William Timm died last Monday, March 18, at the age of forty-five years and seven days. His mother, Mrs. Ricka Friday Timm; six brothers, Fred, Charles, Lewis, Edward, Otto and Gus, and two sisters, Mrs. Jim Dunn and Mrs. Geo. Hanson, the latter of Minneapolis, Minn., survive him. The funeral was held Thursday at 2 p. m. at the German Evangelical church.

The remains of Thomas Virgil Budd arrived on last Saturday evening and were taken to the Budd farm home. The funeral was held at 2 p. m. Sunday afternoon, Rev. F. F. Hargrave officiating. The Methodist church with its seating capacity of between 500 and 600 was not large enough to hold the friends and neighbors and Americans who came to pay a last tribute to this boy who is the first to give up his life for his country in the present world conflict, and more than 100 were standing in the vestibule outside. Thomas Virgil Budd was born in Greentown, Ind., August 11, 1894, and departed this life at the Philadelphia Naval hospital March 11, 1918, aged twenty-three years, five months and ten days. His death was a result of pneumonia. He has been a well known and highly respected member of this community for the past ten years. He enlisted in the service of our country May 18, 1917, at Detroit, Mich., as an Indiana volunteer, and has been in active service on the U. S. S. Michigan since September 15, during which time he made two trips to France. About a month ago he came home on a short furlough, little thinking it would be his last visit home. He leaves to mourn their loss a father and mother, Mr. and Mrs. William Budd, three sister, Mrs. Tempest Shield, Elizabeth and Helen, and three brothers, James, John and Hartle, all of Medaryville. Thomas was a kind and considerate son and brother and respected and loved by all who knew him. He is the first of our brave soldiers on the honor roll to merit a gold star on the service flag.

Modified regulations relative to the sale of wheat flour prohibits an extension of credit for the purchase of substitutes except at the time and in equal quantity of the purchase being made.

Paste used for hanging wall paper must be no better than a very low grade of wheat flour, which is unfit for bread making. This statement comes in anticipation of the house cleaning season. Paper hangers who have always used white wheat flour for paste making must find some other material as wheat flour fit for bread-making is entirely too precious for such use at this time.

Farmers who have been feeding wheat to live stock on the theory that it is a more economic practice than feeding corn, are laboring under a misapprehension of the chief statistician. The United States Food Administration at Washington has tabulated cereal prices as follows:

Average price received by farm-er dur-ing 3 pre-war years (per bu.)

Percentage increase of price of received present by farm-er now pre-war (per bu.)

Cereal (per bu.)

Wheat ... \$0.869 131

Corn665 1388 109

Oats404 787 105

Barley642 1319 105

From these figures it is clear that the price of no other grain has advanced so much respecting net return to the farmer as compared with pre-war conditions, as has that of wheat. Transportation difficulties have operated to create higher prices to the consumer because it has not been possible for the railroads to get grain to primary markets as fast as the demand for export and domestic use could and would have absorbed.

"In order that we may comply with the urgent demands of the allies for wheat and at the same time take care of our own domestic supplies we urgently need, this year, an earlier and more complete marketing of the wheat in farmers' hands than usual. The allies are taking from us 50 per cent. of other cereals than wheat to mix in their bread. Inasmuch as the people in allied countries and the soldiers must be fed with bread baked in bakeries, it is impossible for them to prepare bread made wholly out of other cereals and we must furnish them with sufficient wheat to maintain their bakery loaf. I therefore appeal to all of the farmers in the State of Indiana that they shall bring all of their wheat except their necessary reserves for seed to market before May 1. This is a war call and a service for Uncle Sam who is fighting for his life. If your local miller is unable to buy all the wheat that is offered, market it

"HERBERT HOOVER."

Hot Cross buns for Easter consumption must be without icing and made by the Victory recipe which calls for a minimum of 20 per cent. substitutes for wheat flour.

The waste of eggs either by unusual consumption or by rendering them inedible by coloring matter is considered unpatriotic, and is taboo this year.

Bakers must conform to the Victory recipe or quit business after March 20. By that time if the required 20 per cent. of substitutes is not available bakers will be forced to quit. In the meantime they are urged to combine the substitutes, which will serve to remove many of the difficulties that have been experienced where only one substitute has been used.

Modified regulations relative to the sale of wheat flour prohibits an extension of credit for the purchase of substitutes except at the time and in equal quantity of the purchase being made.
