More Than Enough is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habit of consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by Jos. A. Mehninger.

Why Colds Are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this why more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by Jos. A. Mehninger.

WIFE SUES JASPER SALLON KEEPER.

Says Drink Caused His Injuries on the Southern Railroad Track.

Vina L. Street, by her attorney, H. M. Kean, filed a \$2,000 damage suit in circuit court here against Andrew Leber and the National Surety company of New York. She alleges in her complaint that her husband, William H. Street is a person who is in the habit of becoming intoxicated, and that while in an intoxicated condition last Sunday morning that the defendant Leber sold him more intoxicating liquor, a portion of which Mr. Street drank and become so crazed that he wandered upon the track of the Southern Railway company, and being too drunk to get off the track was struck by the engine of one of the trains knocked several feet, had two ribs broken, an arm mangled and his shoulder and back injured. The plaintiff says that she and her husband have four infant children, one of whom is an invalid, and has been for more than ten years. The plaintiff and her husband live in Martin county, but he is still here, not yet having sufficiently recovered to be taken to his home. It is said that the case will be venued from this county to Pike.

The Leader.

The leading journal in any department is not compelled to be self-seeking or noisily self-assertive. Its position is recognized, its influence tacitly admitted. The leading manufacturers and merchants look to it for the news that pertains to their interests, employ its facilities for spreading a knowledge of their productions, and would as soon think of taking down their signs as to allow a single issue to appear without their announcements. Those who do not pursue this policy never attain a permanent place in the front rank.

Startling Conditions in Chicago Shown by Report of Investigating Committee, Who Find Starvation Has Many Victims.

5,000 Have No Meal in Morning.

Body Asks Food for Children, Some of Whom Have Forgotten Taste of Butter, Living on Dry Crusts Earned by Heroism of Mothers Who Go to Bed Fasting.

The Tribune (Republican) heads its article:

HUNGER STALKING IN CITY SCHOOLS. Five Thousand Pupils Don't Know What a Full Meal Means and Ten Thousand Others are Underfed.

The Record-Herald (Ind. Republican) heads its story with: THOUSANDS OF PUPILS SUFFER FROM HUNGER

The Inter Ocean begins the horrible story telling of the starving of the little ones in the midst of "Republican prosperity," with the following:

Five thousand children often go to school breakfastless. Fully fifteen thousand school children of Chicago are underfed and habitually hungry. Mothers go supperless to bed in order that their children may have food in the morning. Half-clad and crying children have been found on the streets begging dead fowls and rotten fruit to eat.

These are some of the statements in the report on indigent children filed with the school management committee of the board of education.

Summarizing the causes which produce the conditions of hunger the Tribune (Republican) cites, "lack of employment," and the "constant increase in the cost of living without a corresponding increase in wages" as the chief reasons for the horrors. During the present Republican panic hungry children have not even been provided with free soup-houses.

TRUSTS OFFERING BRIBES

IN THE INTEREST OF TAFT

The Standard Roller Ball Bearing Company, of Philadelphia, is a trust in itself and it is also allied with the steel trust. S. S. Eveland, president of the concern, called upon Mr. Taft and after a "satisfactory conversation," went back home and posted this bribing and intimidating notice in the trust's shops:

"The reduction of 10 per cent in wages last winter was to have been restored when business conditions would warrant it. While we are busy at present, we feel that its continuation will depend upon the result of the presidential election and that if Mr. Taft is elected a general improvement in all lines of business will result.

"On November 28th, we will, therefore, restore the old rating to all employees whose wages were reduced 10 per cent last winter, provided Mr. Taft is elected president.

"S. S. EVELAND, President."

Eveland says in his notice that "we are busy at present," which means that the old wages could be restored now, but the trust offers a provisional restoration as a bribe. Eveland likes Taft. After he had talked with him he felt so sure of the officeholding candidate that he gave out this opinion in a public interview:

"Taft is a very different man from Roosevelt. It is all right for the people out West to think that Taft is just like Roosevelt. Just keep them thinking that way, but we in the East know different. Why, there is no comparison between the two."

Now, the question is, what kind of a game is Taft trying to play? And are there any conscientious people who will help him play it?
