TRADE SHOWED GAINS

Cleveland, O., Oct. 8. — The Iron Trade Review says: Dullness continues to prevail in the iron market.

Whether this is due to uncertainty as to the presidential election is a matter of opinion, but it certainly is true that predictions that the market would be artificially stimulated for political effect have not been fulfilled. In spite of the comparative inactivity, September recorded some substantial advance, especially in the Chicago district, where specifications on the books of the leading interest increased 25 per cent.

Recent orders for cars have resulted in 12,000 tons of structural material for steel underpinning being purchased by the Bettendorf Axle company, and 9,000 tons of plates and shapes by the Standard Steel Car company, which is building the first order of 1,000 cars for the Chicago and Alton. This railroad has placed a second order for 1,000 cars which will require about 10,000 tons of plates; the Grand Trunk Pacific is figuring on fifty locomotives, the Michigan Central is having 5,000 freight cars rebuilt; the Harriman lines are receiving prices on 220 all steel Pullmans; the Chicago, Burlington and Quincy is buying steel underframes; the Iowa Central has ordered fifty all-steel cars, and other roads are in the market for cars and rails, although the inquiry for the latter is limited. Low prices are undoubtedly responsible for this business, to a large extent.

The general report in regard to pig iron is one of activity, but prices are, for the most part, firm, with few changes during the last month.

Owing to the continued drought in the Connellsville region, the plant of 500 ovens of the Ellsworth Coal company, a subsidiary of the Lackawanna Steel company, has been compelled to go out of commission, and other operations are in danger.

NOTICE TO NON-RESIDENTS. THE STATE OF INDIANA, LAKE COUNTY, NORTH TOWNSHIP, IN THE COURT OF FRANK D. PREST, A JUSTICE OF THE PEACE IN AND FOR NORTH TOWNSHIP, LAKE COUNTY, INDIANA, MICHAEL MOBERTS VS. D. F. LESLIE (WHOSE TRUE CHRISTIAN NAME IS UNKNOWN) AND NEW YORK, CHICAGO AND ST. LOUIS R. R. CO.

Now comes the plaintiff by G. C. White, her attorney, and files her complaint herein, together with an affidavit showing that the defendant, D. F. Leslie, whose true christian name is unknown, is not a resident of the State of Indiana. Said defendant name is therefore hereby notified of the pendency of said action, and that the same will stand for trial on the 14th day of December, 1908, at 9 o'clock, at the office of Frank D. Prest, a Justice of the Peace in and for North Township, Lake County, Indiana, at Room 26, Rimbach block, in the City of Hammond, and that unless he or she appears and demurs therein, at the calling of said cause on the 14th day of December, 1908, at 9 o'clock in the forenoon, said action will be heard and determined in his absence.

In witness whereof, I hereunto set my hand and affix my seal of office at Hammond, this 8th day of October, 1908.

FRANK D. PREST, Justice of the Peace.

THE TIME TO BUY Real Estate HAS NOW COME

Owing to returning prosperity and the revival of business the demand for Real Estate is increasing. Property bought now will look cheap in a short time. We still have choice building and business lots on the North, East and South Sides, for sale at Bargain Prices and Easy Terms.

WOMEN GET IN THE CAMPAIGN

Mrs. J. Ellen Foster Will Speak at Big Gathering Tonight.

WILL MARCH IN THE PARADE

Campaign Quartette of Hammond Will Assist at the Meeting in Gary.

The introduction of a woman into a national campaign is something new in this region, and for that reason there is a great deal of interest being taken in the meeting at Gary tonight, at which Mrs. J. Ellen Foster of Washington, D. C., will speak.

The speaking is to be under the auspices of the Gary Women's Republican club, and its members are to be assisted in making the meeting a success by their husbands. The meeting is to be held at 8 o'clock in the Binsenhof hall.

The members of the Gary Women's Republican club have hired a band, which will parade up and down the streets and will then play a selection or two in the hall.

Mrs. Foster will arrive in Gary over the Lake Shore railroad at 3:50 p. m. She comes direct from Washington. She has just completed a speaking tour in the eastern states and she will continue her western speaking tour in Gary.

A campaign quartet, representing the Young Men's Republican club of Hammond, will come to Gary in an automobile tonight and will render several campaign parodies.

It is expected that there will be a number of republicans from the various cities of the Calumet region, and a good crowd is expected at the meeting. Mrs. R. R. Quillen, the state organizer of women's auxiliaries to the Lincoln league, has written letters to the various party leaders over the county, asking them to be present at the meeting.

Extends General Invitation.

She invites men, women and children to come and hear Mrs. Foster, and through her energy and enterprise the meeting deserves to be a success. Mrs. Foster comes a long way to address the people of Gary, but that city has the honor of having the address of a woman's republican club, and it is conceded that it deserves to have Mrs. Foster speak to them.

Mrs. Foster will make only two or three speeches in Indiana, and one of these is the one which is to be held in Gary tonight.

KEEFE DENIES LABOR HAS INDORSED BRYAN

Vice President of American Federation of Labor To Vote For Taft.

UNIONS ARE NON-PARTISAN

High Union Official Declares That Executive Council Has Not Declared for Bryan.

Union labor in the Calumet region will be interested in learning that "Bryan has not been indorsed for president by the executive council of the American Federation of Labor. Neither has any one the right to criticize a union man for voting for any other candidate for president. In fact I will vote for Taft."

Daniel J. Keefe, a member of the executive council of the American Federation of Labor threw this bombshell into the Bryan camp last night in a statement issued in Detroit. He not only stated the position of the executive council but ended by saying emphatically that he would vote for Taft.

Vice President Keefe's statement, following that of Vice President James Duncan, also a member of the executive council, is said to mean that the council is just as divided on who are the friends and enemies of labor as is the rank and file. It also does away with the fear of many that they espouse the cause of any other candidate than Bryan they will be ostracized by the Bryanites and placed in the traitor class.

Under Vice President Keefe's statement, which was made after the executive council had thrashed out the whole political situation, it is announced that there will be no more "steam-roller" methods used by unions, central bodies or state federations to compel or coerce members to vote and work for Bryan or any other candidate. The statement of Vice President Keefe is in reply to a query as to whether he approved of the political policy of the American Federation of Labor and if he rank and file should vote for Bryan. It is as follows:

I reply I desire to state that the American Federation of Labor is not committed to any political party nor has any candidate for president been indorsed by the executive council.

I am of the belief that the general public does not fully understand the position of the executive council of the American Federation of Labor in the present campaign. The policy of the labor movement is nonpartisan, and is as follows:

We desire to refute here the aspersions that have been cast upon the executive council and particularly one of its members, President Gompers, that it is our purpose, or his to dictate to the working people of our country that they should cast their votes in the coming elections. Nor has any one promised the vote of the working people to any particular party.

We have strongly, clearly and emphatically, as it was our duty, presented the situation in which the working people of the country find themselves.

To Keep Labor Non-Partisan.

The misrepresentations of newspapers and others, to the contrary notwithstanding, we repeat and insist, and we have so conducted our course that the labor movement shall remain as free and independent from political partisan domination as it has ever been in its history.

The foregoing does not commit the American Federation of Labor to any political party and is nonpartisan, which permits union men to vote for whom they may please for president and other officers without fear of criticism. All of which I most heartily indorse.

I might further add that Mr. Taft as Secretary of War, did more to enforce laws in favor of organized labor than all his predecessors.

The misrepresentations of newspapers and others, to the contrary notwithstanding, we repeat and insist, and we have so conducted our course that the labor movement shall remain as free and independent from political partisan domination as it has ever been in its history.

MACHINERY IS SET IN OPERATION

Indiana Harbor's Sewage System Is Set in Motion Today.

3,000 GALLONS PER MINUTE

Dayton Company Has Been Setting Up Pump and Motor For Months.

(Special to THE TIMES.) Indiana Harbor, Ind., Oct. 9. — At 2:30 o'clock yesterday afternoon the machinery was started that began the operation of Indiana Harbor's sewerage system through new pumps, driven by a large electric motor instead of the former three gas engines. Mayor DeBrie, City Attorney Kennedy, and the entire common council watched the monster pump commence working, and congratulated the representatives of the Dayton Hydraulic company, of Dayton, O., for efficient installation of the plant.

Two Months' Work. The Dayton company have been setting the pump and motor in position for almost two months. The pump is supplied with two 15-inch inlet pipes, and an 18-inch outlet, which permits the carriage of the sewage into the lake at the foot of Lincoln avenue. The former service was inadequate for the growing needs of the city, as well as being depreciated by age. The present pumps will now have a draught of 3,000 gallons per minute, which is equal to that of any other city in the Calumet.

A MALICIOUS FAKE

Gary Paper Misleads Its Readers Grossly Regarding Banker.

(Special to THE TIMES.) Crown Point, Ind., Oct. 9. — When the Northern Indianian, printed at Gary, declared that John Brown, the Crown Point banker, was paying taxes on but \$30 worth of personal property, much indignation was expressed here as in other cases where a twisted story of taxes paid by other property owners took place.

The truth of the matter is shown by the Lake County Star, which says: "The tax duplicate shows that John Brown will pay, on this year's duplicate, on \$15,355 personal tax in Crown Point, including his bank stock, \$3,830 on personal property in Eagle Creek township, and \$3,560 in West Creek township, and puts him down at \$30. There is a John Brown (laborer) on the record that is assessed with \$30, but the reporter evidently did not want to go any further, believing that he had unearthed a great fraud, and besides Banker John Brown and the assessor are republicans."

WILL SPEAK AT MILLER

Trio of Aggressive Republicans Will Address the Gathering.

(Special to THE TIMES.) Miller, Ind., Oct. 9. — Nelson Jacobson, Edward Wickley and Clarence Bretsch will speak at a big political meeting at Miller tonight. The republicans are so enterprising that they have hired a band and will have a small parade before the speaking begins.

The hall in which the meeting is to take place has been decorated with flags and bunting and will present an attractive appearance. The enthusiasm for the republican cause at Miller is very great and it is expected that there will be a large crowd out to hear the speakers.

Those who have heard Nelson Jacobson, Edward Wickley and Clarence Bretsch speak know that they are live propositions, and the meeting at Miller will be a warm one.
