ELECTRIC VACUUM CLEANER

Afternoons for Mistress and Maid

The servant who asks for afternoons off wants a little relaxation, and she asks for it. How about the woman who has no servant? Whom can she ask for her afternoons off?

Both mistress and maid can have more afternoons and not be too tired to enjoy them, if there is a TORRINGTON Electric Vacuum Cleaner in the house.

The reason you don't own a TORRINGTON Cleaner is because you have thought of it as a sweeping machine. It is ever so much more than that. A Torrington is a leisure-bringer. You buy afternoons of freedom when you buy a Torrington. How much are 350 afternoons a year with a clean, bright, dustless house, and no weariness, worth to you?

Surely they are worth a few monthly payments, and less than a dollar a year for electricity.

Next time you are working to clean your house when you would rather be doing something else, stop for a minute, call up Worland Bros. and ask them to send a TORRINGTON Cleaner around and demonstrate it. Have them show you how perfectly the brush helps

the suction to remove both surface litter and trodden-in dirt.

There's no excuse for wasting your afternoons and your energies doing work the TORRINGTON Cleaner will do in a few minutes. If you can think of a single reason for not owning a Torrington, or a single excuse for waiting any longer before making the first payment and getting one—buy another broom and say good-bye to many a pleasant afternoon.
