

KNIMAN NEWS

Mrs. Guy Barber, Mrs. John Neely, and Mrs. Estol Meyers were in Rensselaer on Friday.

U.S.C.S. met with Mrs. Verne Chappell. There were seven present. We are studying the Sunday School lesson as a part of our devotional program. The previous meeting was with Mrs. Dan Odle. Mrs. Chappell was re-elected president of the P.T.A. at DeMotte. Mrs. Henrichs had completed the quilt top and it was decided to meet next time at the church and put it in the frames. The date is Tuesday April 11.

Mr. and Mrs. H. J. Henrichs report that their son who was recently transferred to Canada writes them that tho he has a wonderful place to work he much prefers the U.S.A. as a place to live. He expects to be there for another month.

Mrs. Minnie Janke had as a guest her grandson, Corp. Louis Hage who was here on furlough.

Mr. N.H. Peterson was in Rensselaer on business on Friday.

Mr. and Mrs. Paul Cottingham and family visited at the John Neely home.

Congratulations to Mr and Mrs. Middelkamp Jr., who were married recently. She was Miss Lorraine McLain, one of our most popular girls. They are a fine young couple and their many friends wish them happiness and success. They are living in the house on the F.H. Gifford farm. A shower in their honor was held on Thursday at the Middelkamp Sr. home. They received a large number of gifts. Delicious refreshments were served and every one enjoyed the afternoon.

FEED FACT:

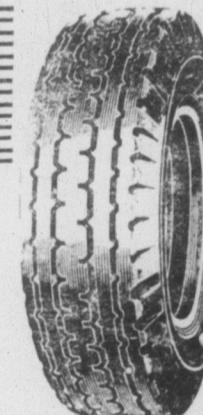

The first six weeks are the most critical period for chickens—feed properly now for more eggs and meat later!

BODY BUILDER FOR BABY CHICKS
Your chick's first feed is the beginning of egg and fryer profits. Chicks must not only live and grow, but build up stamina for future intensive laying.

PILLSBURY'S BEST CHICK STARTER
Has all the known proteins, sugars, starches, vitamins, and minerals to give baby chicks a vigorous start. It takes only about 2 lbs. per chick the first 6 weeks. So little—yet so much depends on it!

LOOKS GOOD!

*And Every Retread We
Turn Out Is Really Safe!*

No retreading too-thin rubber in this shop! We'd be sticking our necks out, while risking yours. We live up to government standards for rubber condition before we take a tire for retreading; but when we finally turn out a job, it's a swell one, with plenty of mileage to spare. So do the smart thing and don't keep riding your tires until they're too thin to regroove. Roll 'em in here while we can still do the kind of job that will add to their life's span.
