

HUNGARY IS SCENE OF TROUBLE

Supply of Beer Runs Short at a Birthday Celebration in Gary Foreign Quarter and Three Casualties Result—One Man Arrested.

WOMAN SUFFERS A BROKEN JAW BONE

Missiles Are Hurled in All Directions and Terrified Women Were Kept Busy Dodging Hail of Brick Bats—Police Make House-to-House Search for Leaders.

What promised to be a revival of the oldtime Gary riots occurred yesterday afternoon when four of the policemen hurried to "Hungary Row," where it was reported that the foreigners were clashing in a deadly fight. Although not as bad as the report indicated, there were three casualties before the disturbance was quelled.

One arrest was made, Sam Hollock, a Pole, 32 years of age. This man was brought to the station with blood streaming down his face from a cut behind the ear. He was charged with assault. No other arrests were made. The police did not learn the names of the two women who were injured in the fracas, but report that one of them had her jaw broken and the other was considerably damaged about the face.

Celebrates a Birthday.

The trouble began when a party of Polish people, who were celebrating a birthday party, had licked up all the beer and went to the Servian section, where they demanded more of some of the women tenants. The latter either did not have the "fire water" or refused to dispense with it. Various missiles, 2- and 3-bricks were then hurled at them with profusion, and the terrified women were kept busy dodging the continual hail. Two of them, however, managed to stop an equal number of bricks with their faces, and resulted in several serious indentations.

As soon as the police arrived a house-to-house search was made for the participants, but the only man that could be found was the one who suffered a wound himself in the bombardment of the Servian settlement. This victim was Mr. Hollock, whose breath as well as actions plainly indicated that was at the bottom of the row.

Nearly all of the Polish women in the settlement and many of the men who have remained away from work, participated in the riot yesterday afternoon. The birthday party was one of the finest social functions in Hungry Row until the guests ran short on beer.

DEMENTED WOMAN IS ORDERED TO ASYLUM

Judge Reiland Sends Mrs. Metropo to County Farm Pending Her Removal.

ATTEMPTED SUICIDE 3 TIMES

Neighbors of Destitute Family Take Pity On Children Who Await Their Disposition.

Family In Distress. The family are in destitute circumstances, the husband and father of the woman's two small children having had little work for the past three months. Neighbors of the unfortunate family have arisen to a sense of the duty and are earning for the children until some arrangements are made for their disposition by the state board of charities.

City Would Buy Coal Mine. The city of Vienna is now trying to secure control of mines in Moravia. The reasons given for the purchase are the high price of coal and the difficulty of securing a steady supply for the municipal gas and electric plants.

GARY POLICEMEN MAKE AN ARREST

John Adams, Indiana Harbor Man, Gathered in By Steel City Officers.

FIND MAN SEEMINGLY CRAZY

Prisoner Wanted to Carve Saloon-keeper Because He Couldn't Get Free Drinks.

[Special to THE TIMES] Indiana Harbor, Ind., Oct. 1.—Officers Newman and Miller of Gary made an arrest in Indiana Harbor yesterday afternoon by placing John Adams, a local millman, behind the bars of the city bastile. The Gary policemen had just arrived in the city on a Lake Shore train, intending to appear at the trial of K. Benjamin Kline, a Gary saloonkeeper, whose case was venued to Judge Reiland's court in this city.

Busi with a Razor.

As they neared the corner of Michigan avenue and Guthrie streets they saw a crowd of men surrounding an apparently crazy man and in the absence of any local officers took charge of the belligerent Adams. It was then learned that Adams, who was under the influence of liquor, had entered the Fox buffet on Michigan avenue a few minutes before and asked for a drink, free gratis. For refused to dominate the refreshments and Adams, indignant and vowed vengeance, left the saloon.

Was Going to Carve Fox.

He evidently went to his room and secured a razor with which he declared, it is alleged, he would "carve that peaky Fox." The blade was taken away from him and he will now have to answer a charge of intoxication before Judge Reiland. Officer Ford of the local department took charge of the man on his arrival in the local jail.

PREVENTS TRAIN WRECK

Griffith Heroe's Deeds Remain Unrecognized by Railroad Company.

[Special to THE TIMES] Griffith, Ind., Oct. 1.—Dan Walters has again become a hero, if stopping the second Erie milk train in the nick of time and thus preventing a disastrous wreck, is the kind of performance that makes a hero.

Dan doesn't know he is a hero, and perhaps doesn't care. He discovered the broken "frog" and saw the danger to the oncoming train. With his old hat and a flag he succeeded in bringing the train to a standstill just before it reached the dangerous place, thus saving the lives of the passengers and a big loss to the Erie railroad. This makes the second time Mr. Walters has stopped a train.

There are a large number of saloons which have only a month or two more to run. In these cases a special ordinance, which was passed by the city council, makes it possible for them to secure a city license for the unexpired term of their county license.

Through the operation of the remonstrance many saloonkeepers with good reputations were forced out of business, but there are several whom everybody in Gary is glad to see out of the business.

One of these is J. Benjamin Kline, who conducted a place which was frequented by a low class of negroes and was a menace to the community. Kline at the present time will have to answer to the pure food officers for conducting an unsanitary place.

ATTORNEY IRACH ON STUMP FOR DEMOCRATS

Hammond Man Addresses Meeting at Crown Point Last Night.

Crown Point, Ind., Oct. 1.—The democrats of Center township held their weekly meeting at their headquarters over Houk's shoe store last evening. Attorney J. G. Irach of Hammond addressed a good-sized audience upon the leading questions of the day from a democratic standpoint. The meeting adjourned at an early hour.

ATTY. CLARENCE BRETSCH WILL TAKE STAMP ON OCT. 9.

Republican Speaker Is After the Scalp of M. H. Stanton, Democratic Candidate For Joint Representative.

On Oct. 9, Attorney Clarence Bretsch will start on his speaking tour of Lake and New ton counties, in the interest of the Republican party. Attorney Bretsch expects to be gone about three weeks, during which time he will cover nearly every town and village in both counties. For the strenuousness of the trip laid out, it will make Bryan and Taft look like novices. Mr. Bretsch will attempt to give Taft and Watson a big surprise. He also wants to help the county ticket, but the one big object of the tour is to pull Gary candidate, William H. Kilver, under the wire ahead of Attorney M. H. Stanton.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used, except on prescription from a reputable physician, as the damage they do tell-fold to the good you can possibly derive from them. Hail's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood vessels.

In buying Hail's Catarrh Cure, be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood vessels.

Sold by Druggists. Price 75¢ per bottle.

Hail's Family Pill for constipation.

UNLICENSED PEDDLER WALKS INTO STATION

Fails to See Curtains on the Gary Bastile and Thinks It Private Residence.

HE TALKS WEATHER TO SERGT

Notices His Mistake Immediately and Switches Subject—Officer Gives Him Hint.

[Special to THE TIMES] Indiana Harbor, Ind., Oct. 1.—Officers Newman and Miller of Gary made an arrest in Indiana Harbor yesterday afternoon by placing John Adams, a local millman, behind the bars of the city bastile. The Gary policemen had just arrived in the city on a Lake Shore train, intending to appear at the trial of K. Benjamin Kline, a Gary saloonkeeper, whose case was venued to Judge Reiland's court in this city.

Stepping up to the police station door he rapped and was asked by the desk sergeant to come in. After entering he stepped up to a stranger who was standing at the desk and bid him good morning.

"I have something here, my dear sir, which I would like to show you," he began.

"I noticed as I was coming into your cozy little residence—office I should say—just then he caught sight of the desk sergeant," "Ahem!"

"I was just going to remark that your police station looks so much like a residence that it is difficult to tell the difference. Rather chilly today, Sergeant?" Officer Juric looked at the man with a whimsical smile and informed him that a peddler's license in this city costs about two bucks.

The peddler caught onto the joke immediately, but proceeded to change the subject to the wonders of the steel city, how many men the mills expect to employ this year, and wound up with a prophecy that Taft would be the next president of the United States.

Juric replied in brief and as the man backed out of the door dropped the reminder that there was nothing doing in the lace curtain line in Gary without the necessary permit.

BIG DITCH WILL DO MUCH GOOD

Work on East Chicago Co.'s Drainage Scheme Is Under Way Now.

ROUTE OF NEW CHANNEL

Cost of Improvement Is in the Neighborhood of \$5,000 and Company Gets a Lot of Praise.

[Special to THE TIMES] Indiana Harbor, Ind., Oct. 1.—Probably no improvement within the past four years has done more actual good for the city of Indiana Harbor than the ditch now being constructed by the East Chicago company for the drainage of the entire eastern end of the city. The work will be completed by Nov. 15 and the city supplied with a drainage system second to none.

New Mains Would Be Needed.

For years and years the city of East Chicago and its immediate vicinity has been the catching point of the waters from the Dune Park hills, flowing westward to this city. Had the East Chicago company not decided to assist the city in its efforts to secure proper drainage the water would have been taken up by the East Chicago and Indiana Harbor sewers, necessitating additional pumping and new mains.

Path of the Ditch.

The new ditch now runs from the Pennsylvania main line at Buffington to the intersection of Cline avenue, with the Little Calumet river. It will be about one and a three-quarters of a mile in length and of a depth of fifteen feet in place.

According to statements made by Secretary Westergren, of the East Chicago company, yesterday, the approximate cost of the improvement is about \$5,000, and Harborites should be justly proud of the corporation, who, by putting its hand into its own coffers, gives the city an improvement such as the Cline avenue ditch.
