More Than Enough is Too Much. To maintain health, a moderate man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. It is caused by indigestion, which your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by Jos. A. Mehlinger.

IT WON'T WORK. Mr. R. F. Watson, an Indianapolis lawyer and legal author, has written to the Phoenix, the Prohibition organ, to the effect that there cannot be a county unit and a township unit at the same time. He therefore declares that the enactment of a local option law for the county would necessarily destroy the township unit for remonstrance, and that if a county should vote wet it would be wet all over. Commenting on this statement the Columbia City Post says:

"All of which is clearly apparent to the man of average intelligence. If a vote is to be taken by counties and the county goes wet, it is wet, thoroughly wet, without a dry corner in it. Two-thirds of the townships of Allen county are dry because the people want them so. Should a county election be called and the county go wet which it would on account of the city of Fort Wayne, the people of these dry townships would lose all they have gained by the remonstrance law. It is foolish to say that when a county speaks as a unit, a part of the county may then speak otherwise."

Surely it must be apparent by now that the Democratic plan is the only real temperance proposal before the people.

The Southern Railway began Monday the operation of two additional trains daily each way on French Lick branch—one carrying a sleeper from St. Louis passing through Jasper at 6:15 A. M. and arriving at Jasper on the return trip at 9:15 A. M. the other going through Jasper for French Lick at 8:40 P. M. and arriving here on the return trip at 11:35 P. M. which carries a sleeper for St. Louis.

The other trains remain like they were. This gives Jasper four daily trains each way, besides the early morning train for Evansville.

Why Colds Are Dangerous. Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this why more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by Jos. A. Mehlinger.

Hayes Fined. Porter Hayes, of Columbia Tp. was on Tuesday fined by Justice Betz \$15 and costs for disturbing a meeting. Hayes is the man that escaped from Deputy Sheriff Joe Hoffman last week but was re-captured.

Queer way to get a Wife. The Most Peculiar System of Selection in the World is Found in Russia. The strangest system of selecting a wife known to civilized countries exists in Russia. It is called a game, but it is a very serious one, and always takes place at Christmas time, says the New York Journal.

Some one of prominence in a village announces that the annual merrymaking will be held at his house. On the appointed day the young men and women hasten in huge excitement to the meeting place. There are songs and games and dances, but they are a prelude to the more important business of the day.

When the time comes the hostess leads all the girls in one room, where they seat themselves on the benches. Laughing and chattering, they are each promptly muffled in winding sheets by the hostess. The head and hair and figure are completely covered, and when this is done the girls resemble mummies.

The young men draw lots, and one by one they enter the room where the muffled girls sit. Helpless so far as sight or touch goes, the puzzled lover tries to find his favorite. Finally he chooses one, and then he may unveil her.

It is the law of custom that the man shall marry the girl he has picked out, and if either backs out a heavy forfeit must be paid. It is said this matrimonial lottery is productive of many happy marriages.

The Girl Who is Liked.

The girl who doesn't love a book to a penny novelette. The girl who is not ashamed of a healthy appetite. The girl who doesn't think every other pretty one "makes up horribly."

The girl who doesn't pinch her feet into a shoe a size and a half too small for her. The girl who will sing under a trifle less than three quarters of an hour's persuasion.

The girl who doesn't want to stop and stare into every shop window she passes. The girl who can purchase a packet of pins and a yard of calico without turning over everything in the shop.

The girl who can receive a little polite attention from a man, without at once jumping to the conclusion that he is in love with her.

Market Cabbages.

It is said that one of the most productive industries of Florida is the growth of cabbages for northern markets. They grow all fall and early winter, the climate at that season seeming especially agreeable to this vegetable. —Meehan's Monthly.

TWO GOOD SUGGESTIONS.

Love your friends, and do not put them from you. Tell them of your love, not once, but often; and do not merely tell it, but prove your words to them and repeat the proof. Open your heart and love them kinglywise. Make merry for them, make them happy, give them brightness, make your home merry for them! The lost opportunities we most regret were opportunities for loving.

The secret of many a man's success is an affable manner, which makes everybody feel at ease in his presence. Comparatively few people have the delightful faculty of being able to get the best out of others, and of so drawing them out of their shell of reserve or shyness that they will appear to the best advantage.

Cultivate kindly feelings toward every one you meet, and feel sure you will succeed.
