Jack Gasaway went to Rensselaer Tuesday.

Threshing is progressing slowly around these parts.

Elsie Zellers returned home from Hammond Saturday.

Ancil Potts and wife were Rensselaer goers Saturday.

Mr. and Mrs. Ellis Spurgeon were Rensselaer goers Tuesday.

Miss Anna Erwin visited Miss Jessie Zellers Friday evening.

Wm. Potts and Vera Harrington are on the sick list this week.

Howard Gilmore stayed with Lewis Harrington Monday night.

Miss Indus Wiseman is spending

her two weeks' vacation with home folks.

Lewis Harrington and T. J. Mallatt went to Fair Oaks Sunday morning.

Miss Mabel Barnes visited the James Wiseman family a few days last week.

Mrs. W. W. Zellers and son Dean and T. J. Mallatt went to Rensselaer Monday.

Lewis Todd and family called on the Lewis Harrington family Sunday afternoon.

Mr. and Mrs. Morton Clifton took dinner with Mr. and Mrs. T. J. Mallatt Sunday.

Henry Hochbaum and family called on the Lewis Harrington family Sunday afternoon.

Mr. and Mrs. C. A. Harrington, Mr. and Mrs. John Maher and Mrs. Lewis Harrington were Rensselaer goers Monday.

T. J. Mallatt has gone for an indefinite visit to Kansas, where he will visit his sister and brother. He started Tuesday morning.

The Neighborhood Corner

Department of Farm Welfare
Conducted by County Agent
Stewart Leaming.

County Farmers' Meeting Is Being Arranged.

Joseph Kosta, of Union township, has been busy arranging for a meeting of the farmers of Jasper county with representatives of the Indiana Federation of Farmers' associations to be held in the near future. The meeting will give the officials of the state organization an opportunity to explain the purposes of the federation and the means being used to carry out its ideas. It will give the farmers an opportunity to inform themselves fully upon the policies that the organization expects to pursue and an opportunity to judge the benefits that will accrue from membership. Mr. Kosta has received word that this meeting will be held at Rensselaer in the near future and asks all interested to watch the papers for more definite announcement.

More Hessian Fly Expected.

A gradual increase in damage from the Hessian fly the next few years is the prediction of James Troop, entomologist of the experiment station, in a statement issued last week. "The time is fast approaching when the Hessian fly pendulum will swing back towards a maximum crop in the future. I have received some complaints this summer. There will undoubtedly be more next year. Your farmers should therefore take due notice and govern themselves accordingly."

Quite a little fly infestation was noticed in various parts of the country this year. According to Mr. Troop, this will be worse each year for several years.

The fly free dates recommended for this part of the state are from September 23 to October 8. Experienced wheat growers of this locality like to get the wheat in early and give it a good start before winter. Sowing on the earliest fly free date and the use of enough commercial fertilizer or manure to put the wheat in good condition for the winter is a practice which will doubtless prove most profitable over a series of years.

University Exhibit to Be Shown This Fall.

G. M. Frier, head of the department of short courses and exhibits at Purdue university, was in the county recently arranging for space for an exhibit that the university expects to make in connection with the livestock show this fall.

According to Mr. Frier, the exhibits being prepared this year at the university are more elaborate and complete than they have ever been before and embody more new features than have been used for several seasons. For example, one of these from the poultry department, shows the culling of farm flocks. Two hens are shown, one

of which produces fifty eggs per year and one one hundred and fifty eggs. How to detect the poor layer and weed her out as an unprofitable bird is shown in the material on exhibition.

Since horse trading has passed out of style, Ford trading is rapidly taking its place. To prove it: Charles Florence traded his Ford for another one last week.

FOUR CORNERS

Wheatfield is to have a new telephone system.

A nice shower visited the north part of Jasper county Wednesday forenoon, which was thankfully received.

One of the Davis & Wills machines finished its "run" Monday and is now threshing on a new run west of San Pierre.

W. I. Hoover came through Wheatfield Tuesday evening with a new Dodge car, which he had secured at Valparaiso for a customer.

Dr. Fife of Wheatfield stepped off the train Tuesday evening for a few weeks' stay with his family, the same old sport. May his stay be prolonged.

In the ball game Sunday at Wheatfield the Michigan team was shut out by the Teft-Wheatfield boys. Gerald Maloney pitched for the home team and proved he had all a pitcher desired—speed, curves and control.

Frank Clager and the Myers brothers have rented the Barnard land for next season in Kankakee township, which had been farmed for several years by Mr. Minor, who, it is reported, will purchase a farm and live a rather retired life.

Wheatfield is talking a homecoming for everyone, especially for the boys who have returned from overseas. The proposition is taking form and if perfected the old ball team, the Wheatfield Regulars, will be seen in action and a social good time for all.

The Dodge that failed to dodge is the one owned by Wm. Fitzgerald, Sr., and drove by Will, Jr., over near Valparaiso, when the car came in contact with an interurban car near Flint lake. No one injured but the car was decapitated, the fenders badly bent and the occupants badly frightened. Keep your foot on the brakes.

The switch-plug was taken out of the switchboard at Wheatfield Monday and the phones were put on the "blink." This line has been giving such poor service that Mrs. Dunn, who had charge of central, could do nothing for the subscribers and nothing financially for her services, quit the job. Had it not been for a meddlesome matie, it is said, a new man would have put in a new service and put north Jasper in touch with the outside world and once again on the map. What do you think of a would-be booster who obstructs?
