The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

12 O'CLOCK SHARP  
70 Per Cent Roans 70 Lots 70 Per Cent Roans

I would like to call especial attention to the number of cows with calves at foot. The majority of these are re-bred. These cattle are the large beef type, good quality and in good breeding order. This offering should be an especial attraction to the breeder and to the young man who wants to start a herd, because it makes a difference in the value of the cow you buy if she is bred to an outstanding sire, or to a fairly good bull. These cows are bred to the highest type of Shorthorn bulls, among them being an imported bull, a very attractive roan, has a beautiful head and general outline, his

breeding is of the best, and his sire one of the best bulls in Scotland. This bull is being retained in the herd of Floyd Amsler. The other bull is a Canadian bred bull, a dark roan, thick bodied, straight, level bull with good head. His calves will show for himself in the sale. (He sells.)
