At the same time he started across the street John Fry was going west along North Railroad street in his automobile. He thought Mr. Tobias was going straight ahead and he would go behind him. The former stopped however, and Fry steered for the left. About this time Tobias started up and getting mixed was struck by the machine and run over. The machine passed over both legs, but fortunately did not break any bones—it was a Ford. He was taken into the restaurant and the doctor called, who attended to his injuries, which were not very serious. Later in the day he was taken home, where he has been doing well. Mr. Colbo recently built a big barn with a very large mow in which the hay is stored away in sections. He had just finished getting some hay down and attempted to descend the ladder; it slipped, his right leg protruded between the rounds and in that position he fell to the floor of the mow. He was so badly injured that he was helpless and his precarious condition was not discovered until members of the family heard moans coming from the direction of the barn. He was carried into the house and Dr. J. C. Sharner was called to reduce the fracture. He found the limb so badly swollen that the set was deferred until Monday when Dr. Clayton of Monon, was called to assist with the case.
