Obituary
Charles T. Otis
Charles Tillinghast Otis died in Chicago Feb. 8, 1920. He was born Feb. 23, 1852, in Berlin township, Erie county, O., and was a son of the late Frederick R. Otis and Emeline Tillinghast Otis. He was a graduate of the University of Chicago.

Charles and his father were much interested in draining and improving lands in Keener, Union and Lincoln townships in Jasper and Newberry 80's, when this district was a wilderness. The construction of the Chicago branch of the Monon gave them the opportunity to go on with their work as the railroad was opened up through their land. After the death of Frederick O. Otis in 1903, Charles kept on developing the farm lands. His dairy farms in Jasper and Newton counties have for many years been shipping milk to Chicago daily. The shipment was the largest on the Monon. A delegation of his farmers and Roselawn people attended his funeral in Chicago on Feb. 10. His many friends in Indiana will miss his genial presence.

Mrs. Eilt Tobin
Catherine Weber, the subject of this sketch, was born in Wöhra, Hesse-Kassel, Germany, Sept. 15, 1862. She spent her childhood and girlhood days in the place of her birth and here she also received her education. At about the age of 21 she came to America and

spent one year in Buckley, Ill., and then moved to Melvin, Ill. On Feb. 3, 1887, she was united in marriage with Eilt Tobin. To this union four sons and one daughter were born.

Eight years ago Mrs. Tobin moved with her family to Jordan township, Jasper county, Ind., where they lived on a farm.

Shortly before their marriage she with her husband united with the German Methodist Episcopal church at Melvin, Ill., of which she remained a faithful member.

After a siege of sickness of but a few days duration she passed to her eternal reward early Monday morning, Feb. 9, 1920, at the age of 57 years, 5 months and 25 days. Mrs. Tobin had many friends both in Illinois, her former home, and also in Jasper county, her late home. She was always cheerful and had a kind word for every one and was a splendid neighbor. She loved her family to which she was greatly devoted.

Mrs. Tobin had a deep religious nature which she cultivated. She was greatly interested in the Sunday school and religious service, held at James school house and did what she could to make that work an influence for good. She will be greatly missed in the community in which she spent the latter part of her life.

She leaves to look forward to the meeting over there, the faithful husband, four sons, John H. of Melvin, Ill., Henry B. and Louis S. of Jordan township and Albert L. of Rensselaer; a daughter, Catherine E., who is at home; four grandchildren; two brothers in this country, John Weber of Beatrice, Neb., and Louis Weber of Melvin, Ill., also two sisters and a brother in Germany, and a host of friends. Funeral services were held at the Trinity M. E. church in this city Wednesday afternoon and interment was made in Weston cemetery. The Rev. E. W. Strecker was in charge and was assisted by the Rev. H. Stahmer of Melvin, Ill.

Card of Thanks
We desire to extend our heartfelt thanks to the neighbors and friends for the kindness and sympathy shown us during the sickness and death of our wife and mother.—EILT TOBIN AND FAMILY.

Department of Farm Welfare
Conducted by County Agent
Stewart Leaming.

Farm Labor Situation Improving
More laborers* for the farms have been received into this county in the past week than in any previous week this season and it begins to look as if the more urgent demands for help may be cared for in good shape if farmers give the

8 PER CENT
Non-taxable

matter attention at this time.

A common difficulty in providing help is that many farmers have no work for their extra men at this time of the year when the work in the cities is slack and good men pass up the opportunity in search of places for the summer. Readjustment of the farm operations to provide profitable employment for men at this season would enable many farmers to secure help that will otherwise have to do without.

Applications for farm help will be received at this office up to Feb. 1 and filled as rapidly as possible.

Poultrymen Will Meet Feb. 26

Members of the county poultry association will meet at the court house Thursday evening, Feb. 26, at 7:30 o'clock for an important business session involving the purchase of new equipment for future shows. Arrangement is being made for some of the members to take over the old equipment and replace it with modern and up-to-date exhibition material. The president has issued a call for all members of the association to be present at the meeting.

Extensive Use of Phosphates Indicated

As a result of an item appearing in this column last week relating to basic slag as a source of fertilizer, it is probable that a group of farmers will club their orders and secure a carload of this material direct from the mines.

A very general tendency is noted this season for the farmers to recognize the economy of using high-grade fertilizing materials. A few years ago it was a matter of common observation that many farmers looked only at the cost per ton in purchasing their season's supply, paying little or no attention to the chemical analysis of the goods or the availability of the various elements contained therein.

The farmer who buys his fertilizer on the basis of the net cost per unit of the available plant food is the one who is going to buy the cheapest.

A Good Year for Self Feeders

Lumber yards report that they are selling more lumber this season to farmers to go into self feeders for hogs and cattle than ever before. The fact that hogs can balance their own rations better than the farmer who feeds them and that the self feeders are great labor savers tends to bring them into the favor of the public. No cheaper

8 PER CENT
Non-taxable

method of feeding hogs has yet been devised than that of feeding corn and tankage to hogs in the self feeder and at the same time giving free access to plenty of clover or alfalfa pasture and water. The hog feeder who still depends on the old armstrong methods of hog feeding is soon going to be hopelessly outclassed as far as economy of production is concerned.

Saving—And Getting the Best

There is no way of spending \$2.50 and getting so much for all the family as to subscribe for The Youth's Companion for a year—52 issues. First and most important, it is a bargain because it is reading that is worth the time you give to it. It gives back in character-making and character-conflicting quality. Then a year of The Companion is big in quality—52 issues weighted with everything good. Great serial stories, group stories, short stories, rare articles, and a tide of fiction, fact and fun such as you cannot find elsewhere. Subscribe now and get the early chapters of Sons of Liberty, the 10-week serial by Theodore Goodridge Roberts.

And here is a combination of reading that will save you money and supply every taste in the family:

1. The Youth's Companion—52 issues—\$2.50.

2. McCall's Magazine—the great fashion authority. 12 style issues. Price to be advanced April 1 to \$1.25.

Subscribe today and get both periodicals for \$2.95—a saving of 80 cents.

THE YOUTH'S COMPANION, Commonwealth Ave. & St. Paul St., Boston, Mass.

Automobiles

February 13, 1920.

Dear Sir: Representing the perfection of engineering ideas many years ahead of other cars, the Essex is new, different and exclusive, the result of advanced design and fine quality.

The Essex is the only high-grade automobile on the market today selling for less than \$2,000. It is the only car combining extreme economy of operation with power, comfort and durability. Possessing the luxury and performance of the most costly cars, it has the further advantage of much greater economy.

Since the very first day of its introduction to the public there have never been enough Essex cars to meet the demand. Despite the tremendous increase in production,

dealers all over the country have been forced to establish waiting lists. We are filling orders in the same sequence as they are received. To avoid possible disappointment you should place your order now. Yours very truly,
HUGH KIRK.

SOLD BY DRUGGISTS EVERYWHERE

Why More Small Cars Come Equipped With Goodyear Tires

Last year, more small cars, using 30 x 3, 30 x 3½, or 31 x 4-inch tires, were factory equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these small-car tires by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other small car, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... \$20.00
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water—\$3.90 proof bag.
