

A DAY IN GARY LAND

COULDN'T TUMBLE WHEN HE WAS FOR BIG BILL TAFT.

Body Guard of President-Elect Tells of an Amusing Incident Which Occurred in Gary.

In relating his experience of the trip which he took with William Howard Taft while he was campaigning through the west one of Mr. Taft's body guard related the following incident which happened at Gary and which many who attended the big Taft meeting at the Gary skating rink will remember. The story is as follows:

"In a skating rink in an Indiana town at a meeting of the beams close to the ceiling and fell asleep waiting for Mr. Taft's arrival. When Mr. Taft stepped upon the platform the man sleeping on the beam awoke with a start, away forward and only by seizing the beam accidentally did he save himself from falling upon the heads of the people in the audience.

"That was a narrow shave you had!" shouted a man from the audience to the man on the beam.

"I couldn't tumble, for I'm with Taft," retorted the young fellow, and the crowd cheered."

Lady Faints While in Casino and Physician is Called.

Considerable excitement was caused in the Casino at Gary last evening when Mrs. Cook, the wife of one of the steel company employees, fainted while she was skating and fell to the floor.

The skating was stopped as quickly as possible and the unconscious woman was taken out of the hall. It was learned later that she is subject to fainting spells and that she happened to be a victim of one of those attacks while she was skating.

The sick woman was taken to a Gary doctor where she was restored to consciousness.

CHIEF MARTIN MAKES A GREAT RECORD.

Gary Police Head Does Thing With His Young Cannon Yesterday.

Chief of Police Martin yesterday set a record in the monthly police shoot which will not soon be overcome by anybody else. He retained the gold medal for making 75 out of a possible hundred.

Officer Gus Newman, however, was a close second, scoring only two points less than Martin. He is entitled to the silver medal, which was held by Officer Juric during the past month.

Your Neighbors Can Tell You

No doubt, if you yourself don't know, of many marvelous cures of Stomach, Liver, Blood and Skin affections that have been made by the use of Dr. Pierce's Golden Medical Discovery, for it has a most successful record of over 40 years.

These CURES embrace also many bad cases of Weak Lungs, lingering Coughs, Bronchial, Throat and Lung affections, some of which, no doubt, would have run into Consumption, had they been neglected or badly treated. We don't mean to say that the "Golden Medical Discovery" will cure Consumption when fully seated, but it will strengthen weak lungs, improve digestion, and make pure, rich, red blood thereby overcoming and casting out disease-producing bacteria and giving robust, vigorous health.

RAILROAD OFFICIAL'S OPTIMISM

W. C. Brown, of New York Central and Indiana Harbor Lines Looks For the Greatest Period of Railroad Work Ever Known.

Among the men who did a great deal for the election of W. H. Taft was W. C. Brown, first vice president of the New York Central lines, who is well known at Chicago where he has often been.

Mr. Brown says now: "The country is entering upon a period of even greater prosperity than we have yet known. The morning after election I sent more than 100 telegrams releasing orders for supplies and equipment for the New York Central lines alone, aggregating in cost \$1,000,000. I placed these orders some time ago and made each contingent on the election of Mr. Taft, because our company believed that should the election go against Taft the money and commercial markets of the country would be too seriously disturbed to warrant us entering upon anything so extensive as to say positively that other railroads of this country have either already done so or will within a few days release orders like these of ours that will aggregate \$240,000,000 for equipment and for material that will go into railroad building, extensions and improvements of existing stock."

"I can tell you also that enough orders have been placed with the gigantic steel industries of this country to keep them working for a whole year at their maximum, if they should not receive another order. All this means just one thing, namely, that the great period of railroad extension work we ever yet had is upon us. In every department of commerce and business the country is sure to progress over and beyond the point it had attained in the fall of 1907, when temporary lack of confidence and the approach of the national campaign conspired to check business and we are now entering upon a period of even greater prosperity and business activity than we have ever known before."

TO LEAVE THE HARBOR

Charles H. Martin and Family Will Move to California.

(Special to THE TIMES.)

Indiana Harbor, Ind., Nov. 7.—Residents of Indiana Harbor will be surprised to learn of the intention of Charles H. Martin, the genial Michigan avenue baker, to move his family to California in the near future. The building now used for bakery purposes has been leased to Messrs. Hoffman and Klesling, of this city, who will use the rear portion of the structure for bakery purposes. Here the ovens will be maintained, and the products sold at a new store to be opened in the Coliseum rink building.

The restaurant section of the Martin building will be transformed into a thoroughly modern ice cream parlor, to be operated by the gentlemen now conducting the parlor in the Cline opera house building. They will continue the management of both places as long as the public of Indiana Harbor patronizes their efforts sufficient to warrant such an undertaking.

The change in management will be effected about the 15th of this month and Mr. Martin expects to move his family to the far western state within the following three weeks. Mr. Martin has been one of the progressive business men who have assisted in the building of the Harbor city, and his departure to the new field will be noted with regret by his many friends in this locality. Mrs. Martin and her daughter, Miss Emily, have been prominent in the social affairs of the city and will be sadly missed in the functions that necessitate the presence of prompt and willing workers such as they.

LABOR NEWS

Metal polishers, buffers, platers and brass and silver workers' unions of Boston have already begun their preparations for the international convention of their organization, which will be held there next August.

It is the plan of the St. Louis (Mo.) labor unions to build a magnificent temple of labor, in which all the labor organizations of that city will have headquarters and which will contain a hall so large that it will accommodate conventions.

Steps are being taken by members of the Minneapolis (Minn.) Horse-shoers' union for the establishment of a class to study the make-up of a horse's foot and its best treatment in shoeing, the class to run through the winter. A competent veterinarian will be employed for the lectures.

The feeling in England is that the cotton mill strike will not last long, for the cardroom workers are expected soon to take a second ballot and agree to the 5 per cent reduction in wages, which already has been accepted by the spinners belonging to the general organization.

The Boston Sheet Metal Workers' union and the respective employers have renewed for another year the \$2.60-eight-hour agreement. The only changes made were those definitely providing for various job and shop matters and rules that had been in dispute, and which were insisted upon by the union.

District No. 15, of the International Association of Machinists, which takes in New York and vicinity, Jersey City and Newark, has decided to ask the convention of the American Federation of Labor when it meets in Denver on Nov. 9 to consider applying for permission to put an agent representing the American Federation of Labor on Ellis Island to look after the interests of the unions and to see that the contract labor laws are not evaded.

Swansea carpenters and joiners have made a demand for an advance in wages of a penny an hour. As conciliation boards now rule the rates of wages in the British building trade, the matter will doubtless be settled by conciliation or arbitration without the extremity of a strike.

Daily Thought.
Never bear more than one trouble at a time. Some people bear three kinds—all they ever had, all they have now, and all they expect to have.

SENTIMENT IS MORE HOPEFUL AS TO COMMERCIAL FUTURE.

Dun's Weekly Review of Trade Reports That Orders Are Being Placed For Remote Delivery.

New York, Nov. 6.—R. G. Dun & Co.'s weekly review of trade tomorrow will say:

"Seasonable weather has stimulated retail trade, while manufacturing plants are more active and numerous new undertakings have been started. Sentiment is more hopeful regarding the commercial future, orders being placed for remote delivery, which is a noteworthy improvement over the conservative attitude formerly conspicuous.

"Preparations for holiday trade are on a liberal scale, and there is a feeling of confidence that renders holders reluctant to do business when concessions are sought.

"All the leading industries have increased output, some having already received large contracts, while others operate more freely in anticipation of orders to come. Commercial credits are extended more freely, and there is

an improvement in mercantile collections."

CHICAGO AFTER SOUTHERN TRADE.

Chicago, Ill., Nov. 7.—A delegation representing the Chicago Association of Commerce has arranged to leave this city tomorrow for a tour of the southern states. The object is to promote closer trade relations between Chicago and the south. The party will travel by special train and will visit numerous points in Kentucky, Tennessee, Alabama, Louisiana and Arkansas.

GARDNER TO MEET CLABBY.

New Orleans, La., Nov. 7.—The West Side club of this city has arranged a promising card for its initial boxing show this evening. The wind-up will bring together Jimmy Gardner, the Lowell welterweight, and Jimmy Clabby, of Milwaukee, for a fifteen-round contest. The semi-final will be furnished by Jack Dougherty and "Blink" McCloskey.
