- Automobiles -

March 16, 1920.

Dear Sir: Spring is only a few weeks away. That is the time you probably will want an automobile most. Many times in past years premiums have been paid for the prompt delivery of Hudson Super-Sixes. This year the present limited factory production is constantly falling further behind the demand. The performance, dependability and durability of the Hudson have made it the most popular fine car in the world. More than 60,000 owners testify to the fact that the supreme endurance of the Super-Six has made it one of the great economies of modern life.

The demand for the Super-Six has always taxed the factory capacity to the utmost. This year, because of the disturbance of production which will not return to normal before June, few cars are obtainable and these will disappear with the first breath of spring.

So the only way to be sure of obtaining your car when you will want it most, is to order now.

Very truly yours,
HUGH KIRK.
