## FOR SALE

IN THIS VICINITY ONLY  
\$25,000 WORTH OF

**8% Non-taxable, Preferred Stock in the  
RENSSELAER MANUFACTURING CO.**  
A Rensselaer Corporation Manufacturing Chairs, Davenports, Etc.

## NO SOLICITORS

STOCK for sale to people in this part of the country only. To people who WANT it. No one is going to SELL you same or attempt to do so.

NO MORE than \$1000 worth to any one man. You can buy from \$100 to \$1000, nothing under \$100 and not over \$1000.

The 8% dividend will be paid quarterly. Every three months you will receive your cheque for 2% of your holding.

THIS issue of stock in plain everyday United States talk is nothing more or less than an 8% Non-Taxable First Mortgage. The entire issue is the first lien upon all the property the Company owns, including all the earnings and all assets of every kind and description. The Company owns free of all incumbrance, its own building, having 40,000 square feet of floor space, machinery and general equipment. The total assets aggregate more than \$46,000.00.

THE present pay roll runs about \$36,000.00 per year and no officer of the Company draws a salary as such officer.

THE Company has on hand over \$100,000.00 worth of unfilled orders and additional orders coming in hourly.

THE Factory at the present time employs on the average of 40 men. There should be at least that many more, there should be additional machinery, more raw materials bought. That's the reason an issue of 8% non-taxable preferred stock is made.

THE average dealer that buys furniture from the factory won't wait a whole year for it; you can't blame him. The factory has to double its output, buy additional machinery, buy raw materials in larger quantities and double the force of men in order to get out PRESENT orders as well as be in a position to accept additional ones.

To do this, takes money. And the factory can afford to pay 8% for that money and back the \$25,000.00 issue with \$46,000.00 worth of assets as well as \$100,000.00 worth of orders. There are several Chicago men willing to take the entire issue but it is thought better to sell it at home, consequently the entire issue is for sale to people living only in this vicinity in denominations of \$100 to \$1000.
