### Day's Grist in South Chicago

#### "THE COWBOY GIRL" AT THE CALUMET THEATRE

The jolly melodramatic musical play called "The Cowboy Girl," which is at the Calumet theater, is meeting with success. This new combination of drama, music and comedy is something of an innovation in the amusement world, embracing, as it does, serious drama, musical numbers of original composition, and a comedy element that really amuses. Naturally a much larger company is necessary to properly produce "The Cowboy Girl," and in conjunction with a bevy of spirited show girls, give color to the ensembles and tinsel musical numbers.

Crowded houses have greeted this show and the "Four Bad Men from Arizona" are making a tremendous hit with the audiences with their clever dancing.

**Snakes' Ears.**  
Snakes have no external ears, but inside the head the ear bones are very crude, says St. Nicholas. Snakes "hear," however, by feeling vibration of sound on their delicate scaly covering, and searching for sound vibrations by protruding the wonderfully sensitive tongue which is filled with "hundreds of microscopic nerves. Their sight is very keen in distinguishing moving objects.

**FOR PIMPLES, TOO.**  
Few Discovery Cures Eczema and Eruptions Minor Skin Troubles Over Night.

A few months ago the dispensers of poslam, the new discovery for the cure of eczema, decided to allow the druggists of the country to handle it. Previous to that time it could only be obtained direct from the laboratories.

Since this change in the method of distribution, poslam has met with the most phenomenal success of anything introduced to the drug trade in the last 30 years. All leading druggists, including J. W. Wells in Hammond, are now carrying the special 50-cent size recently adopted, also the 32 jar.

This great success is not surprising when it is remembered that, in eczema cases, poslam stops the itching with first application, proceeds to heal immediately, and cures chronic cases in a few weeks. In minor skin troubles such as pimples, blackheads, acne herpes, blotches, rash, etc., results show after an overnight application. Experimental samples of poslam are sent to anyone by mail free of charge, by the Emergency Laboratories, 32 West Twenty-fifth street, New York City.
