Delicate Instruments.

The amount of work done by the wink of an eye equals 100,000,000,000 of the winks marked on the scale of a delicate instrument; but even this performance is surpassed by the "coherers" of Branley of Paris, by which the Hertz waves of wireless telegraphy are caught in their pulsings through space.

BEGINNING THE CAMPAIGN FOR MAYOR QUITE EARLY

Now that J. Glenn Harris has announced himself for mayor of Gary, the local cigar man has gone him one better. In a few days the loyal supporters of Mr. Harris will be wearing a campaign button around with his picture and name on it. The buttons are now being made by Sax and Savage. That will be the second official move in the campaign which has already begun for an election which will not likely be held for nearly a year. Politicians in Gary think there is nothing like starting in early.

MARY FRIGHTENS FOLK

Had Been at Theater When Her Parents Had Fatal Forebodings.

Considerable excitement and worry was caused yesterday afternoon among the friends and neighbors of the Goldbergs, who live at Washington street and Twenty-third avenue, in Gary.

Mary Goldberg, who attends school, failed to come home in the evening at the regular hour, and when considerable time had passed the mother became uneasy, and soon had the whole neighborhood wrought up and searching for the girl.

No other explanation offered itself but that the child had been kidnapped and was in the hands of people who were mistreating her.

About 10 o'clock in the evening the child returned home, happy and gay, still laughing about the good time that she had had after school. In the evening she and her friends went to the Gaiety theater, where they spent the evening.

From what the mother told Mary last evening at 10:15, it can be safely taken that when Mary goes on a theater spree again she will let her mother in on the secret.

SUCCE MYSTERY AT LAKE

Cedar Lake Man Acts in Queer Manner, and His Cap Is Found in Empty Boat Near Armour Ice House.

(Special to THE TIMES.)

Crown Point, Ind., Nov. 10.—Cedar Lake and its vicinity is raking its brains and pondering over the mysterious disappearance of one of its citizens and farmers. Yesterday afternoon Charles Bubolz, a farmer, living near Al Taylor's place, called at John Stillson's and requested that they rent him a boat. Stillson did not have any boats at the time and so informed Bubolz.

Is Not Seen Since.

That was the last seen of him. Nothing was thought of his disappearance until last evening when his family reported that he had not returned home at the usual time, and a search was instituted for the missing man. This morning searchers followed his tracks to the lake shore, where the appearance of the sand shows that Bubolz boarded a boat and rowed across the lake. Near the Armour ice house a boat was found, containing a cap of Bubolz's and a bottle containing whisky. No further trace of the missing man has been found and it is feared that he has committed suicide.

Was Seen With Wire.

Inhabitants around the lake claim that Bubolz was seen carrying a piece of barbed wire about six feet in length. It is thought that he may probably have used this to weight himself down if his intentions were to commit suicide.

Meanwhile a search is being continued for the missing man and the lake will probably be dragged in an effort to locate him. Bubolz was about 55 years of age and was married, and in prosperous circumstances.

BURNS DITCH IS SURE GO NOW.

(Continued from Page One.)

times. It is the greatest ditch project that has ever been undertaken in northern Indiana and will do more to add to taxable values than anything that has yet taken place, excepting only the building of Gary.

The commission is to meet on Nov. 31 for the purpose of making a report on the best method to be pursued in the digging of this great drainage canal. The assessment will also be fixed, so that each landowner will know just what he is to be assessed for the improvement.

Much Speculation.

There is a great deal of speculation as to the probable effect that the diversion of all of the water from such a large drainage area into Lake Michigan will have on the river between Black Oak and the forks, where it empties into the Grand Calumet river.

The people of Gary, especially pleased that the project should fail to be blocked by the few landowners who opposed it. It means that the territory south of Gary, which is now worse than useless, will become one of the Garden spots of the region.

The drainage of the whole territory in the vicinity of Gary will improve the sanitary conditions there and will make the whole neighborhood more habitable.

Sentimentally, it is regretted that what was at one time the greatest hunting ground in the vicinity of Chicago is to be drained the year around, and that corn fields will replace the rice fields where the wild ducks have been feeding in years past. But the fact is realized that it would have to come sooner or later, and the hunters accept the inevitable with good grace.

Delphi, Ind., Nov. 9.—"Wheelbarrow" section were paid in this case last Saturday afternoon in the presence of a large crowd. The first one was between Arthur Robinson, weight 240, and F. E. Holland, weight 120, two members of the Delphi band. Robinson the winner, bet on Taft, while Holland bet on Bryan, and wheeled Robinson about the public square. Frank Browne, county recorder, bet with Harry Gibson that Congressman Landis would carry this district by 1,000. Landis was defeated and Browne wheeled Gibson around the square, headed by the band. The third bet was between J. H. Orr, of the firm of Lytle & Orr Co., and Charley Sharpe, and was the same as the first one, Orr betting on Bryan.

Denver, Nov. 9.—Though there is much talk of plans afoot to oust Samuel Gompers from the presidency of the American Federation of Labor during the sessions of the twenty-eighth annual convention, which began here today, it is principally gossip. Leaders of the federation declare their ignorance of any organized opposition to President Gompers. Mr. Gompers himself waves the subject aside by saying that the federation will select the man best equipped to lead it to further success, and declares that, should he be retired, he will still remain a worker in the ranks.

He admits there is opposition, but asserts that it is confined to localities only. The cities seeking the next convention are St. Louis, Toronto, Detroit, Mobile, Tampa and Washington.

PLAN I. O. O. F. PARADE FOR DEDICATION

Indiana Odd Fellows Will Consecrate New Home on November 18.

STRUCTURE COSTS \$550,000

Many Marchers Are Expected in Big Indianapolis Fraternal Celebration.

An immense torchlight parade was planned as a feature of the celebration attending the formal dedication of the I. O. O. F. building at a meeting in Indianapolis when the committee having the matter in charge discussed the details of the ceremonies.

W. H. Leedy, grand secretary, who has acted as the general chairman, in making the arrangements stated that efforts were being made which would make the dedication on Wednesday, Nov. 18, the most important event in the history of the state lodge. Representatives from all parts of Indiana will be attending the ceremonies that will be held in connection with the sixty-first annual communication of the Grand Encampment of the I. O. O. F. in Indianapolis and the seventy-third annual communication of the Grand Lodge I. O. O. F. in Indiana. The grand encampment will be held Tuesday, Nov. 17, while the Grand Lodge will be in session Wednesday and Thursday, Nov. 18 and 19.

The building, which cost \$550,000 and which is the finest I. O. O. F. lodge in the world, will be formally dedicated at 3:30 o'clock Wednesday afternoon. A special dedicatory staff, including some of the grand officers, will have charge. The exercises will be held in the lodge room on the thirteenth floor, which will be profusely decorated for the occasion.

On Tuesday evening a parade which will include 5,000 men will follow a downtown line of march. Much fire will be used and a display of fireworks from the top of the I. O. O. F. building will be a feature of the demonstration.

Expect Many Marchers.

Floates will have a place in the parade and representatives from the various lodges over the state will march. Delegations from the cities are expected to be large.

Following the parade, which will start at 7:30 o'clock, the grand sire, the Hon. L. Nolan of Nashville, Tenn., who is the highest officer in the lodge, will deliver an address on "Odd Fellowship" at Tomlinson hall. The public will be invited to attend that meeting, as well as the dedicatory exercises of the afternoon.

To complete the arrangements for the ceremonies the committee will hold another meeting next Saturday night. The members are very much encouraged over the prospects and believe that the indications point to a very successful event.

The annual communication of the Grand Lodge will continue on Thursday. Officers for the ensuing year will be named at the meetings. The present Grand Lodge officers who will attend the sessions are E. E. Hastings, Washington, grand master; H. M. Kean, Jasper, deputy grand master; A. L. Miller, Terre Haute, grand warden; W. H. Leedy, Indianapolis, grand treasurer; the Rev. Dr. H. C. Clippinger, Indianapolis, grand chaplain; H. E. Pulling, Boonville, grand marshal; Lafayette Gilley, Washington, grand conductor; James Rushworth, Aurora, grand herald; J. S. Smith, Alamo, assistant grand marshal; G. R. Ogden, Milford, grand guardian, and Edwin Farrer, Rushville, grand representative and grand instructor.

Sparrow as a Songster.

It is a curious fact that, though the house-sparrow does not naturally sing, yet hand-reared house-sparrows have been made, by association with bullfinches, to acquire the song of that bird—a truly astonishing instance of hidden or latent capacity.

The Reform of Society.

It is a mistake to imagine that human society can be reformed by mere organization; for the church at least, treatment in the mass can never take the place of treatment of the individual. You must have that personal effort, the one life bending down to lift up the other.—Exchange.

Limit to Power of Will.

In the moral world there is nothing impossible if we bring a thorough will to do it. Man can do everything with himself, but he must not attempt to do too much with others.—Humboldt.

PENNSYLVANIA SYSTEM WILL ELECTRIFY ROAD.

Work To Be Pushed Rapidly New York Division.

New York, Nov. 9.—An official of the Pennsylvania company stated today that the entire New York division from Jersey City and Manhattan to Philadelphia will be electrified. Electric locomotives capable of a speed of 120 miles an hour are now now building for the Pennsylvania in the Westinghouse plant in Pittsburg. These engines will haul trains from Manhattan and Jersey City to Philadelphia in about an hour. The Central of New Jersey and the Lackawanna system also are considering plans for the future electrification of their lines.

ORDER NEW SEWAGE PLANT

Experimental Station Will Cost \$3,000 and Be in Operation Within Ninety Days.

Acting on the advice of the Calumet sewage commission recently appointed by President McCormick the engineering committee of the drainage board yesterday ordered the erection of an experimental sewage purification plant at Ninety-second street and the Calumet river to cost \$3,000. The plant will have a capacity of 700,000 gallons a day and will be completed and in operation within ninety days.

The station will be operated by one man. It consists of a large settling tank which removes the solids from the sewage and the fluid then flows into another tank by gravity where the liquid is forced upward through a layer of crushed stone to receptacles and is then turned into the river. It is said the method removes about 60 per cent of the sewage from the water.

Hemenway Says Victory Tuesday Was Impossible.

Senator Hemenway, who is in Indianapolis, made the following expression yesterday in regard to the election:

"Conditions were such in this state that it was impossible for us to win. This was demonstrated by the fact that the congressional and local tickets were defeated in eleven congressional districts.

"I am very grateful to the people for their confidence in the past. This is the first time in a long public career that I have met defeat. I am much gratified by the fact that my own county, although democratic, elected a republican member of the legislature.

"I find some satisfaction in the fact that after eight years of service in the house I went to the head of its great committee, and that during my short service in the senate I have secured assignments to important committee and, in all probability, would have become chairman of the appropriations committee of the senate if I had been returned. Of course, I feel thankful for the recognition I have received in public life, and I can truthfully say I have made every effort to be of benefit to the people I represented.

"On March 4, next I shall go out of office with nothing but gratitude for the honors conferred upon me, and with no ill will toward any of the people of my state."
