BUSY WITH NEW BOOK

Lake County Directory Co. Finds That County Is Growing.

More than 6,500 people have thus far been enrolled in the new directory, which is being compiled by the Lake County Directory company. The compilers have been working in the south end of the county and are careful to include every resident in the book. The directory, which is a deviation from old directories, is to enlist the names of everybody in the county where the old ones compiled only the names of those living in the cities. Once the book is completed it will undoubtedly be one of the most valuable reference books in the county. The figures gathered thus far are as follows:

Crown Point 2,542
Lowell 1,221
Eagle Creek Township 620
Cedar Creek Township 1,172
West Creek Township 1,071

These figures include the population of the rural districts.

"NINETY THREE"

The Story of a Famous Name and How It Originated.

The foremost dermatologist in France, Dr. Sabourand, of Paris, and Prof. Unna, Hamburg, Germany, discovered that a microbe caused baldness. To prove their theory, Dr. Sabourand infected a guinea pig with some of these microbes, and in a comparatively short time the animal was denuded of every hair that was on its body.

Some eminent histologists and chemists were employed by the United Drug Co., Boston Mass., to find the means of destroying these microbes, and a remedy that would create a new growth of hair where the hair roots had not been entirely destroyed.

After months of study, experimenting and research work, they discovered what they claimed would do what was demanded. To unquestionably prove their theory, 100 leading druggists, located in as many different cities, were requested to each furnish the name of a responsible person suffering from falling hair and baldness. Each of these 100 persons were furnished three bottles of the preparation with a request to give it a thorough trial and report results.

Five of these persons failed to report. Two declared they had been bald for years; that their hair follicles had long been closed and their scalps were smooth and glossy.

Ninety-three of the 100 sent in enthusiastic reports, stating that they were delighted with the hair-restoring qualities of the preparation, and expressed sincere thanks for the wonderful benefits brought about by its use. In commemoration of this, the new preparation was named Rexall "93" Hair Tonic.

We sell this remedy with the distinct understanding that it is free of cost to the user in every case where it does not completely remove dandruff, stimulate the hair follicles, revitalize the hair roots, stop the hair from falling out, grow new hair and make the scalp free from irritation.

Rexall "93" Hair Tonic comes in two sizes; price, 50c, and \$1.00. Kaufman & Wolf, Hammond, Ind.
