of trade. At this meeting an effort will be made to get an agreement on these five grades of wheat.

The first of the refusals was the demand to raise the test weight of No. 2 white wheat from 56 to 57 pounds. Another denial was the demand that No. 2, 3 and 4 hard winter wheat may contain a maximum of 25 per cent red winter wheat.

The convention refused to raise the test weight of No. 1 hard spring wheat from 58 to 59 pounds and No. 2 northern spring wheat from 57 to 57½ pounds.

The convention indicated it would grant an additional one pound to the test weights of velvet chaff wheat grades, but refused to accede to the Chicago demands to raise the weight test approximately three pounds.

The convention conceded the demands of the Chicago men for the use of the word "new" as now used in the Illinois rules.

SHOT STOPS SHOPPING TOUR

Husband Kills Wife Who Intended to Sue For Divorce.

Kokomo, Ind., Oct. 8.—William Robinson shot and killed his wife in a dry goods store here when she reiterated her intention of bringing suit for a divorce. Robinson found his wife shopping with her sister.

"Is it true that you intend to bring suit for divorce?" he demanded. When she said yes, and before clerks could interfere, Robinson shot her twice through the breast. There was a panic among the clerks and in the confusion Robinson walked from the store. When arrested a few minutes later he said: "I guess I am crazy."

In a rambling explanation at the jail Robinson said he did not know why he had killed his wife. Previous to the shooting he said he had met Mrs. Robinson and her sister and they had ignored him.

Robinson is a son of David Robinson who in 1875 killed two of his children attempted to kill his wife and shot at the man now a prisoner. The elder Robinson was killed by falling from a freight train trying to make his escape.

South Bend, Ind., Oct. 8.—The state having rested in its attempt to convict Mrs. Leona B. Mason on a charge of attempting to shoot and kill John W. The gist of Talbot's story was that instead of hounding Mrs. Mason he was himself hounded by her.
