THE PURE FOOD LAW.

Secretary Wilson says, "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine and other habit forming drugs be stated on the label of each bottle. The manufacturers of Chamberlain's Cough Remedy have always said that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is made on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. Scraps of Knowledge.

A bag of hot salt relieves neuralgia.

To avoid fatigue when sewing change your position frequently.

A cup of hot water sipped before a meal will relieve nausea and dyspepsia.

A glass of hot lemonade taken on going to bed will often break up a cold.

A half teaspoonful of carbonate of soda dissolved in water will often cure a sick headache.

Drink For Invalids.

Take stale pieces of crusts of bread, the end pieces of the loaf, and toast them a nice dark brown. Care must be taken that they do not burn in the least, as that affects the flavor. Put the browned crusts in a large pitcher and pour enough boiling water over to cover them; cover the pitcher closely and let steep until cold. Strain and sweeten to taste. This is also good warm with cream and sugar similar to coffee.

To Kill Moths.

Dissolve 5 cents' worth of strychnine in a pint of boiling water and allow it to cool. Cut red flannel into strips about an inch wide and any length desired and thoroughly saturate in the strychnine solution. When dry tack strips on floors in closets where moths are working and also under the edges of carpets and rugs. The moths will surely find the red flannel and profit thereby.

Laying a Carpet.

Commence to tack down a carpet upon the straight side of a room and fit it about joists and recesses last. If laid smooth and tight, a carpet will wear much longer than if allowed to wrinkle and rub upon the floor.

For Township Trustee.

Mr Reinhard Fink on request of his old and new friends announces himself as a candidate for Bainbridge Township Trustee. He is a citizen of this township and has been for the last thirty-three years. He is a business man as well as a farmer. In the past he has been conducting business in various lines and has never failed. At present he is a farmer and Dairyman and well-known by the citizens of the township.

Mr Fink fulfilled the duties of the Trustee's Office for four years, namely from 1901-1905. He made a great number of improvements, building and remodeling several school houses and also a great number of bridges. He really was the Trustee that put the Township on a firm and good financial footing, not have a single outstanding debt of any kind whatever when his term expired. The editor can give evidence of this himself on account of previous publications in the COURIER during Mr Fink's official years. During the last two years of his administration the tax levy was set and the official records and reports examined and approved by Jacob Burger Jr. an expert member of the Advisory Board. If there was any error in regard to these, let him make it known to the public.

As there has been so much rumor about Mr. Fink's salary below is a true copy as taken from the official record for the different years.

1901	\$235 75
1902	\$212.25
1903	\$138.75
1904	\$234 00

The above includes compensation for the discharge of all of his duties.

He is well qualified and experienced for the position he is seeking and if elected will no doubt make an efficient officer. The voters will certainly make a wise selection in selecting him for their Trustee. Bainbridge Tp. Trustee drew for 1906, \$262 00 on \$28 more than in 1904.

Answers.

Two young society women were in an outboard Sutter street car. It stopped at Leavenworth.

"Oh, there come Tom and Ed! I guess they've had luncheon at the Palace. They've got on the front end. I don't want to speak to Ed. What can I do if he should come back this way?"

"Hyde!" shouted the conductor as the car sped along.

"What's the matter? Don't you like him any more?"

"I never did, but I expected he'd ask me to the auto show, and he pretended he wasn't going, and I just knew he'd be there. What do you suppose he was doing by his lonesome?"

"Larkin!" yelled the conductor, loud above the down grade whirr of wheels.—San Francisco Chronicle.

Helpful Hints For the Housekeeper.
Value of Tissue Paper.

The tissue paper in which parcels are wrapped should never be thrown away, but smoothed out and laid away in a drawer for future use. A small pad of tissue paper sprinkled with methylated spirit will give a brilliant polish to mirrors, picture glasses and crystal. The pad, used without the spirit, is excellent for burnishing steel, rubbing grease spots off furniture, polishing silver, etc. For packing glass, china and ornaments a roll of tissue paper is invaluable. When packing hats a wisp of tissue paper should be twisted round all upstanding ends of ribbons, ospreys and wings to prevent crushing. Dress and blouse sleeves should be stuffed with soft paper and a sheet of it placed between the folds. Silk handkerchiefs, ribbons and lace should all be ironed between a layer of tissue paper, and the latter is a fine polisher of steel buckles and hatpins.
