

FROM NEIGHBORING TOWN AND CITY

NEWS OF THE COUNTY SEAT

Will Give a Bazaar.

The patrons of the public library are promised a large addition of valuable books, if the efforts of the book committee to hold a successful bazaar on Dec. 11, meet with the necessary encouragement.

Arrangements are being made and prompt responses are being given by those asked to aid.

Each family that draws books from the library will be asked to donate something for the bazaar.

A new feature will be a produce table, and contributions of vegetables, eggs, chickens, butter, buttermilk to be served as a drink, fruit, jelly and pickles will be acceptable.

There will be a table containing articles of household utility; bags, fancy or otherwise; aprons, plain and fancy; candies and sweets, fancywork, things for the baby, and a table of articles made and furnished by a club of little girls.

Not least of the attractions will be a "grab bag," and everyone can be assured of receiving full value. Patrons of the library will be personally solicited for contributions in the near future.

Woman's Study Club.

The Woman's Study club met yesterday afternoon in the assembly room of the library building. At which time a report was given by the book committee of the library showing the great need of new books and the lack of funds to purchase the same, and outlining the plan for a bazaar to help supply the deficit. The committee asked and received the support of the Study club in this venture, and the bazaar will be given on Dec. 11, and it is hoped that all patrons of the library will respond to the call for assistance in this matter, which is soon to be made upon them. A most delightful lesson on "Oliver Cromwell" was given by Mrs. Fred Wheeler, followed by an extremely interesting paper on "Household Chemistry" by Mrs. Ernest L. Shortridge. After the critics report the club was adjourned to meet again on next Tuesday.

Autos Come to Grief.

Peter Hein's and Horace Marble's respective automobiles came to grief yesterday afternoon by colliding with each other in front of the Commercial hotel. Marble had driven up from Wheatfield in order to cast his vote and Hein was engaged in carrying democrats to the polls in his machine when the two autos turned the corner at Swartz's drug store and collided. Both machines were badly damaged, one front wheel being torn off Hein's runabout, while the entire front of the Marble machine was broken in. The lights and rear spring were badly broken. Malie Clark was driving the Marble automobile at the time of the accident.

Voters Were All Good-Natured.

Not a fight or a quarrel took place at any of the polling places in Crown Point yesterday and, although the fight was bitter and fiercely contested, the voters all seemed to be good-natured about it, probably owing to the fact that both sides were so confident of victory. Center township polled the largest vote in its history, over 928 votes being cast in the township.

High School Notes.

The regular debate of the "O. G. Debating society" was held in the English room Tuesday. After all business had been transacted the class listened to a debate on the question: "Resolved, That Taft would make a better president than Bryan would." The affirmative, Harry Booth, Simon Kooy; alternate, William Atwood. Negative,

The Blood is The Life.

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It purifies and purifies the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, an eczema, aetere, or salt-rheum, hives and other manifestations of impure blood.

© © © © ©

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist doesn't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 603 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

Recitation—Alma Senzick, Elsie Reickardt, Louisa Lohse.

Piano solo—Anna Hopp, Mary Peterk.

Ample Fullgraf, Freda Barganz.

Recitation—Esther McLaughlin.

LABOR NEWS

After being out on strike for some weeks, the Elton, north of England ironstone miners have resumed work on the terms that were offered to them before they ceased work. The whole matter is to be submitted to arbitration.

A comparison of workers in woolen mills in Italy, France, England and the United States shows that wage earners of the United States get nearly three times the pay of Italian workers, double that of the French, and 70 per cent more than the English.

In August 1,364 unions, with an aggregate membership of 37,800, had 9.6 per cent without employment. This is the heaviest ration reported in any month for years past. In July the percentage of idleness was 6.4 per cent, and in August, 1907, it was 5.8 per cent.

A remarkable feature of the recent Wyoming coal miners' strike was that Japanese and Chinese miners and laborers made common cause with the Caucasian fellow workers. It is probably the first time on record where the Asiatics and whites stood together in a strike.

About 85 per cent of the employees of the cotton mills in Japan are women and girls, and they receive on an average 13½ cents a day for eleven hours work. The men average double what the women get. While there are no labor unions in this industry, there is a chance that before very long unions will be formed as they now exist in other branches of industry.

During the three months from June 1 to Sept. 1 the bureau of mediation and arbitration of New York received copies of ninety-four formal trade agreements between organized wage workers and employers, either individually or in association, entered into since the first of last January, and not hereto.
