**CROWN POINTERS HAD A GREAT TIME.**  
But They Are Sore at Those Who Were Responsible for the Bismarck Fiasco.

The Crown Pointers who attended the Gary celebration on last Saturday are loud in their praises of the whole affair, with the exception of those who were at the Bismarck hall waiting with the crowd for Taft to address them. Who ran that republican meeting anyway? Some of them sat there for three hours to hold a seat of vantage so that they might be able to hear the republican nominee, and were bitterly disappointed in not getting a chance to even see Taft. Those who were lucky enough to fight their way into the immense crowd at the skating rink had a good chance of seeing the candidate for president and hearing a remarkably good speech, which explained quite a few of the issues that some have been at upon.

In dealing with the matter of injunctions Taft made his position plain on that subject, and his arguments showed that whatever course he took on handing down his decision, he was for or against labor or capital, was done in accordance with the law as it came to his hands, and not because he had any personal decision to render. Taft, certainly made a great impression on those who were fortunate to hear him. As was evidenced by the cheers and applause that greeted his remarks, and the demonstration given him on Saturday night surely shows that everything is pointing to his being able to control nearly as large a majority in the coming election as Roosevelt did in 1904. Crown Pointers as a whole are well pleased with the Gary celebration, and with the exception of the few who were unable to hear Taft speak, they report it as one of the most successful events of the present campaign.

### Notes.

Albert J. Beveridge, Indiana's gifted son, made a hit with the audience in his concluding speech, and his part of likening Bryan to an inexperienced man asking the management of a business that had been ably managed for eight years, stating that his only qualifications for the job were that he had several theories that he would like to try on the unsuspecting business man, was received with rounds of applause by those present.

Crown Point sent quite a delegation, many going in automobiles and carriages. The three hundred and thirty-five delegates that had calculated to go from attending, but as it was Center township was well represented.

"Taft an' d' republicana" was heard on all sides and the foreigners entered into the spirit of the evening with a zest which shows how their votes will be cast on Nov. 3.

Ben. Hayes has the honor of having the best decorated automobile in the parade, and many of the onlookers took Henry Junker for Taft, probably on account of his size.

Wearing apparel got its customary burning and singeing by the red fire and rockets shot off while the parade was in progress and quite a few overcoats were badly damaged.

Gary's wonderful growth proved to be the topic of the evening, and to those who have not visited the town recently the improvements were doubly marked.

Gary looked anything like a dead town in spite of the fact that most of its saloons are out business and the manufactories have not commenced as yet.

Three great demonstrations in Lake county's principal cities with unprecedented crowds and enthusiasm centered in the celebration.

### What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alternative or blood-purifier, and tonic or invigorant and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal diseases of these organs. Even in the chronic or neglected stages of these ailments it is often successful in effecting cures.

"The Favorite Prescription" is advised for the cure of one class of diseases—those resulting from weakness, irregularities and impurities incident to women only. It is a powerful yet gently acting invigorant tonic and nerve. For weak women, over-worked women—no matter what has caused the breakdown, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulae of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines. The words of praise bestowed on the several ingredients entering into Dr. Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pills, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

## NEWS OF THE COUNTY SEAT

tainly tells of the success that awaits the republicans at the polls on Nov. 3. Predictions that the national, state and the entire republican ticket will be elected are being freely made.

### Local Boys Defeated.

Again the Crown Point high school team went down to defeat at the hands of the Valparaiso eleven at the local grounds on Court street, Saturday afternoon. This makes the fourth successive defeat for the Crown Point high school and the rooters of the team are getting discouraged. Inability of Crown Point to gain ground at crucial moments was responsible for their defeat of Saturday. At one time they being within ten feet of Valparaiso's goal when they lost the ball on downs after losing on end runs when they had made steady gains throughout the line. Two or three of the regular players were unable to play on account of percentages in their studies.

### Entertainers Party of Friends.

### Breaks His Collar Bone.

While driving on a wagon yesterday Matt Houk, a farmer, well known over Lake county, fell from the moving vehicle and broke his collar-bone. Mr. Houk is nearly 72 years of age, which fact makes the accident quite serious. Dr. Houk was called to set the bones, and at present writing the aged farmer is doing nicely.

A flat encounter between two of our citizens on Saturday caused quite a little excitement around town. It is said that the affair resulted from a little fracas that happened about twenty years ago between the parties concerned, and that it had been entirely forgotten until it was reheated on Saturday.

Many of Crown Point's Bryanites are arranging to go to Gary on next Saturday to hear him speak at that place. The Gary contingent are making a great effort to outdo the recent republican celebration, and as these reports of plenty of money being dumped into Lake county recently for democratic uses their efforts will meet with some success.

Why the term "great Commoner" should be applied to Bryan is a fact that is interesting to a good many republicans at present. To an outsider not knowing the facts they would suppose that Bryan started in from the lowest walks of life, and would not look at any one that drew more than \$12.50 per, while the facts of the case are that he lives like a prince, has his special trains, and travels around like one of the greatest aristocrats. The "Commoner" is used mostly to get the vote of those who do not take the above facts into consideration.

Many Crown Point automobile parties took in the Taft-Beveridge celebration at Gary on Saturday night.

The usual number of automobiles failed to make an appearance on Crown Point streets yesterday and their absence was noticed for the first time this season. The cold, threatening weather was probably the cause of their absence.
