Catarrrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All druggists, 75c.

HER HEART FULL OF GRATITUDE

Mrs. Bettie White of Evansville Says Tanlac Has Overcome Her 39 Years of Suffering.

"After suffering with rheumatism for 39 years, I am now a well and happy woman and I owe my recovery to Tanlac," said Mrs. Bettie White, 133 Cutler Ave., R. F. D. No. 8, Evansville, Ind.

"My rheumatism had been rapidly getting worse for the past six years until I couldn't get in or out of bed without help. I couldn't raise my hand to my head to comb my hair, and couldn't hold anything in my hand. My toes were cramped and my knee joints were so stiff I had to have help to get my shoes on and off and sometimes my feet were so swollen I couldn't get my shoes on at all. For two weeks I had to sit day and night in a chair with my head propped on a pillow. My nerves were badly shattered and I suffered so from pain and worry that it looked like there was no hope for me.

"I tried all kinds of medicines but nothing did me any good until a friend suggested Tanlac. I have now taken three bottles. I can lie down in bed now and sleep like a baby. I can walk down town, comb my hair or do most anything else I want to do and never have any pains from rheumatism. My knee joints have quit hurting me, my toes have straightened out and I can hold a pen in my fingers to write. My nerves have quieted down and my mind is at rest, for I feel such a wonderful ease of relief from being well again."

Tanlac is sold in Rensselaer by Larsh & Hopkins, and in Remington by Frank L. Peck; in Wheatfield by Simon Fendig.—Adv.

150 reservations will be sold, and the first 150 making requests to go will be accommodated. If you desire to make this trip report same to County Agent Mawhorter at your earliest convenience.

48 Per Cent Acid Phosphate

Forty-eight per cent available acid phosphate is being manufactured at Butte, Mont., and is selling at \$48 per ton. At the same price per unit of plant food 16 per cent available acid phosphate should sell for \$16 per ton, but the wholesale list price on this fertilizer is \$34.25 per ton. Fifteen hundred pounds of the 48 per cent acid phosphate has been shipped to each of 30 Indiana counties, where it will be tried out to determine its value in comparison with 16 per cent goods. Jasper county received a shipment of 1,500 pounds of this fertilizer and the following will experiment with it on their wheat this fall: Charles Parks, E. Wuerthner, E. P. Lane, William Jeffers, Fred Illiff and Firman Thompson.

LETTERS FROM OUR READERS

And a Little Child Shall Lead Them

"Politics makes strange bedfellows," someone has said, and the hombre who relieved his system of that remark sure uttered a mouthful. For example, permit us to call your attention to those Republican newspapers in Chicago, which so persistently howled for the political scalps of Bill Thompson, mayor of Chicago, and his followers, during the recent primary campaign in Illinois. They called Bill about every mean name to be found in the Billingsgate dialect, besides coining a few new and original epithets of their own for the occasion. Well, in spite of the opposition of the decent Republicans in Illinois, Bill Thompson, Bill Hearst and the narrow-eyed, retreating chinmed element that make up the following of these two worthies, have, it would seem, won out. Now, kindly keep tab on these same newspapers which so valiantly opposed the two Bills—Bill Thompson, the pro-German, the man recently denounced by the American Legion—and Bill Hearst, representative of about everything that a recent American citizen naturally would object to; Bill Hearst whose vicious utterances, through his yellow newspapers, nerved the assassin's arm in the slaying of President McKinley, many still believe; Bill Hearst, whose dirty pro-German publications are now supporting the Republican presidential candidate—watch these papers that opposed the two Bills, we say, and treat yourself to an exhibition of political flip-flopping unparalleled in the annals of history. Upon the pages of these periodicals, which stood for God and home and the flag, Bill Thompson, whose disloyalty made it unsafe for Governor Lowden to leave the state of Illinois long enough to go to Washington during the war, according to the governor's own statement, will appear shrunken of every political sin, clothed in the habiliments of truth and patriotism.

His oft-used term "crook" and similar epithets, which he applied to Governor Lowden during the primary campaign, will be regarded merely as little pleasantries—just Bill's way of being funny—while his pro-German proclivities will be looked upon as nothing more than a good joke on the Democrats. And Hearst, upon whom for years the Republican press has heaped contumely, Bill Hearst, the political rat, and the g. o. p. elephant will eat from the same trough and lie down together; Hi Johnson, the foe of the league of nations, and ex-President Taft, the repository of all wisdom and friend of the league, will march at the head of the procession, their respective coat-tails concealing a political dagger a foot long, and sing "He's a jolly good fellow"—meaning Harding—and everything will be perfectly lovely and harmonious.
