

# HAPPENINGS IN OUR NEIGHBORING VILLAGES

## ROSELAWN

J. W. Crooks visited the family circle at Rensselaer over Saturday.

R. M. Dunn of Thayer and Otis Phillips were Lowell visitors Monday.

Susie Dinama and son Duke have returned from Chicago and will reside here in the future.

Mrs. Peter Nelson of Brookston visited with the Nelson families Tuesday and Wednesday.

Dorothy Rogers and Mary Jane Phillips were consulting their music teacher at Rensselaer Saturday.

The prospects are good for a large acreage of pickles and other garden truck to be planted this season.

Friday, March 23, I. N. Best was 81 years of age, and the occasion was made a day of great pleasure to him. The following relatives were present: Mrs. Alice Van Voorst, daughter, of Dayton, Kansas; J. E. Best and wife of Shelton, Illinois; E. M. Best, wife and three sons of Conrad, Indiana; Curtis Best and wife of Chicago; Mary Ramster and son William of Hoopston, Illinois; James Kleppinger and wife of Battle Ground; Ollie Robertson of Brookston; Kit Smalley, Onie Rhoads and daughter of Hammond, and Edna Cooper of Chicago.

Mr. Best is one of Newton county's oldest residents, and while he has fallen some in health in the past two years, he is still able to get around and attend to business affairs. May he and his good wife live to enjoy many more such pleasant days as the one recorded above is the wish of their many friends.

## FAIR OAKS

W. O. Gourley is prospecting in Tennessee nowadays.

Mrs. John Zellers of Virgie was a business visitor here Monday.

Fish Gilmore has a big pile of old iron which he has gathered up from over the country.

Mrs. Abie DeKoker of near Demotte visited her parents, James Clifton's, from Saturday until Monday.

Mrs. A. I. Abel and two little girls visited Mrs. V. G. Boyle at Lacross from Sunday until Wednesday evening.

Sam Kettering, who had been an operator on the Erwin dredge since last fall, has quit and Arthur Ropp has taken his place.

Rev. Hensley filled his regular appointment here Sunday. He delivered two splendid sermons to good-sized congregations.

Health still continues reasonably good in our town. Mrs. Richards, who has been ill for so long, is some better at this writing.

Erwin's dredge got to the Monon railroad Wednesday. They proceeded to turn it around and will now back-track to the lateral.

Charles Warne, who had lived in one of Abe Bringle's properties the past month, moved this week out onto the Gaff ranch, to the place where Homer Stanley lived last year.

Mrs. Lavengoth, who was taken to her mother's home, Mrs. George Stover's, seriously ill some time ago, was brought home about a week ago and is now able to walk down town.

Sylvester Gray, the highway su-

perintendent, was here a few days ago and with a couple of teams to a road grader went over gravel roads in this section of the country.

We had some quite Marchy weather the past few days, although the roads are settling nicely and quite a good many farmers have begun sowing oats and others will begin soon.

Guy Potter, who went to Iowa about two years ago and not long since took unto himself a wife, one of Iowa's fair daughters, a short time ago was taken to a hospital to be treated for a very serious attack of blood-poisoning and now has so far recovered, it is reported, to return with his bride to his native land, Jasper county. At present he is at his mother's home, Mrs. Harvey Davison's, in Rensselaer.

## WHEATFIELD

A large crowd attended the annual sale at the Marble ranch Tuesday.

Roy Blue is having his new house painted. He surely has a fine country place.

Ed Lambert was called to Missouri last Wednesday to see his father, who is very sick.

Our farmers are busy disking and sowing oats. The land is in first-class condition and in tune for a good crop.

C. M. Dewey, Charles Hewett, Mr. Minor and son Guy and your scribe took an auto trip over into Kankakee township last Sunday.

The Fisher sale was well attended and things sold well. One cow sold for \$115, which speaks well for the cattle of northern Jasper.

The farmers in the vicinity of Wheatfield should get in line and organize a farmers' club. Great success is the result of organized effort.

Dr. Fyfe has diphtheria patients at Laura. With a great amount of sickness, plus the measles, the doctor surely had a work-out with big letters this winter.

George Davison was a caller at the Minor home last Sunday. "Shorty" is a good-looking bachelor and how he got safely through leap year will always be a mystery.

William Mutchler is the proud possessor of an auto of the Dodge tribe. At first Bill said his Dodge kept him dodging to miss things, now all he can hit is the high places.

Ezra Whitehead, our hustling lumber and building material dealer, sold seven cars of tile in seven days last week, ending Saturday evening. Some record on a side line.

Some of the second rate editors used to lambast old Jasper and say a lot of cruel, bad things about her, but today those editors are sleeping with their fathers, unknown and forgotten, while old Jasper is still doing business on a grand scale. The big fish couldn't keep a good man down; neither can knockers arrest our onward march.

George Handley, who has a beautiful flock of white turkeys, missed a dozen of them Saturday morning and remembered having heard a disturbance among them in the night Friday. He concluded he had been the victim of a thief or thieves and reported the matter to us toward evening Saturday. However, just a few minutes after reporting the loss to us, another call came from the Handley home apprising us of the fact that the turkeys had been located at a neighbor's, a short distance off, where they had strayed, no doubt.

Our genial old-miller, J. M. Huffy, received the sad word Friday that his brother Charles at Wolcott was very sick. Mr. Huffy left at once to see him but before he arrived there Charles had passed away, on Saturday, March 24, which, by the way, was his birthday anniversary. Arrangements are being made for the funeral to be held on Wednesday, the delay being occasioned by his children living at so great a distance. Two daughters live in Washington state and one son lives in Des Moines, Iowa. The son has already arrived at his father's late home and the two daughters are expected today (Tuesday). J. M. Huffy left Tuesday to be present at the funeral. Charles was an old soldier and an Odd Fellow and that order will have charge of the burial service.

were sorry to see him go home.

## IT IS SERIOUS

Some Rensselaer People Fail to Realize the Seriousness of a Bad Back.

The constant aching of a bad back.

The weariness, the tired feeling, the pains and aches of kidney ills.

May result seriously if neglected. Dangerous urinary troubles often follow.

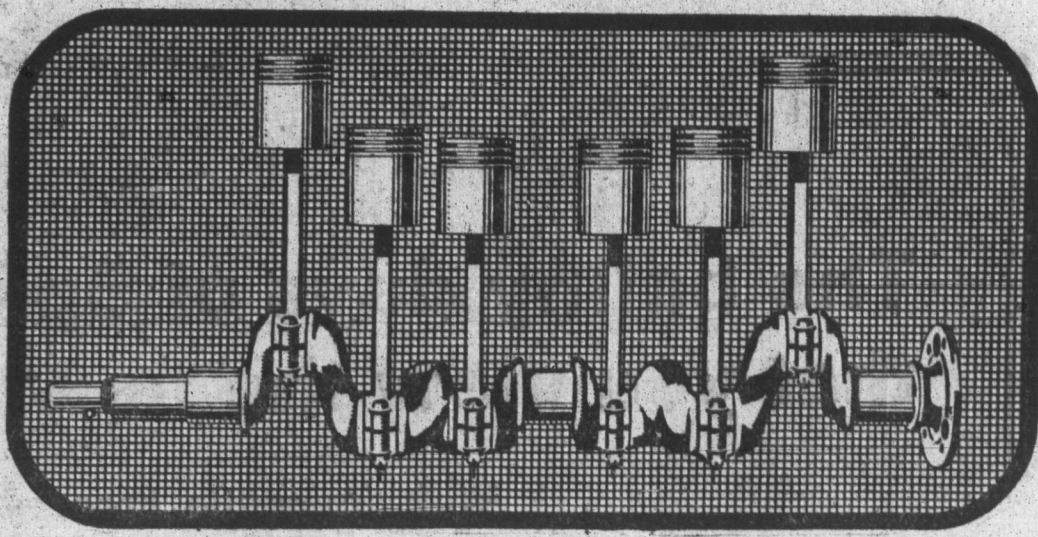

A Rensselaer woman shows you what to do.

Mrs. A. Woodworth, S. River St., Rensselaer, says: "My back was weak and lame and all the time I had a dull, heavy pain across my kidneys. When I stooped to pick up anything, a sharp twinge caught me. I was nervous and tired and could hardly stand that throbbing ache in my back. Doan's Kidney Pills gave me relief from these ailments."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Woodworth had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

## Every Part a Quality Part In the Chalmers

Chalmers puts quality materials and quality workmanship into every piece of every Chalmers car. Therein lies the difference between the Chalmers and most other cars.

Here are three parts out of thousands in the chassis. They are hidden moving parts of the motor—the crankshaft, connecting rods and pistons. Chalmers makes them of extraordinary materials with extraordinary care and thoroughness.

### Connecting Rods—Strong, Light

Connecting rods are designed to secure rigidity and lightness. They are made of special carbon steel. Are unusually strong and dependable. Each rod weighs only 41 ounces. Yet they will withstand greater stress and strain than some connecting rods weighing almost twice as much.

### One-Piece Crankshaft

The crankshaft is drop-forged from heat treated carbon steel in a single piece. Balancing weights are integral with the shaft. The shaft is 2 1/4 inches in diameter. Sturdy, but not heavy. Rigid. Strong. It is balanced while rotating at a fast rate of speed, on a unique machine. This helps you to understand why the Chalmers motor is so smooth.

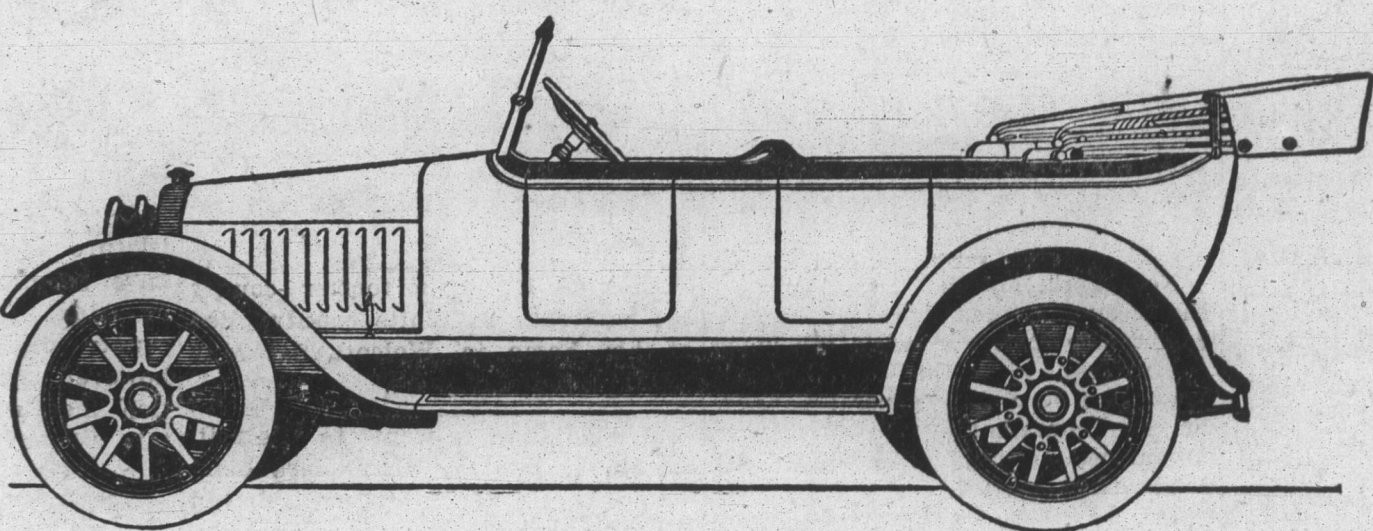

### Light Weight Pistons

Chalmers pistons are of Lynite. A light and tough metal, about 1/3 the weight of cast iron. Chalmers pistons reduce the strain on the bearings. They insure the marvelous Chalmers smoothness. They make possible the remarkable Chalmers power.

All of the above means quality. The kind of quality you need in the car you buy, and the kind of quality you GET in the Chalmers
