Foley Kidney Pills

act promptly and effectively to restore weak, overworked or diseased kidneys and bladder to a healthy condition.

Mrs. Robert Blair, 401 S. 20th Street, Terre Haute, Ind., writes: "I suffered two years with kidney and bladder trouble frequently getting backache. Mornings I would arise feeling very tired and having headaches, and see floating spots before my eyes. I saw Foley's Kidney Pills advertised and made up my mind to try them. After taking them a few weeks I found my trouble dispelled. The backache stopped and my kidneys were restored to healthy, normal action. Fashion Note.

Of April 7, 1870, Just 50 years ago. Now every woman wants to show her legs. They must believe the men think they ain't got any. "We are glad to learn that hot skirts are still to be the fashion among the elite and refined. They are essential to the fine appearance of any lady and going without them is considered not only untidy but immodest."

A woman is always grateful to the man who gives her a chance to refuse him.

No woman can tell whether her hat is becoming to her until she ascends the price.

The old faiths, whether Buddhism or any others, are losing their hold on the masses of the people of China. The question of what will take their place is of vital interest. Bolshevism is at our very door. The Christian missionaries are few to cope with the demand. Yet it is to the Christian missionary that China is looking, says North China Herald. It depends largely from where she gets her leadership as to the course China takes at the present time.

How Diphtheria is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him off the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted.

Catarrhal Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion, of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition hearing will be destroyed forever. Many cases of deafness are caused by Catarrh which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that can not be cured by Hall's Catarrh Cure. Circulars free. All Druggists 75c.

PEOPLE COMING FORWARD.

Very few have ever thought of Morocco other than in terms of romance. It is the land of the Moor. fierce warriors, burning suns, desert wastes and hinterlands from which come tales set in frames of arabesque, hidden courts, house-tops, mosques and wads. A few years ago William, lately the Sultan, and now the Subdued, shot Morocco across the screen by using it as a stage for one of his prewar dramatic outbursts. Then it subsided into the mystery that has surrounded it so long. Now an American consul drags it forth again to exhibit the fact that Morocco is building up an industry and an export trade, says Omaha Bee. Goods to the value of almost \$100,000,000 were shipped out of the country in 1918, and \$62,000,000 worth imported. The Moor is finally becoming a useful member of the great family of nations. Among the stuff sent out is enumerated 6,913 hogs and 832 metric tons of salt pork. Shades of the prophet! But, if the infidel Ghouls will eat pork, why should not a faithful Muslimman provide it, especially when it is so easily produced and so profitable to sell? One of the interesting features is the purchase of American farm machinery for agricultural operations. Morocco is on the map at last.

The tailor shop once used by Andrew Johnson, in Greenville, Tenn., is to be moved to the courthouse grounds in order to make room for a finer building, but apparently it is to be preserved and not demolished. Out in Edmonton, Alberta, the relics of the past are not treated so kindly. The last moldering ruins of the Hudson Bay company's fur post, in the shadow of the present capitol, has been removed. Thus Edmonton's oldest landmark passes.

The kitchen distillery constructed of a couple of milk bottles and some tin cans has been held by revenue authorities not to be a still in the legal meaning of the term, and anyone who ever tried to drink anything concocted in one of these domestic trouble-breeds will heartily agree with the revenue authorities.
