

FROM NEIGHBORING TOWN AND CITY

NEWS OF THE COUNTY SEAT

CROWN POINT DEMOCRAT (?) GETS BADLY BALLED UP.

Ludicrous Yarn Gets People Excited at County Seat.

Slander and vilification untold have appeared repeatedly in the columns of a Hammond democratic sheet, but it remained for the fertile brain of a "Crown Point democrat" (?) to hatch up a yarn, the whole substance of which should be termed in a shorter word than falsehood. The "Crown Point democrat" is shouldering a fearful pack of lies in the article, and if he had only the temerity to come out in the open and make the assertions that appeared in the article there are plenty of good fair-minded democrats and republicans in Crown Point that would ride him out of either party, and the paper in question is certainly hard up for campaign dope to resort to the printing of such an article. The article, the gist of which is ludicrous in the extreme, and is not worth reading, but for the attack upon two of Crown Point respectable professional men. Can any democrat in Crown Point be ignorant enough not to know that Highway is no longer superintendent of Crown Point schools? Don't they know that he is county superintendent and has been for months?

The democrats know that Watson may come on a Saturday, consequently there was no school on that day. How could anyone dismiss school when there wasn't any to dismiss. Is there any truth in the above statements fair-minded democrats and republicans? It reads in part as follows, and is enough to show how correct that democrat (?) is in his statements, and just how much value can be placed on the yellow sheet that will print such stuff (?) :

"Crown Point democrats are indignant, and in fact some republicans of the county seat who are not 'hide-bound' take equally as strong exception to the narrow-minded partisanship of two educators who are drawing salaries from all the people and whose duty is to all and not to one political party. Professor Curtis and Highway have unequalled and certainly lost the respect and esteem of a great share of the democrats who had heretofore looked upon them as educators, not political ward heelers, with no respect for those who happen to differ from them in politics, as they are now seem to be."

"Superintendent Curtis manifested contempt for democrats both on Watson and Marshall days in Crown Point, and in such a way that it will not be forgotten in a hurry."

"And Highway, superintendent of Crown Point schools. He had the schools dismissed on Watson day. But when Marshall day came he refused to dismiss the schools or give the pupils a chance to see the democratic candidate for governor. As if this were not enough to show how small caliber the man is, he gave out on the occasion of Beveridge's visit he gave out that any pupil who came late would not be marked."

"Think of a superintendent of public schools thus using his position to work even the pupils for the republican party!"

Their Continued Misfortunes.

Reports came from Nazareth, Tex., where the Teinen family recently moved, stating that another daughter has died recently with Texas fever, the same disease that was responsible for the death of the eldest son, George, about two weeks ago. Mrs. Mary Leinen, the mother, is also reported as dangerously ill with the same disease, and it seems as if the ill-fated family have struck an unlucky proposition in moving to the Lone Star state.

"I suffered intensely from Locomotor Ataxia, and Dr. Miles' Anti-Pain Pills gave me great relief. I have taken them for a long time, and some people say they are not good for me. Well, maybe not, but they relieve my pain and I will take them as long as they continue to do so. Anti-Pain and Nerve and Liver Pills keep me up and I assure you I am thankful for that."

AN OPEN LETTER

To the editor of the Times, and I want the people of Hammond to know that I write the following voluntarily.—Harry L. Goodell.

I have suffered for the last five years and have had different doctors, but have had no relief until I bought a 50-cent box of M. O. M. from our drug store (R. W. Knowlton's) here a short time ago.

The first box did me so much good that I immediately purchased another one, and now I feel better than I have at any time in the past five years. Am able to eat anything and everything, and to get a good night's sleep afterwards.

Was so bad at one time that all I was able to eat for over a month was a raw egg in a half a glass of milk, two or three times a day.

I would earnestly advise anyone suffering as I was from dyspepsia, to give this remedy a fair trial. I remain, gratefully yours, Harry L. Goodell, No. 9 1/2 River street, Ashabula, Ohio.
