Mr. and Mrs. Alex Elljah left Monday to visit her parents who live in Kansas. They had been planning on making it a Christmas visit, when they received word last week that Mrs. Elljah's father was quite sick, which served to hasten their departure for the west. They will perhaps be gone some ten days or two weeks.

On Monday night the Fair Oaks quintet played the locals and was defeated by a score of 15 to 10. It was a well played game, but, however, to an inexperienced onlooker it appeared rather rough on the part of Fair Oaks. The locals exhibited excellent team work, Lynch, Bicknell and Snow starring for Mt. Ayr. Guards played a good guard game. The first half ended with the locals leading by a score of 10 to 7, and by hard playing they won the game. Thursday evening the team goes to Kentland to play the high school aggregation at that place.

Department of Farm Welfare  
Conducted by County Agent

### Important Notice.

County Agent Mawhorter will be absent from the office during holiday week and will be at the home of his father, who is very seriously ill at the present time. If there is any important business or information needed, please leave word with Miss Keeney at the office and prompt attention will be given it.

### Corn and Poultry Show.

Many farmers are making plans with the county agent to assist the poultry association in carrying on one of the most successful poultry and corn shows, also a boys' and girls' club show. This show will be held the 10th, 11th, 12th, 13th, 14th and 15th of January, 1921. Everybody make a special effort to pick out their best fowls and best ten ears and also single ear of corn for exhibition at the county show. The poultry association has for several weeks been giving a great deal of attention to the arrangements for this coming event.

### Christmas Greetings.

There is not a day so dark or gloomy or a day that is so bright or a time that is so discouraging but out of it all God looks after and cares for us all. With best wishes for a most prosperous year and happiness, I wish you all a Merry Christmas and a Happy New Year.

County Farmers' Federation Meeting. The county farmers' federation meeting was held in the court house on Thursday, December 23. There was a goodly number of farmers in attendance. A very enthusiastic meeting was held and many important points were threshed out, such as the survey of each township for the pooling of fertilizer orders and the allowing of bills and expenses of the president while attending the district and state meetings, also the election of Joe Kolhoff, chairman of one to work in collaboration with Mr. Lawson, livestock committee of the third district. R. J. Yeoman also read a clipping from the Indianapolis Star concerning the appointment of Russell VanHook, chairman of the county organization, to the position of one of the legislative committee members for the state. This shows that Jasper county is fast coming to the front in farm federation affairs.

Mr. VanHook's appointment will, no doubt, bring considerable weight to bear on legislative problems in Jasper county.

### Farmers' Short Course.

The farmers' short course will be held at Purdue university January 10-14, 1921. At the same time will be held the state corn show, the Purdue apple show and the boys' and girls' potato show, and other exhibits. The schedule of state associations which will hold their meetings during the week is as follows: Indiana Corn Growers' association, Wednesday, January 12. Indiana Vegetable Growers' association, January 12. Indiana State Dairy association, January 13. Indiana Home Economics association, Thursday, January 13. Indiana Livestock Breeders' association, January 13. Indiana Hereford Breeders' association, January 13. Indiana Shorthorn Breeders' association, January 13. Indiana Angus Breeders' association, January 13. Indiana Holstein-Friesian association, January 14. Indiana Guernsey Cattle club, January 14. Indiana Jersey Cattle club, January 14. Indiana Ayrshire Breeders' association, January 14.

A large number of the strongest workers of the United States will be brought to Purdue for the farmers' short course and it is an opportunity for the people of Indiana to get information on the important and pressing problems of the time. Farmers and their wives are urged to attend the short course and take part in this worthwhile program. County agents, home demonstration agents and club leaders should plan for this week and organize a party of their people and bring them to Purdue so that all the counties in Indiana may be well represented. A full program of the short course will be sent upon request to the dean of the School of Agriculture, Purdue university, Lafayette, Indiana.

at 9:30 o'clock December 20, 1920.

On December 19, 1885, he was united in marriage to Maggie J. Ginn and to this union one child, John Melvin Johnson, was born.

During the last few weeks of life he endured much pain and suffering, but was ever patient and considerate of those about him.

He leaves to mourn their loss his bereaved wife, son John, and family, Dell Ginn and wife, Guy Ginn and family, besides a host of friends and acquaintances.

Early studies in human anatomy were conducted under many difficulties. Aristotle studied the human body among the first, about 350 B. C., but through all the years there was objection to the dissection of bodies to verify facts and when Titian designed and had completed the first anatomical plates they were destroyed by Vesalius about 1538.

"Earthbound" made a tremendous impression at its advance showings at legitimate theatres, both in New York and Chicago, where it was hailed as the greatest forward step in the development of the screen art.
