## FIGHT FOR PASSPORTS

15,000,000 People Anxious to  
Come to United States.

All Nationalities and Every Social and  
Economic Classification Are  
Represented.

New York.—Fifteen million men, women and children, of all social and economic classifications, representing every nationality in Europe, are fighting for passage to the United States, according to reports submitted by 17 transatlantic steamship company representatives to Frederick A. Wallis, commissioner of emigration at Ellis Island.

Every seaport city and town along the western and southern coasts of Europe, they said, is crowded with persons who in their eagerness to leave for this country have sold their homes and everything they possessed. Passport officers abroad were reported to be besieged with applicants.

The steamship representatives also expressed the opinion that 5,000,000 Germans and Austrians are packed up and ready to sail as soon as the United States makes peace with their governments.

Commissioner Wallis, who is going to Washington for a conference with members of the house and senate immigration committee said:

"Eighty-seven per cent of immigrants enter the United States through Ellis Island, and there are 2,000 persons there now who are shamefully crowded. There is no use denying the fact that we haven't enough room. And they are still coming."

"It would amaze one to know that on one particular day the Polish foreign office had \$11,000 applications for passports."

More immigrants are arriving from Poland than from any other country, he said. Most of these people are Jewish."

## RELEASED BY TURKS

Lieut. John Shismanian of Fresno, Cal., and a former officer in the Kentucky national guard, has been released from imprisonment by the Turks by the French forces. Lieut. Shismanian served with the French army during the war and then volunteered for service against the Turks in Cilicia. He was captured and thrown into jail for organizing a force of Armenians to raise the siege of Hadjun.

## MANY QUIT THE TANK CORPS

Few Re-enlistments to Replace Men  
Leaving to Get Better Pay  
Elsewhere.

Washington.—The army tank corps

has suffered from many resignations and few re-enlistments, because soldiers trained in this arm of the service find it easy to obtain lucrative employment in civil life, says the annual report of Brig. Gen. S. D. Rockenbach, chief of the corps, made public.

The corps returned from France in July, 1919, with a greatly depleted personnel, but in the last fiscal year a net gain of 20 officers and 1,546 enlisted men was made.

Although the corps possessed more than 800 tanks when it left France, all were in poor repair and none ready for battle, General Rockenbach states.

Has Old Table.  
Madison, S. D.—Mrs. Ed Foley of this city has had placed in her custody a priceless heirloom that has been in possession of her relatives for a period of more than 100 years. It is a solidly constructed dining table, made of fine grained walnut and butternut woods. The old table was presented to Mrs. Foley by her mother, and will be handed down by her to succeeding generations of the family.

Sentenced to Attend Sunday School.  
Danville, Pa.—Edwin H. Cook, justice of the peace at Riverside, set a record today when he sentenced two boys who came before him to attend Sunday school every Sunday for the next six months. The boys, William Smidley and Arthur Mottern, were arrested on charges of breaking windows by throwing stones.

## WHAT THE NEW YEAR MEANS

THE New Year means new opportunity to every man, woman and child. It challenges the best that is in them and promises unusual reward for effort made. In it is the hope of years to come concerning whatever is for the well-being of society.

Every farmer who owns his farm ought to have printed stationery with his name and the name of his post-office properly given. The printed heading might also give the names of whatever crops he specializes in or his stock specialties. Neatly printed stationery gives you a personality and a standing with any person or firm to whom you write and insures the proper reading of your name and address.

## COWBOYS WILL HERD REINDEER

Alaska Will Be the Scene of  
Roundups Like Those of  
the Western Plains.

## HERD TOTALS NEARLY 200,000

Reindeer Industry of the North Is  
Growing Rapidly and There Is an  
Insistent Call for Experienced  
Frontiermen.

San Francisco.—From the wild North comes the call for the sons of the old wild West.

And with his swagger and trappings the man of the ranges is preparing to answer the call. From Montana, California, Oregon, Nevada and the Dakotas cowboys are getting ready to leave the drive and picturesque roundup to "ride herd" on the last frontiers of civilization, the subarctic barrens of Alaska.

Instead of Texas longhorns they will "funch" the pronghorns of the Bering, the Alaskan reindeer. In place of flaring chaps and flapping sombreros, they will wear heavy boots, three pairs of socks, parkas and heavy fur caps. They will ride behind swift Eskimo dogs or hike it on snowshoes.

The call for experienced, seasoned frontier men is insistent, for the reindeer industry of the north is pretty closely following the historical development of the old western range.

Herd Total 200,000.

The 80 scrubby, half-starved reindeer, imported into Alaska from Siberia in 1902 by the government as an experiment in food supply for the natives, have grown to nearly 200,000 head at present, valued at approximately \$30 each. It is expected that within 15 years the herd will number between ten and twenty-five millions, the grazing capacity of Alaska.

Already the industry is being considered as serious competition for the big meat packers of the United States. Last year only 1,700 carcasses were shipped; 11,000 will be shipped in 1920, it is estimated.

Five cold-storage plants, with a capacity of 1,000 to 5,000 carcasses each, are now in operation, with more in contemplation, and refrigerator ships are to be put on between Seattle and Alaska immediately.

Leaders in the new industry say the herds will increase 125 per cent every three years, so that in 15 years, 8,000,000 carcasses will be shipped yearly. The meat, selling now at 35 cents per pound wholesale, will then sell at 15 cents per pound retail, according to Jafet Linderbeck, largest private owner of reindeer in Alaska.

Feed Upon Moss.  
Reindeer can be raised in Alaska at little or no cost other than their care. They feed upon the reindeer moss, and one man can care for 2,000 head.

Each year rodeos, similar to the famous old "round-ups" of the wild West days, are held. From hundreds of miles around, natives drive in behind their swiftest reindeer, head herdsman are chosen and preparations made for the next year's business. For the natives and deer men are looking upon Alaska as the future Texas of the world as a meat supplying center.

But if Americans wish this delicacy they must prepare to outbid Europe, says Linderbeck, who maintains that very good reindeer meat, up to the maximum capacity of Alaska, can be sold to Europeans, who are willing to pay almost any price demanded.

## Hands Cut Off by One Train, Legs by Another

One train cut off the legs of Walter Fraatz, eleven years old, of Detroit, Mich., and almost at the same instant, a second train, going in the opposite direction, cut off his hands when he fell between two passing cars.

The boy was playing on a box car when a switch engine backed down and struck the cars, throwing the boy to the ground with his feet under the car on which he had been playing. His hands fell on the parallel track and the second train went over them.

## She Buried the Wrong Husband.

Portsmouth, O.—Mrs. George Willis thinks some one else should pay the funeral expenses of a man she buried under the impression that he was her husband. She identified a mutilated body along the railroad tracks as that of her husband, who had disappeared several weeks before. Now the husband, who had been working in the northern part of the state, has returned home, denying that he is dead. Mrs. Willis is wondering whose husband she buried.

## Woman Traps Mountain Lion.

Los Angeles, Cal.—A woman trapper, said to be the only one in California, is making a good income in the vicinity of Lompoc. She is now from Santa Barbara. She is a woman, and the only recent catch consisted of one mountain lion, five coyotes, nine coons and two polecats.

## WHO WANTS THIS PROPERTY

Excellent Dwelling and About 12 Acres of  
Land in City of Rensselaer.

The undersigned purchased a few months ago a small place in Rensselaer, two blocks from schools and churches, five blocks from court house, with excellent \$-room house with basement, bath, electric lights, nice shade, large brick clatter, etc., good large barn, corn crib, good orchard and other fruit, tract containing about 12 acres of very productive land, stone road and cement sidewalk along entire front of 743 feet and leading right up town.

I bought this property for a home, expecting to move onto same, but a change in plans makes it impossible for me to do so, and I want to dispose of it at once. Will sell at a very reasonable price and on easy terms. Want half cash, balance one, two and three years, 6 per cent interest. Possession can be given on March 1, 1921.

This is an excellent property, splendidly located in good neighborhood and can be bought at much less than its actual value, compared with what other property has been selling for in and near Rensselaer. If you want to locate in a fine, up-to-date town and have a few acres of ground, where you can keep a few cows, pigs, chickens, etc., and raise enough on the land to feed them and make you some money besides giving you a little something to do, you should not pass up this opportunity.

This land is not platted and is, therefore, not subject to city rate of assessment. In fact, the taxes are very low.

We'll cheerfully show this property to any prospective purchaser.

F. E. BABCOCK,  
Rensselaer, Ind.

## NOTICE FOR LETTING CONTRACT

Notice is hereby given that sealed proposals will be received by the trustee of Barkley township, Jasper county, Indiana, up to the hour of 2 o'clock p. m., January 15, 1921, at Blackford school house, district No. 6 in said township, for the erection and completion of two four-room school buildings, in said township, estimated to cost \$30,000 each; one to be erected at Newland, and one to be constructed about two miles west from Moody. Each building shall be bid upon separately, but the contractor so bidding may also bid upon both buildings as a unit.

Separate bids will be received upon the heating, ventilating and plumbing as a unit; also upon the electric wiring as a unit and the installation of an electric generator as another unit, but the electric work may be bid upon as one contract.

Plans will be on file at the office of the township trustee and the architect. General contractors desiring to bid upon this work may receive a set of plans and specifications from the architect by depositing the sum of \$20.00, said deposit to be returned upon the receipt of bid and return of said plans and specifications to the architect upon day of said letting in good condition.

Each bidder shall submit his proposal for the furnishing of all labor and material required in strict accordance with the plans and specifications as prepared by Nat. L. Smith, architect, Crown Point, Ind.

A certified check for two (2) per cent of the amount of the proposal is to accompany each bid. Said check to be forfeited to the owners as liquidated damages should the successful bidder refuse to complete contract for the work.

All bids must be in writing and sealed, directed to the trustee of said Barkley township, with notation on envelope designating nature of bid. Bids may be filed with the trustee or the architect.

The owner reserves the right to reject any or all bids submitted without recourse.

All bidders will take notice that all proposals must be made in proper form with non-collision affidavit and in strict compliance with the state laws governing the letting of public contracts. GRANT DAVISSON, Trustee.

## NOTICE DITCH ASSESSMENTS

Notice is hereby given that all land owners assessed for benefits for the cleaning out of the Moseley ditch, owning land in Jasper county, if they desire, can pay their assessments to B. Frank Alter, drainage commissioner of Jasper county, at the surveyor's office in Rensselaer, Indiana, as follows: One-tenth Dec. 18, 1920; one-tenth on the third Saturday of each succeeding month thereafter until the full amount is paid. B. FRANK ALTER, Drainage Commissioner.

## CHOICE 406 ACRE MICHIGAN FARM AT AUCTION

Located 4 miles north of Buchanan and 6 miles south of Berrien Springs, on the Buchanan and Berrien Springs road. Sale will be held in connection with a big stock and implement sale on same farm, on

MONDAY, DECEMBER 27, 1920.

The farm is in Buchanan township, Berrien county, and the soil is a good quality gravel and clay loam with a small portion of sandy loam; is in one continuous piece except an 80 acres across the highway from the main farm. All but the 80-acre tract runs back to the St. Joseph river, there being about a mile and one-half of river frontage and the river banks are high at this point and consequently no danger of flood and there is a gradual slope of this land toward the river, thus affording good drainage; is nearly all under cultivation and all crops adapted to the section thrive upon the land. There are three sets of buildings upon this farm: On the south farm, there is a fair 7-room frame house, large bank barn recently built and is one of the best in the county. This place has windmill and sufficient tanks and other outbuildings. The next farm has a strictly modern, 10-room house, except furnace, windmill, good large barn, which has recently been modernized; it is also a bank barn; there is also a large tool shed, and lastly there is a modern hog house about 30x80 feet. This building was recently built at an expense of between \$7,000 and \$8,000. On the north farm there is a fair 8-room house, two barns, one a bank barn; there is also a good silo of recent construction. This farm is fenced and there are two live streams running through it, making it an ideal stock farm, particularly for hogs, and then the land is good corn and alfalfa land. There is a railroad switch on farm, affording the receiving and sending of railroad lots without a haul to town.—W. A. McCURTAIN, Auctioneer.
