The Test That Tells

There is only one real test for a kidney remedy, and that is use. S. M. Oliver, Box 192, R. F. D. 5, Greensboro, N. C., writes: "Foley's Honey and Tar is just fine. I keep it in the house all the time. It soothes and relieves hay fever, asthma, coughs, colds, croup, and bronchial affection. Jos. A. Mehringer

Health

THE MAN WHO SUSPECTS THAT he has kidney trouble and neglects to take measures promptly for his relief is taking a dangerously unwise risk. If the kidneys are not properly performing their function of purifying the blood stream, waste products and poisonous acids remain in the system and cause rheumatism, rheumatic pains, backache, languor, sore muscles, swollen joints, stiffness, puffiness under eyes and other weakening symptoms.

Foley Kidney Pills restore and regulate the healthy and normal action of kidneys and bladder, bringing clean blood, sound nerves, clear head, good digestion, active brain, and all round vigorous health. M. W. Taylor, Calvert, Ala., writes: "My kidney is kidney trouble. I tried three different remedies, but none gave me such relief as Foley Kidney Pills."

Baccarat, France, has the honor of producing the first glass that is unbreakable. The new process has been successfully applied to the manufacture of lamp chimneys for use in coal mines containing much fire damp. The glass makers of Baccarat have also succeeded in increasing the elasticity of the glass. This they accomplish by adding magnesia and oxide to the ordinary crystal glass.—Success Magazine.

THE FEDERAL RESERVE

The Federal Reserve system established by Democratic legislation, although denounced by Republican candidates and orators and opposed by Republican leaders in Congress, has enabled the nation to finance the war and has safeguarded the business interests of the land against disaster. — Democratic State Platform, 1918.

Newspaper Advertising the Best.

"Newspaper advertising is conceded by the great business enterprises in this country and Europe to be the best kind of advertising," remarked A. H. Deibold of Wheeling, W. Va. to the Washington Post. Nearly all the eminently successful business concerns owe a large measure of their success to the newspapers. This is due to the fact that they get more direct results than by any other method of advertising. It is also more satisfactory because advertisers are able to trace results from their advertisements in the newspapers where they cannot if they advertise only in other ways. It is impossible to estimate the amount of money spent in this country in newspaper advertising. I know of one concern that spends half a million dollars a year and doubtless there are others who spend larger sums.

What Foods Weigh

It may be convenient to know that one quart of flour weighs one pound; a quart of cornmeal, one pound and two ounces; a quart of best sugar, one pound; a quart of powdered white sugar, one pound and one ounce; a quart of best brown sugar, one pound and two ounces; that ten eggs weigh one pound, though this depends somewhat on the size; sixteen large tablespoonfuls make half a pint; a quart of butter, one pound and one ounce.
