PRESENTS

## 'FOR THE FREEDOM OF IRELAND'

By HAL REID.

This picture shows why McSwinnery starved himself to death.

A gripping feature about Ireland with a beautiful love story as the theme. Startling, amazing, almost unbelievable. Truly a picture that impresses. The plot is extraordinarily well worked out, and the details of the story of love and patriotism are so cleverly handled as to leave nothing desired. Praised by all to be a big picture—it serves to rank among the masterpieces of the screen. "Truth is stronger than fiction" and this photoplay is certainly all truth.

ALSO GOOD COMEDY

ADMISSION 15 AND 30c WAR TAX INCLUDED

#### Purchase Christmas Seals

At this time of the year the citizens of Jasper county cannot carry out any greater mission than that of buying the Christmas seals. Don't let the season pass without having your share of seals. The proceeds go for a great cause and we should help and do everything we can to prevent and eliminate this most dreaded disease, the white plague. Please give this your most careful consideration.

Farmers' Federation Meetings.  
The townships that are holding evening meetings this week are as follows:

Milroy on Tuesday, Gillam on Wednesday, Wheatfield on Thursday, Union on Friday, and Carpenter on Saturday. The townships which will hold evening meetings next week are: Newton on December 14, Walker on December 16, Kankakee on December 17, and Barkley on December 18.

Corn Worth More in Silo Than in the Crib.

Aside from the fact that thousands of farmers have been able, through the silo, to convert soft, immature corn into valuable feed, the following figures illustrate why corn in the silo is worth more than in the crib:

If corn sells for \$0.56 per bushel, silage is worth \$7.12 per ton.  
If corn sells for \$0.90 per bushel, silage is worth \$8.64 per ton.  
If corn sells for \$1.00 per bushel, silage is worth \$9.22 per ton.  
If corn sells for \$1.25 per bushel, silage is worth \$10.21 per ton.  
If corn sells for \$1.50 per bushel, silage is worth \$11.30 per ton.

The above figures are taken from an eight-year average determined by the Indiana experiment station, based on the value of silage used as a substitute for grain in feeding steers. Milroy Federation Meeting.

The Milroy farmers meeting Tuesday evening was well attended. Their regular form of business was carried out very well. The program committee is planning on having a social meeting some time in January which will be held at the Center school house. Their next business meeting night will be on February 1, and the meeting will be held at the same school house.

#### Barium Poisonous to Rats Makes Satisfactory Bait.

A study of barium carbonate as a rat poison, made by the United States department of agriculture, indicates that a 20 per cent mixture with food makes a very satisfactory bait. With this percentage a rat ordinarily needs to eat only one-third or three-fourths of a meal of average size to get a fatal dose. It was found that with this dose many of the rats poisoned died within 24 hours, though an occasional rat was found which survived an even larger amount, thus indicating that 100 per cent mortality is not to be expected in any case. A summary of results of experiments conducted by various persons with a view to determining the deadliness of barium to different animals shows the fallacy of the assumption that barium is poisonous only to rats. It is pointed out that the fatal dose of barium per pound tends to decrease relatively as the size of the animal increases, and that a bait calculated to be fatal to rats may be assumed to be more or less dangerous to small domestic animals also.

#### Time to Look for Mites.

This is the time of the year to be on the constant lookout for the presence of mites on the fowls, and particularly in the poultry house. These insect pests not only lower the vitality of the birds, and thus renders them liable to disease, but their presence has a decidedly bad effect on egg production. Frequent spraying of all cracks and crevices of the house and the undersides of the roosts with kerosene or 5 per cent carbolic acid will greatly help to eradicate mites, and thus add to the comfort and general health of the birds.

#### "The Farmer's Worst Enemy"—Rats. The Farmer's Best Friend—Rat-Snap.

These are the words of James Baxter, N. J.: "Ever since I tried RAT-SNAP I have always kept it in the house. Never fails. Used about \$3.00 worth of RAT-SNAP in chicks, eggs and feed. RAT-SNAP is convenient, just break up cake, no mixing with other food." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by B. F. Fendig, C. W. Eger, G. E. Murray Co.

The Democrat has a lot of letter size (8 1/2 x 11 inches) unrulled yellow paper pencil pads made up at pre-war prices that it is selling at 10 cents per pad. There are about 50 sheets to a pad, and at this price they are the biggest bargain one can find any place. Paper is one item that has not been reduced any in price, and the prospects are that it will not be reduced anyways soon. Call in and buy a good supply of these pads before the supply is exhausted.

Buy your lead pencils at The Democrat office. We handle good quality pencils at lowest prices.

#### NOTICE TO NON-RESIDENTS

The State of Indiana, Jasper County.

In the Jasper circuit court, November term, 1920.

Farmers' State Bank of Monticello, Indiana.

vs.  
State Bank of Monticello, administrator of Lenal O. Potts estate; Ella Potts, Doris Potts, Everett Potts, Ernest Potts and Leuri C. Harris.

Complaint No. 9270.  
Now comes the plaintiff, by Thomas J. Hanna and John A. Dunlap, their attorneys, and files complaint herein, together with an affidavit that the defendants, Ella Potts, Doris Potts, Ernest Potts and Everett Potts, are not residents of the state of Indiana.

Notice is therefore hereby given said defendants, that unless they be and appear on the first day of the next term of the Jasper circuit court, to be held on the second Monday of February, A. D. 1921, at the court house in Rensselaer, in said county and state, and answer or demur to said complaint, the same will be heard and determined in their absence.

In witness whereof, I hereunto set my hand and affix the seal of said court, at Rensselaer, this 29th day of November, A. D. 1920.

(SEAL) JESSE NICHOLS, Clerk.

Remington, - Indiana  
Telephone 3-B

cents, there will be more money in feeding the next eighteen months than there has ever been in the hog growing business. It is time you laid in a stock of brood sows. Don't wait until March. You have the feed to carry them through the period of gestation, and the difference between what you can buy them for now and what you will have to pay next spring will be the best feed profit you ever took.

Every farmer and feeder knows that he is going to raise and feed hogs next year.

Then why not buy now and be sure you won't have to search for them next spring and pay high prices?

Buy now before another top is reached.

All hogs immune and papers furnished.

Sale under large tent. Hot lunch on grounds.

Terms—Twelve months time with interest at 6 per cent; 2 per cent off for cash where entitled to credit.

Harvey Williams and Edd Wright, Auctioneers.

John Phelps & Son, Clerks.

Write for catalogue. Complete bill next week.
