## HEARD BY RUBE.

Two minutes after the hundreds of Chicago Journals were handed out last night to the foreigners they were lying in the mud of Gary streets.

If the Gary democrats can't get a good look at the Peerless Leader they will be never satisfied with a peep.

Gary herewith becomes one of the most important centers of the campaign.

City Father Sears was present at the town board meeting yesterday.

Umbrellas and raincoats were brought into general use yesterday, and the heavens did not at all feel bad.

Officer Gus Newman remained in Gary all day yesterday. So did K. Benjamin Kilne.

Up to the time of going to press no woman in Gary has offered to kiss Mr. Bryan next Saturday night. Speak up louder, you know he only has fifteen minutes here.

That Tommy rot and clap traps in the Chicago Journal last night had as much effect and did as much good as a toothpick at a harvest dinner.

The only thing that is worrying the republicans of late is that Mr. Taft may run out of straw—for the vote.

Let the Chicago Journal cast its untimely statements abroad in Gary. Taft has been here and what he said remained in the minds of his hearers and the results will be known next Wednesday.

There will be no town board meeting next Tuesday. Even the town dads will take a day off and vote.

It seems that none of the candidates running for the various county offices think very much of the candidates on the other side.

The new city hall will match perfectly with Chief Martin's new uniform.

## CRAZE FOR TITLED HUSBANDS.

Cynical Bachelor Criticizes Aims of Average Rich American Mother.

"Not only an English earl, but an Italian prince and a German count proposed to my daughter while we were abroad, but—"

"That is the sort of thing," said a cynical bachelor, "that we hear on all sides from the average rich mother on her return from Europe. What does it denote? Why, hang it, it denotes that the average American mother feels actually ashamed nowadays if her daughter doesn't marry into a noble foreign family. To marry into the foreign nobility is the correct thing to do, and the girl who doesn't land a duke or a count or something feels ashamed, and her mother feels more deeply ashamed still."

"I don't want to boast, but, considering the quality of us American men, I think it's terrible that American heiresses only marry us as a last resort when they are ashamed of their failure to get a duke or marquis."

"If you think I'm exaggerating, listen to the shamed mothers of marriageable daughters who have returned from Europe without a title in tow. Like parrots they say nothing but:—"

"Yes, Prince Petti and Lord Lacand and Count Sago all proposed to Mamie, but—"

## EXPECT CAR SHORTAGE

Reports from Various Parts of Country Put Railroad on Guard.

Reports from various parts of the country indicate that the railroads are putting forth their utmost efforts to provide against the possible complication of a car shortage. Every available locomotive and every car that is capable of doing any service at all are being put in the best possible condition. On many roads the shops are working overtime and most roads have issued orders to their agents to use foreign cars for distant shipments wherever convenient. During the last few months it has been customary to return a large proportion of the foreign cars as empties.

It is also stated that another coming car improvement is in the use of pressed steel car wheels. A large car building company has been at work for the last month turning out sample wheels of this type that have been sent to the transportation departments of the important railroads. These have been put to the test and it is stated that they showed their superiority over the cast steel wheels in many ways.

Feminine Hand in Literature. The literature of all European countries reveals the feminine hand. Male writers are devoting themselves more and more to sport and industry. All modern books are effeminate in character.—Maenz, Vienna.

AGE NO B'R Everybody in Hammond is Eligible.

Old people stooped with suffering. Middle age, courageously fighting. Youth protesting impatiently. Children, unable to explain: All in misery from their kidneys. Only a little backache first. Comes when you catch a cold. Or when you strain the back. Many complications follow. Urinary disorders, diabetes, Bright's disease.

Doan's Kidney Pills cure backache. Cure every form of kidney ills.

Mrs. D. B. Hunt, of 265 Fayette street, Hammond, Ind., says: "Doan's Kidney Pills are a fine remedy and one that should be in every home. We have kept them in the house ever since their value was first demonstrated to us. My little girl was the first to use them. We gave them to her as her bladder and kidneys were so weak that she could not control the secretions, especially at night. She was greatly run down in health and became weak, puny, and nervous. Doan's Kidney Pills, procured at Hicknell & Co's drug store, stopped this trouble in a short time and she has since had no return of it. Other members of my family have used Doan's Kidney Pills after this occurrence for lame back and pains in the kidneys with equally good results. They have our highest endorsement."

For sale by all dealers—Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

ALL LAND IN HANDS OF FEW. New Yorkers Cannot Afford to Own Their Own Homes.

Fewer New Yorkers own their own homes than the residents of any other city in the world, says a writer in the National Magazine. The reason is a simple one: the land is so valuable that none but the very wealthy can afford its purchase. Of the 351,687 families living on Manhattan Island only 16,316 hold title to the houses they occupy—and if you will bring that little pad and pencil into play again you will learn that 94 out of every 100 families make monthly payments to a landlord. When these families move, as they are constantly doing, it seems only necessary to take the family photographs from off the mantel—so completely has their method of life been systematized. As for the landlords, they are mightier in wealth and tenants than any feudal lords of old—so forsooth the Astors, whose immense multitude of dwellings house a greater number of people than are contained in a city of the size of Hartford, Conn.; Seattle, Wash., or Nashville, Tenn.

## STEEL EARNINGS JUMP \$6,840,518

Report for Third Quarter Shows Gain Over First Part of Year.

## NET EARNINGS MUCH LARGER

Steel Trust Soon to Begin Erection of a Splendid Three Million Dollar Plant.

New York, Oct. 27.—Net earnings for the steel trust for the quarter ended Sept. 30 amounted to \$27,106,274, according to an official announcement made this afternoon after the close of the stock market. This compares with earnings of \$20,265,756 for the previous quarter, a gain of \$6,840,518, and \$18,239,065 for the first quarter of the year. For the same quarter last year the earnings were \$18,504,232.

Unfilled orders on the books of the company at the end of the third quarter amounted to 3,421,977 tons. This compares with 3,313,876 tons on June 30 and 3,765,343 tons on March 31. A year ago there were 6,425,008 tons on hand.

Out of the \$27,106,274 the trust appropriated \$5,763,897 for sinking fund and depreciation. After the payment of interest on all bonds and dividends at the rate of 7 per cent on the preferred and 1 per cent on the common, there was carried over \$11,152,023 to surplus.

These earnings bring the total of the trust for three-quarters of the year up to \$65,601,035. Directors say there is business enough in sight to insure net earnings of \$30,000,000 for the final quarter. This will give the trust net earnings for the year of only a little under \$100,000,000. Net earnings for the first three-quarters of last year were \$128,430,482, or a decrease this year of \$62,829,447.

After the election the steel trust will construct a cement plant to cost \$2,000,000. The insiders say there are orders on hand for many million dollars of business contingent on the election, and these contingent orders are not included in the tonnage published today.

## LIFT UP THE RECEIVER AND THEN LISTEN

Telephone Subscribers May Hear Returns on Election Night.

## WHOLE COUNTRY IS COVERED

Patrons Will Be Given an Unusual Treat, Possible Only Because of Perfect System.

Every subscriber to the Chicago Telephone company's service may, if he so elects, secure complete election returns on the night of November 3 without cost and without exertion other than taking up his receiver and listening to the operator's voice.

The announcement that the telephone company will supply its subscribers with these bulletins is in effect, an announcement that the Bell Telephone companies of the United States have combined in one mighty effort to advertise the value and efficiency of their long distance service.

Attempts to Solve Problem. For years the problem of accurate and prompt collection of election returns has puzzled newspapers and politicians. Dependent upon various message carriers for their information and without a complete organization to handle these various agencies, the problems of securing and compiling the news has baffled the best brains of the country. Even with city and state organizations working in harmony great difficulty has been found in transmitting these reports to other states and thus securing complete returns for the entire country.

This year the Bell Telephone companies, of which the Chicago Telephone company is a part, has taken up the burden and proposes a solution that will not only make accurate news but will also make the results available to every Bell telephone user at his home or office. Because of the immensity of the proposition and the necessity for such close attention to detail, newspapers as well as political organizations are eagerly awaiting the result. Success will mean that election news will probably be almost wholly transmitted by telephone in future.

Chicago a Clearing House. Chicago will be the great clearing house for the country. Long distance lines, reaching to all the large commercial centers will bring detailed information into the toll rooms of the Chicago Telephone company. With a corps of clerks assigned to handle reports from each state, this great mass of information will be compiled and tabulated and again dispatched to the various great cities. From here it will be distributed to every exchange whether it consists of only farm lines or is located in the lesser cities and villages.

Toll wires will be held open for this service and it is predicted that farmers in the rural districts will be enabled to secure returns from New York and San Francisco as readily and as quickly as from the state of Indiana or from their immediate election district.

Compiled Report Every Half Hour. Once every half hour every exchange in the Chicago company's territory will receive compiled reports. Subscribers may secure these by inquiry from central. Because of the great interest in the vote for president and governor on the republican and democratic tickets, and the liability to error if the company attempted to give reports for the minor candidates, only these four candidates will be named in the returns. However, where there is a congressional vote of national importance or of special interest in Illinois and Indiana the final results will be made known.

To provide for clubs and political organizations who desire continuous returns the company has arranged, under certain conditions, to supply this service providing the organization desiring same shall make known the fact to the local manager prior to the election.

REV. SIMON MIHALTAN EXPECTS ARRIVAL OF FAMILY. Family Arrived in New York Several Days Ago and Is Now on Way to Indiana Harbor.

Indiana Harbor, Ind., Oct. 28.—(Special)—Rev. Simeon Mihalitan of the Rumanian Catholic church in this city is today anxiously expecting the arrival of his wife and two children from Austria. After an absence of six months, Rev. Mihalitan decided that he would remain in America, and immediately sent sufficient money with which to bring his family to Indiana Harbor. They arrived in New York city on the ship America, several days ago, and safely passed the customs and immigration officials. Telegraphing to the local pastor, they were told that he would meet them in Indiana Harbor, and Rev. Mihalitan is patiently watching every incoming train from the great metropolis.

## UNION MEN QUESTION GOMPERS.

Mr. Gompers was called upon on a card printed in the Logansport Journal, to answer the following pertinent and pointed questions:

The Hon. Samuel Gompers: Dear Sir—As members in good standing of the Logansport Trades and Labor Assembly, hereby ask you two questions which we ask you to answer in your speech here today:

You say you are supporting the democratic ticket because of the injunction plank in it. The injunction plank in the democratic platform this year is just the same word for word, as it was in 1896, in 1898 and 1904. Yet you are alleged to have supported the republican ticket in 1896 and in 1900 and in 1904.

Why didn't you support the democratic ticket then? Why are you supporting it now, since it is just the same as when you opposed it?

Respectfully, CAL CLUGSTON, Electrical Workers' Union No. 209, Logansport Tailors' Union, Logansport Journal.
