

HISGEN FAILS TO SHOW UP

Independent Party's Candidate and His Sponsor, Mr. Hearst, Disappoint Waiting Faithfuls at Gary Yesterday.

LABOR FLYING WEDGE IS COMING HOWEVER

One of the Biggest Meetings in the District Is Planned for the Twenty-Ninth of This Month—Ballard the Live Wire in the Magic Steel City.

In spite of the fact that William Randolph Hearst and Thomas Hisgen, the independent party candidate for president, were not able to speak in Gary yesterday, the Independence League of Gary is planning a big celebration in this city. What is known as the famous Labor Flying Wedge will come to Gary the 29th of this month, where they plan to hold one of the biggest meetings in this district.

Already preparations have been begun by Attorney E. G. Ballard of this city for the meeting, in which five labor men will speak, in addition to a number of state candidates. Among the latter are J. W. Close, candidate for secretary of state.

Hisgen May Still Come. Hope is still held out, however, that Hisgen may be secured for Gary, as he speaks in Petersburg, his former home, the latter part of this week, and it may be possible that he can be induced to come to Gary. It now seems probable, also, that James Zion, the party candidate for governor, can also be induced to come to this city.

On the 28th, aside from Mr. Close, who will be one of the most prominent speakers of the evening, the Independence party will have Edwin Strauss of Toledo, Ohio, one of the best speakers now touring the country for the Independence party. There are three other members of the "Flying Wedge" who will also speak in Gary on that date and who are all known to be good men.

May Appear in Hammond. The tour of the "Flying Wedge" in this district will include the cities of Lafayette, Valparaiso, South Bend and Gary. An attempt will also be made to get them to come to Hammond. Besides this meeting other meetings of importance are planned by the party for the closing week in Gary. The league in Gary is making great efforts to make these meetings a success.

IS IMPRESSED BY GARY

Short Visit May Induce D. H. Davis to Invest a Fortune.

D. H. Davis of Brazil, chairman of the state board of charities, stopped over in Gary yesterday afternoon on his way back from South Bend, where he was attending the state convention of Indiana charities and corrections. Mr. Davis was very much interested in Gary and expressed a desire to invest in property in the new steel city. It is likely that Mr. Davis will return in the near future and buy up some Broadway property. It is said that he may invest about fifty thousand dollars in the city.

Besides being chairman of the board of charities, Mr. Davis is one of the best-known business men of the state, being the owner of the largest hotel in Brazil. He is also interested in many other business projects in the state.

DRINKING MEN NOT RELIABLE

Employers Want Sober Men.

Competition is too keen and life is too strenuous for an employer to keep men on his payroll whose nerves are unsteady and whose brains are not clear.

Every line of business is beginning to close its doors to drinking men.

Drunkenness is a disease and like most diseases—has its remedy. Orlin is the reliable treatment and is sold under a positive guarantee to effect a cure or your money will be refunded. Orlin is in two forms: No. 1, which can be used without the patient's knowledge, in tea, coffee or food; and No. 2, for those who wish to be cured.

The guarantee applies to both forms. Mailed in plain sealed package on receipt of \$1.00. Write for free booklet, mailed in plain sealed envelope. Orlin Co., Washington, D. C., or The Lion Store Pharmacy, Hammond, Ind.

40 HOURS DEVOTION CLOSES AT WHITING

Elaborate Services Mark the Closing Events on Sunday Evening.

LOCAL PASTOR IS ASSISTED

Protestants Who Attended Catholic Services Much Impressed With Ceremonies Carried Out.

Whiting, Ind., Oct. 20.—(Special).—The "Forty hours' devotion" which was conducted at the Sacred Heart church from Friday morning, closed Sunday evening and was one of the most successful of the similar events which was ever held in the local church.

During the services Rev. John B. Berg was ably assisted by Rev. John Noll, a mission priest from Hartford City, Ind. Father Noll is being given much praise, not only by the members of the Sacred Heart church, but also by the hosts of Protestants who attended the services. His talks appealed to each and every one and to Whitingites he has proven himself to be a brilliant missionary.

Other Priests Participate. Other priests taking part in the services of Friday and Saturday nights were Rev. Felix Sroczynski of the local Polish church; Rev. Thomas Jansen of Gary, and Rev. W. Berg of Schererville, Ind., who is a brother of Father Berg of the local church.

The services on Sunday night were very elaborate. The altar was most beautifully decorated with potted plants and cut flowers. There were eight priests in attendance, each taking an active part. Those present besides Father Noll and Father Berg were: Rev. Patrick Welsh of Chicago Heights, Rev. Suerth of East Side, Rev. Edward J. of Hammond, Rev. Herman Juraschek of Chesterton, Rev. Thomas Mungoven of Indiana Harbor, and Rev. Benedict of Robertsdale.

PROCESSIONS AROUND CHURCH

The processions around the church at the close of the services was very impressive. In this all the children from St. Michael's school took part. The procession was headed by the altar boys in their surplice gowns and they were followed by the rest of the boys and they in turn were followed by the girls of the school, some wearing wreaths and veils and some merely wearing wreaths on their heads, but all were dressed in snowy white, which presented a most beautiful spectacle.

Father Berg is most pleased with the interest taken in the services this year.

FIRES DISTRACT POLICE

Gary Cops Do Fine Work in Assisting Volunteer Firemen.

Two fires in Gary came to the attention of the authorities yesterday, and in one case especially, the effective work of the police officers saving the surrounding property from destruction.

A defective flue in one of the shacks south of the Michigan Central tracks near Broadway started a blaze and several of the shacks caught fire. Officers Johnson and Miller and Newman formed a bucket brigade and did effective work. The damage was nominal.

Earlier in the day a hot journal set fire to a freight car in an east-bound Wabash train. The fire was noticed about a mile and a half east of Gary and the train was brought to a stop. The car was set out, but the fire had so much of a start that it was impossible to quench the flames. It was left on the side track to burn to the ground. Being empty, the damage was confined to the car.

FIXTURES MOVED AWAY

Former Gary Postoffice Furniture Will Be Used at Buffington.

The old postoffice fixtures in the Knotts building were moved away today and now nothing remains to show where Uncle Sam has held sway for so many months in Gary. Many of the residents in that section of the business district were sorry to see the office moved away, but as they are expecting free delivery any month they feel that it won't make much difference. The fixtures are being taken to Buffington, where they will be used in a new office which is being put in at that place.

In the space formerly occupied by the postoffice will be put a five and ten cent store. The proprietors of this new business are Heltzer and Pierce of Flint, Mich. They have part of their stock on the road and expect to occupy the building by the last of this week. The insurance office of Knotts and McRoberts will be moved to the second floor, temporarily at least, until the new building is completed.

To Retain Friendship.

Let this be established as a primary law concerning friendship, that we expect from our friends only what is honorable and for our friends' sake do what is honorable.—Cicero.

STEEL MAGNETS MAKE SECOND VISIT

W. E. Corey, E. H. Gary and E. J. Buffington Among the Visitors.

THEY SEE GROWTH OF CITY

Party Taken Over Site and Through Mills Which Are Nearly Completed—Are Highly Pleased.

As announced exclusively in THE TIMES Saturday, William Ellis Corey, president of the United States Steel corporation, paid Gary a visit yesterday, together with other distinguished officials of the steel trust. The magnate spent the greater part of the day visiting the steel plant and the city proper. The verdict of them all was that they were delighted with the progress made, both in the mills and the city itself.

The party arrived in Gary at 9 o'clock over the Lake Shore, in special cars. Among them were E. H. Gary, chairman of the board of directors, after whom the city was named; E. J. Buffington, president of the Indiana Steel company; G. Thorpe, vice president of the Indiana Steel company; Alva Dinkey, president of the Carnegie Steel company; A. L. Banks, president of the Chicago, Lake Shore and Eastern railway; and a number of other officials connected with subsidiary companies of the United States Steel company.

They were taken into the mills at once by Superintendent W. H. Gleason, who took them through the many acres of sand, and were shown the details of the work of destruction. The inspection trip of the mills lasted until noon and was very thorough, as it is probable that this will be the last time that they will be enabled to see them before the enormous plant is put in operation.

Immediately after the trip through the mills the train was taken about town by Mr. Gleason in his automobile, and they were shown the progress that has been made in the city. The substantial buildings which line Broadway appealed to them and the progress made in the building of the city seemed equally satisfactory to that of the mills.

After a luncheon in their private car, on the Lake Shore, they returned to Chicago. This is the first trip that Mr. Corey has made to Gary in nearly a year.

DESERTER IS RETURNED

Whiting, Ind., Oct. 20.—(Special).—Chief of Police Patrick Lawler has returned from Norfolk, Va., where he went with Paul Yaska, the 19-year-old Whiting boy who deserted the United States navy after serving eighteen months, and returned to his home in this city. The boy will be compelled to pay a fine of \$250 for taking his departure without the necessary discharge. This fine will have to come out of a salary of \$18 per month. In addition he will not be allowed to put his foot on land for many months.

Yaska himself does not seem to take the matter very seriously, but his mother, who resides in Davidson's addition, is heart-broken over the affair.

GARY REPUBLICANS HOLD AN IMPORTANT MEETING.

The most important meeting ever held by the executive committee of the Gary Republican club was held last evening in the Gary hotel and the arrangements were made for the big Taft-Beveridge meeting in Gary on Saturday, Oct. 24.

C. H. Maloney was made the chairman of the committee which is to have charge of the parade. Joseph Coffery was made chairman of the music committee. Pontus Heints was made the chairman of the committee on balls and decorations and W. F. Hodges was made the chairman of the committee on advertising and printing.

As the plans have progressed so far the Casino will be used for the principal meeting and there will be arrangements made for an overflow meeting in the Binsenhof hall. It is proposed that Mr. Taft begin the speaking in one hall and Mr. Beveridge in the other and that they then change halls so that the entire crowd will hear them.

BY WHEELBARROW IN CHINA.

Two Passengers Go 20 Miles a Day for Ten Cents Each.

Probably more freight and more passengers are transported in China by the wheelbarrow than by any other land method. The wheelbarrow used in China differs from that used in America in the fact that the wheel is set in the center and thus supports practically the entire load, while the handles are supported in part by a strap or rope over the shoulders of the man who operates it.

As a result the coolie in China will transport nearly half a ton on his wheel. Wheelbarrows are much used in the country where the roads are but little developed, and I have heard that passengers sometimes make the entire trip from Shanghai to Peking, a distance of 600 miles, by barrow.

A two-passenger barrow will make about 20 miles a day, and the coolie is content with a pay of about 20 cents a day, or an average of about half a cent a mile for each passenger.

On the level, well-kept streets of the foreign quarters of such cities as Hongkong, Shanghai and Peking the wheelbarrow coolie will struggle along with a load of six or even eight people.—Washington Herald.

WILL TRY TO OUST E. GARSTON SMITH

Owner of Building in Gary Comes from Cleveland to Press Suit.

TRIAL IS IN SUPERIOR COURT

Defendant Has Taken an Appeal to From Justice Court Where He Lost Out.

W. S. Feuer of Cleveland, owner of the Smith building, arrived in Gary this morning for the purpose of pushing a case against E. G. Smith, the present tenant of his building. Mr. Feuer has been trying for some time to oust Smith and some time ago won his case against him in a justice court. The case, however, was appealed to the superior court, and in the meantime Mr. Smith continued to occupy offices in the building.

Mr. Feuer, however, is now endeavoring to have the case pushed against Smith in the upper court, and expects in a few days to once more gain possession of his own property. The case has been set for trial at this term of the superior court, and unless something unexpected happens Mr. Smith's days in the Smith building are numbered.

The building is one of the best on Broadway and is in a splendid location, and Mr. Feuer thinks that he will have no difficulty in getting in desirable tenants as soon as he can get possession of it.

MANY PERMITS GRANTED YESTERDAY

Much Building To Be Done Very Shortly in the New Steel Town.

It has been a long time since there have been so many building permits issued in Gary as there were granted in one day yesterday. There were permits issued for the construction of seven buildings, most of which are residences, and the business men of the new steel city are very much gratified to know that there is such great building activity.

H. Alschuler, the proprietor of one of Gary's department stores, will erect a two-story frame residence on Van Buren street and Sixth avenue. Amos A. Crago, a contractor, will build a two-story frame residence on the corner of Harrison street and Fifth avenue.

B. & O. R. R. Co. Is Busy.

The Baltimore & Ohio railroad, according to B. T. Farrell, the Gary agent, will build a large freight house on Virginia street. It will be the largest freight house in the city and will be 120 feet long and 40 feet wide. Construction on this building will begin at once. The building will be located at opposite the Lake Shore freight house.

Sam Raft will build a one-story frame residence on Calumet street, near Lincoln street. J. D. Herr will build a one-story residence of frame at the corner of Adams street and Eleventh avenue. H. H. Dee will construct a residence on Tyler street, near Eighth avenue. Mr. Dee is with the Kelly-Dee Electrical Construction company.

CLEAR THE COMPLEXION OVERNIGHT.

Pimples, Rash, Eruptions, Etc., Quickly Eradicated by New Skin Remedy.

Since its discovery one year ago, poslam, the new skin remedy, has in its extraordinary accomplishments, exceeded the most sanguine expectations of the eminent specialist who gave it to the world. It has cured thousands of cases of eczema and eradicated facial and other disfigurement of years' standing. The terrible itching attending eczema is stopped with the first application, giving proof of its curative properties at the very outset.

In less serious skin affections, such as pimples, rash, herpes, blackheads, acne, barber's itch, etc., results show after an overnight application only a small quantity being required to effect a cure. A muddy or sallow complexion is noticeably improved by a single application. Those who use poslam for these minor skin troubles can now avail themselves of the special 50-cent package, recently adopted to meet such needs. Both the 50-cent package and regular \$2 jar may now be obtained in Hammond at J. W. Wells, 98 State street and other leading drug stores.

Samples for experimental purposes may be had free of charge by writing direct to the Emergency Laboratories, 22 West Twenty-fifth street, New York City.

The Saving Sense of Humor

Each one of an affectionate couple may be willing, as we say, to die for the other, yet unwilling to utter the agreeable word at the right moment; but if the wits were sufficiently quick for them to perceive that they are in a comic situation, as affectionate couples must be when they quarrel, they would not wait for the moon or the almanac to wait back the flood-tide of tender feelings that they should join hands and lips.—George Meredith, in "An Essay on Comedy."

MORE NEWS IN ONE WEEK IN THE TIMES THAN IN ALL THE OTHER PAPERS IN THE CALUMET REGION. COMBINED. COMPARE THEM AND SEE IF IT ISN'T SO.

GRAFT CASE OUT OF COURT

Judge V. S. Reiter Disappoints East Chicago Reform Body by Declaring That Council Obeyed the Law.

Judge V. S. Reiter Disappoints East Chicago Reform Body by Declaring That Council Obeyed the Law.

East Chicago, Ind., Oct. 20.—Judge V. S. Reiter of the superior court, yesterday discharged the proceedings instituted against the members of the East Chicago city council charging them with contempt of court in connection with the awarding of the furniture contracts for the new city hall. The case was one of the interesting links in the so-called graft prosecutions started by Colonel R. F. Walsh and his cohorts, the Citizens' Improvement association, and was prosecuted by Attorney D. J. Moran of Hammond.

History of Case. Judge Reiter last August issued a temporary restraining order against the city, compelling them to refrain from purchasing the furniture for the municipal offices until the letter of the law in regard to appropriations had been carefully followed. This was done, according to the views of the council, and the contract for \$7,500 worth of furniture awarded to the A. H. Andrews company of Chicago. The disgruntled members of the Improvement association declared that the proper legal steps in the advertising for bids, etc., had not been taken and immediately started the contempt proceedings. Judge Reiter, in his decision absolutely declared the council to have obeyed the law and his decision eliminate the trial from the records of the court.

Couldn't Be Found.

Colonel Walsh could not be found this morning, when an attempt was made to ascertain the course of his future prosecutions. According, however, to past statements made by the watch-dog of the Improvement association, he will not cease to be aggressive and militant in their prosecution of the graft alleged to exist in the chambers of the city council.

WOMAN HANDLES HOBO

Gary Lady Shows Prowess in Handling a Tough Customer.

Mrs. F. J. Larkin, living on Virginia street, is the terror of hobos, and to such an extent has she proven her prowess in dealing with the pests that at least one has been driven to the courts to seek protection. The victim, who, however, is finding little sympathy among the Gary women folk, is Dan Lyons, better known as "Hobo Dan."

Mrs. Larkin went to the woodshed yesterday afternoon in order to get fuel but found the supply partially covered by the prostrate figure of Dan, who was snoring on the soft side of the kindling wood.

She awakened the sleeping beauty and used no uncertain words and manner. Completely upset by being disturbed in his slumber, the man was prone to leave his abode of repose and told the woman not to hurry him to much. It was at this juncture that Mrs. Larkin used physical force to such an extent that the hobo was driven to the wall. He finally managed to escape and angered at the treatment that he had received he swore out a warrant charging the woman with assault and battery. The case was on trial today in Judge Huber's court.

BRYAN SPEAKS TO THRONG.

(Continued from page 1).

appealed to the working man that it was of greater interest to the working man to elect a democratic administration than to the candidates themselves. He said that the plank in the platform contained four distinct features of benefit to the laboring man which are not mentioned in the republican platform. Among these four points he dwelt principally upon the democratic demand for a labor commissioner in the president's cabinet, and the repeal of the Sherman anti-trust law as far as it applies to organized labor, and the writ of injunction as applied toward unions.

Psychology of Dress.

Dr. Thomas Clay Shaw of London, speaking on the subject of the special psychology of women, says that there is a psychology in clothes. It is useless to say that they dress as they do to please other women or please men. They dress simply because they have to in their own way and to their own satisfaction. The psychology of dress is that it appears to make you be what you profess to be.

Colors of Lakes.

Some lakes are distinctly blue; others present various shades of green, so that in some cases they are hardly distinguishable from their level, grassless to say that they dress as they do to please other women or please men. They dress simply because they have to in their own way and to their own satisfaction. The psychology of dress is that it appears to make you be what you profess to be.

Thomas E. Marshall, the democratic candidate for governor came on the train came to the meeting in J. E. Fitzgerald's machine and found his way to the car platform where he received a hurried introduction to the governor candidate. Mr. Bryan made a few complimentary remarks about him and as the train pulled out another cheer went up for him. Many tried to shake hands with him but well for the safety of life and limb the train left in a hurry.

The A B C and X Y Z of ADVERTISING

A SERIES OF TEN TALKS ON ADVERTISING written by Seymour, Eaton of Philadelphia No. 5

Never spring a big newspaper advertisement upon the public unexpectedly.

Make it an invariable rule to lead up by two or three nicely graded steps to the important announcement to be made. People take a certain pleasure out of anticipation. They enjoy their dinner all the more if they have been anxiously waiting to hear the bell. But if you open up your morning newspaper and find blazed forth in big headlines the advertisement of something startlingly new you are stunned rather than interested. If, however, for two or three days you have been looking for this announcement and each day getting a little more curious about it, you get yourself keyed up in anticipation, and then if the announcement is even better than you had imagined you surrender in a body.

Don't pay the United States government two cents for carrying a letter or a circular worth less than two cents.

The average advertiser will shave off 15 cents a thousand on envelopes and a quarter of a cent a pound on paper and beat down the printer in price so that he is obliged to use a 30-cent ink and by various other economies get his material ready for \$6 a thousand. He will then pay the government \$20 for carrying his stinky, badly-printed, cheap-looking \$6 worth of stuff and pat himself on the back for being economical.

Don't waste gray matter on your competitor. No matter how entertainingly he lies, you go right on telling the plain, blunt kind of truth that mother-used-to-make.

Truth can be made far more entertaining than falsehood. Don't be afraid to call a spade a spade.

If the goods are shoddy advertise them as shoddy, give good shoddy measure, and charge shoddy prices. There are tens of thousands of people who prefer shoddy; prefer to eat it, to wear it, to be entertained by it.

If you have news to print about your store—some call it advertising—don't order twenty-three styles of type with whirling borders and a crazy, badly-engraved picture. The mummer on New Year's Day or the clown at Barnum's may look funny, but he couldn't make good on the road selling gold watches. The advertiser has an idea that the more fool things he drags into his copy the more entertaining it is. The clown has the very same idea.

The great thing in all advertising is not quantity of circulation, but quality of your copy printed in a newspaper the readers of which are able to buy your goods.

Seymour Eaton
