

JASPER COURIER.

Measles are prevailing in Ireland.
Corn planting time, and men, women and children on farms all busy.

Alex. Ell has built him a nice two story residence on his farm near Ireland.

Mart. Friedman & Co. have sweet oranges at their drug store.

Sebastian Kuebler has the most approved agricultural machinery of all kinds in this county.

Spring has been a failure so far this year, so dealers in Spring wearing apparel complain.

The Jasper Lieder Krantz meets regularly twice a week now, and bids fair to be a fixed and beneficial institution in our town.

Isidore Schuhmacher has turned out some nice light wagons and buggies this season. He means business, and is selling reasonable to create it.

Mrs. Guckes will fly her lot in Jasper off, next week, into town lots, and offer them for sale. They will be magnificent building sites.

SODA WATER.—Both of the drug stores in town have got their soda fountains in full blast, and the warm days give them chance for business.

In the notice of a difficulty between young Keiter and Gramelspacher, which we published in the Courier, we credited them with two fights, when there was only one. One is bad enough.

The officers of the Corporation of Jasper for the ensuing year are Trustees: 1st ward, R. M. Weiman; 2d Jos. Egg; 3d John W. Breit; Treasurer, W. Erny; Clerk, W. J. Hays.

Several teams went from Jasper to Washington this week loaded with dressed lumber; and several from Ireland to the same place loaded with flour. They bring loads of other manufacture back on their return.

FIRE.—On last Monday afternoon the photograph gallery of Mr. Rhodes, in Ireland, caught fire, from some matches, it is supposed, and burned considerably before it could be taken to pieces. He also lost some of his material.

The new town board of trustees met on Monday night, and elected Dr. R. M. Weiman, President, and Ignatz Eckert, Town Marshal. They also levied a tax for the ensuing year of 25 cents on the \$100, and 50 cents poll, and 50 cents on a dog, and \$1 on a shot.

Our bashful young friend, John C. Schaefer, Esq., returned from his business trip to Princeton, looking no worse for the wear, last week, as soon as certain interesting hymeneal events would admit of his being at home without feeling too bad. Better luck next time.

We desire to call the attention of the authorities to the stench arising, and carried by not very balmy southern breezes, all over the town of Jasper, from the deposit of dead animals along the bottoms south of town. All such animals, should for sanitary reasons, at this season of the year, be compelled to be buried.

Quite a fight took place in Huntingburg last week, in which Anthony Miller, Lewis Miller and John Berger were engaged, and the latter got a hole knocked in his head with a slung shot. One of the brother Millers whipped the other, but we don't know which. Office, and other matters were the cause. It's all fixed up, now, we are informed.

On last Saturday a fine horse of Mr. I. Eckert's, while in the beer wagon was discovered to be sick, and was immediately taken home, where he gave down in his hind parts, and had no use of his hind legs in a short time. He suffered intense pain, notwithstanding all that could be done for him, and on Tuesday morning to mercifully end his misery he was shot.

BAD FUN.—On last Saturday night a Mr. Lynch and two other young men, whose names we are requested not to publish for the present, attempted to amuse themselves by carrying off the gates of several of our citizens' yards, and throwing them into Patoka river, and cutting rafts of saw logs tied above the saw mills. They were discovered by Mr. Fink and J. Gramelspacher, and only their good luck at dodging bullets saved them from getting hurt. Lynch was caught, but begged off, and left the town to evade a prosecution. The other two are here yet, and will have to conduct themselves very circumspectly in the future, or the parties injured say they will prosecute them. For shame, men, to be engaged in such mischief.

Jasper Marble Works.

JOHN R. CHRISMON!

On East Main
Street,
Jasper,
INDIANA.

I would respectfully inform the citizens of Dubois and adjoining counties, that I am prepared to do all kind of marble work, and invite those in need of anything in our line to give me a call. Satisfaction guaranteed. March 7, '73.

The Rockport Democrat says: "The first case under the new liquor law in Rockport, that we know of, was tried on last Wednesday. An Irishman was tried for being intoxicated. He refused to tell where he got the liquor, and was sent to jail for 21 days, and a fine assessed against the county for his board during that time. Here is the effects of the new law—instead of bringing in something to the school fund, the people are taxed to pay a drunken man's board while in jail."

A Frenchman who tried to suicide by drinking a pint of crude petroleum, lives to tell the world that he never experienced a more enjoyable drunk in his life. This will be good news indeed, for the oil regions, where "local option" and the scarcity of money have for some time past rendered the distilleries tremens a luxury only to be indulged in by the wealthiest operators and buckwheat prunes.

A BEAUTIFUL COMPLEXION.—When a girl stoops to paint her face she learned to practice—decreed to an extent that ought to alarm her, if she has the least desire for truthfulness. A plain wholesome diet, plenty of exercise in the open air, and a sunny temper, will make a more attractive face than all the cosmetics in the republic.

The aggregated sales of the manufacturing establishments of Tell City, is \$100,000, last year.

The Cannelton school enumeration is 910, and that of Tell City, 221. Consequently, Tell City is happy.

The population of Washington stands up 4,000, of whom 1,147 are between the ages of six and twenty-one years.

The Presbyterians will soon commence the erection of a new church edifice at Salt Lake City.

To Every Citizen of Dubois Co.: We are desirous of publishing a paper which will advance the interests of the county in every way, and to that end request your assistance. We want you to furnish any items which you think will be of interest in your locality, any local events of interest happening we would be glad to hear of—also any discoveries of minerals, or other articles. Remember, we cannot be everywhere at the same time, and if you want a really good paper, you can help make it so, and at the same time bring your locality into public notice. Short communications are invited upon any subject, and for those who have not been accustomed to writing for the public, we will cheerfully correct any errors their manuscript may contain. Send along the items.

Extra Special Notice.
BEWARE OF COUNTERFEITS!

Smith's Tonic Syrup has been counterfeited, and the counterfeiter brought to grief. SMITH'S TONIC SYRUP. The genuine article may have Dr. John Bell's price stamp on each bottle. Dr. John Bell only has the right to manufacture and sell the original John Smith's Tonic Syrup, of Louisville, Kentucky. Examine well the label on each bottle. If my private stamp is not on each bottle do not purchase, or you will be deceived. My column advertisement, and my show card, I will prosecute any one infringing on my right. The genuine Smith's Tonic Syrup can only be prepared by myself.

THE PRICE'S SECRETARY, DR. JOHN BELL, Louisville, Kentucky, May 29, 1872.
