

TO HAVE RIGHTS OF A PARISH

Episcopalian Delegation at Goshen Sent from Gary Secures Unprecedented Privilege from Michigan City Diocese.

GARY EPISCOPALIANS REJOICE OVER NEWS

For First Time in History of the Episcopal Church in Indiana, A Year Old Church Is Admitted as a Parish With All the Privileges of an Older House of Worship.

A delegation consisting of Rev. Lee Appling, Captain H. S. Nettles, Dr. J. E. Neffert, Attorney H. F. McCracken and Attorney Moultrie went to Goshen, as the representatives of the Gary Episcopal mission, to appear before the diocese of Michigan City and endeavor to have the Gary mission converted into a parish.

That they were successful is shown by the fact that for the first time in the history of the Episcopal church in Indiana a church a year old was admitted as a parish.

What It Requires.

Usually, after the organization of a mission in a new field, it requires five years for the church to secure the proper membership and the proper financial standing before it is admitted as a parish.

In the case of Gary, however, conditions are so unusual, as a result of the rapid building of the city, that the diocese made an exception and the Gary church was admitted as a parish, with all the rights of a parish and will be governed directly by the Bishop instead of by an officer of the diocese.

Great Concession Made.

Never before in the history of the church has the diocese made such a concession as was made to the delegates from the Gary church. The church will now have a regularly ordained rector, a vestry and the other things that are permitted in a parish.

There will be a ratification meeting held in the Gary Episcopal church in the near future, and other arrangements made for the organization of the church under the new order of things.

The delegates from Gary did not stay during the entire meeting of the diocese, but went back to Gary and conveyed the good news to the other members of the congregation.

BREWERS WILL FIGHT KERN

(Continued from Page One.)

Fleming sought the chairmanship of the democratic state committee and was opposed by Kern, who thought that Fleming's corporation connections and record in the state senate prevented him from being a good chairman. Taggart and other friends of Kern lined up for Fleming in the old chairmanship fight, but Kern not only held aloof but fought Fleming aggressively.

Story Going the Rounds.

The story now going the rounds is that Fleming and Crawford Fairbanks, president of the Terre Haute Brewing company, and other brewers will line up for one candidate or another and in this way keep votes from Kern and then in the end swing the combined vote of all to Lamb, who is regarded as the choice first, last and all the time of the brewers. Lamb is preferred even to Taggart, it is said, and the former national chairman will in the end, it is predicted, be found in the camp of Lamb supporters, although there is a possibility that his close friendship for Kern may induce Taggart not to join the coalition.

Race Is Sprited Now.

The race is sprited even now, and will be hot before many days have passed. Taggart is still retaining a mysterious silence in regard to his intentions. Kern visited Taggart, and asked for support, but got very little satisfaction, it is understood. Taggart, explaining to him, it is said, that he had not positively decided yet not to get into the race himself.

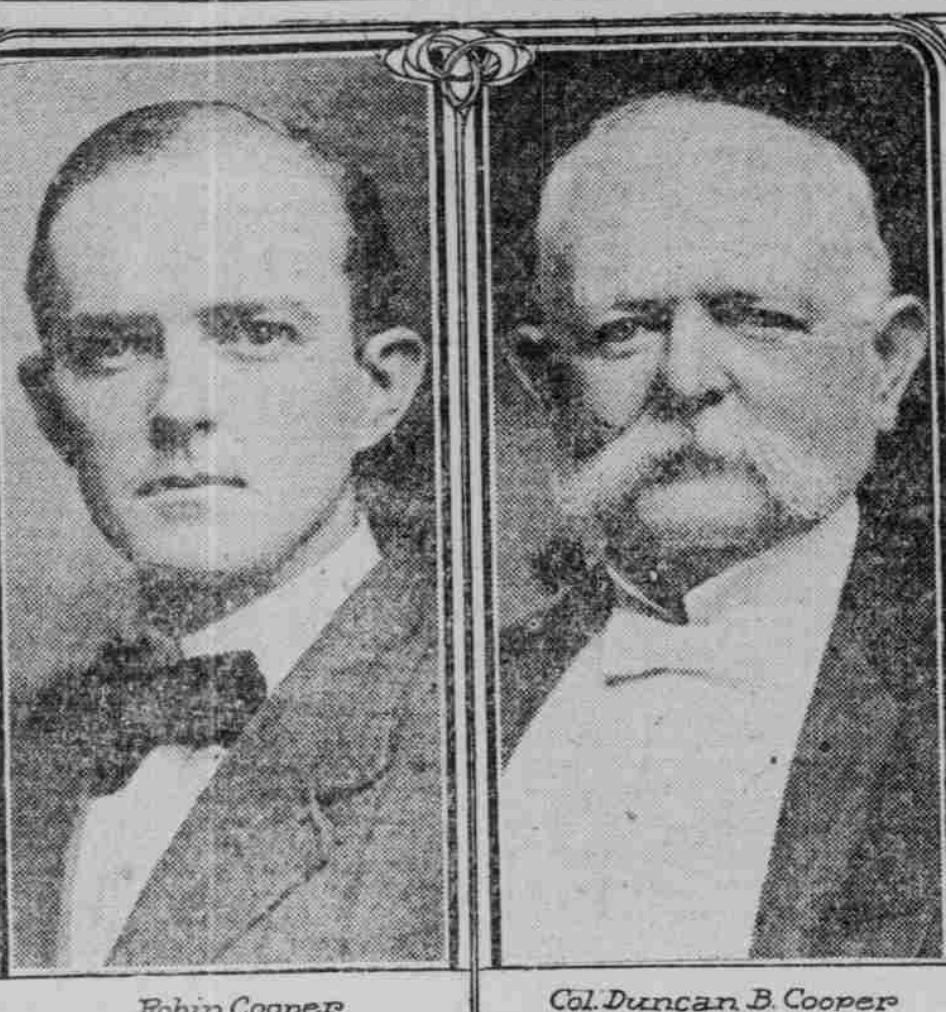

Benjamin F. Shively of South Bend was here yesterday looking after his interests, and Charlie Greathouse, working for Major Menzies, has arranged to open headquarters here within a day or two. L. E. Slack of Franklin is also spending much time here and is planning to open headquarters soon.

Delegation Is Divided.

The Marion county delegation, composed of eight representatives and three senators, will be divided, some being for Kern, others for Slack and still others for Taggart in the event he becomes a candidate. Taggart has a hold on the legislators from this county and may be able to swing them if he does not wish their votes against him.

Assurance is given that the metropolitan police law will be repealed the next day out of the box after the legislators concur and other dope will be that a Sunday baseball law will be enacted without fail.

YOUNG HORSE THIEF MAKES CONFESSION

Admits Having Stolen the Horse Which He Tried to Dispose Of.

WAS TAKEN BACK TO CHICAGO

Owner of Animal Compliments Gary Police for Their Efficient Work In Securing Capture.

The confession of Chester Noorish, the Chicago man who stole the horse and buggy belonging to the Skeedles livery, at 5123 State street, and drove out to Gary the same night, was obtained by Chief of Police Martin yesterday afternoon after nearly three hours' examination.

Noorish is married and lives at 4300 Emerald avenue, Chicago. The young man, who is 27 years old, told Chief Martin that he had been out of work for some time and had met some companions on Tuesday night and he had gotten intoxicated.

"I saw the horse and buggy standing on State street," said Noorish, "and not thinking what I was doing, I got into the rig and drove away. At South Chicago I saw two men who were walking towards Hammond and I offered them a ride. They are in no way implicated at all."

Prisoner Taken to Chicago.
Officer John O'Connor of the Sixth precinct station, came out from Chicago this morning and took Noorish back to Chicago, where he will receive his trial.

John and Jesse Morris of Michigan City, who were arrested with Noorish yesterday morning, were released by Chief of Police Martin this morning.

Harry Skeedles, proprietor of the livery at 5123 State street, arrived in Gary this morning to take his horse back to Chicago. He complimented Chief Martin and his officers very highly on their work of capturing Noorish.

Although the horse had been driven over fifty miles on Tuesday, it showed no ill effects when it was driven out of the barn this morning.

REGION HAS COLD DAY

The Calumet region got a taste of winter yesterday, when the mercury at 6:30 o'clock in the morning went down to 28 degrees, the lowest temperature reached this season. Later in the day the mercury gradually rose, but refused to go higher than 38 degrees, which was recorded at 2 o'clock in the afternoon.

All through the northwest the cold wave showed its effects. At Duluth, Grand Haven, Grand Rapids and a number of other cities cold, Calgary claimed the low mark of the day with 4 degrees above zero. Jacksonville, Fla., was highest with 80 degrees.

The weather bids fair to be even colder today than yesterday. Northwest winds are scheduled to add a sting to the low temperature.

INVITES PUBLIC TO INSPECT STATION

Charley Spelchert, contractor of the new Hammond fire station, will throw the building open to the public a week from today, and give the entire day over to inspection. Mr. Spelchert hopes to have the work completed by that time, and is proud of the work that has been done.

FUR MAY FLY AT MILLER MEETING

Town Board Holds Regular Session This Evening—Conflict Expected.

ANDERSON IS STILL FIGHTING

Members Who Resigned May Start Something and Are Still Threatening Their Prosecutors.

(Special to THE TIMES.)
Miller, Ind., Nov. 12.—Tonight at Miller the meeting of the own board will be held, and the prevailing question is whether of not Gustave Anderson, the surviving member of the original town board will retain his position and fight his case out in the court or resign. Gus Anderson has stoutly maintained his innocence through the controversy, and it may be that he will fight the case in the court.

The meeting tonight is likely to prove full of interest. Not only are there many matters of importance to come up before the board, but it is likely that the old trouble with the former trustees will be continued. It is likely that the old members of the town board will be present in addition to the ones whose petition caused them to be deposed. A conflict is not improbable and the outcome will be interesting.

The ex-town board members are threatening nearly all of the more prominent citizens who have taken action against them. They say that they have the "goods" on them and they are bound to get even. In the matter of franchises, it is not known what the attitude of the own board is, but it is thought that some of the capital which became interested in Miller has backed out of the investment because of the attitude of the trustees towards the local franchise seekers. They will be given a test, however, and it is believed that they will do the right thing.

Science and Food Frauds.
It has been for many years notorious that modern chemistry has been prostituted to the service of adulteration. May not an appeal be made to the more conscientious professors of one of the greatest modern sciences, and may they not be asked to bring their learning and their proficiency into the field for the assistance of honesty and fair dealing?—London Times.

Yesterday afternoon at the Jefferson school in Gary there was a meeting of the mothers of the children who attend the kindergarten.

The meeting was held for the purpose of organizing a Mothers' club in Gary and promoting interest between the parents, the teachers and the children in their work among the little ones.

The meeting yesterday afternoon was largely attended and proved to be very interesting. The meeting was addressed by Miss Anna Koppel, who is at the head of the kindergarten work in Gary, and Miss Helen Mattern, assistant. Both young ladies who are well versed in kindergarten work, told of the benefits derived by the organization of the mothers' club and the assistance they may lend to the children who are attending school. "The purpose of the mothers' club," said Miss Koppel, "is to promote an interest in school work between the parents and the children. These clubs in other cities have done so much good and there is no reason why much benefit may not be derived from this organization in Gary."

Meetings will be held every month in the Jefferson school and arrangements will be made later on to give a series of entertainments.

PLANNING FOR JUNKET

Gary Commercial Club in Session to Perfect Arrangements.

This afternoon at 2:30 o'clock a special meeting of the Commercial Club of Gary was held for the purpose of perfecting the arrangements and beginning active work toward the junketing trip which it is expected will be held the latter part of this month. The meeting was called by President Norton, and aside from this business there will be little else to come up for consideration.

The junketing trip, which will be along the same lines as that taken by the Commercial Club of Chicago, will be for the primary purpose of advertising Gary. They plan to charter special cars on either the Lake Shore railroad or the interurban, and tour the northern part of the state. The junket will end at South Bend, where they will have dinner at the Oliver hotel. They will be accompanied by the Gary brass band, which is also preparing music for the occasion.

NO FURTHER CLUE TO HIS WHEREABOUTS.

Charley Spelchert, contractor of the new Hammond fire station, will throw the building open to the public a week from today, and give the entire day over to inspection. Mr. Spelchert hopes to have the work completed by that time, and is proud of the work that has been done.

BLIND PIGS RUNNING IN GARY

Closing of Saloons Induces Boarding Bosses to Sell Liquor to Their Boarders—Evidence Is Hard to Get.

BIG RAID PLANNED BY THE AUTHORITIES

Illegal Saloons Are Operated Mainly By Foreigners in North Part of the Town—Soft Drink Dispensers Need Watchings—Many Arrests Are Expected.

Since the closing of some of the saloons in Gary the blind pigs have begun to spring up throughout the foreign district of the city, until now, according to Chief Joseph Martin, conditions are the worst they have ever been in the city.

There are still enough saloons in the south end to supply the demand, but whenever one of the favorites of these foreigners drops out of business, instead of patronizing the remaining saloons they buy beer from their boarding bosses, who then violate the "blind tiger" law. These boarding boss saloons, operating without a license, have sprung up like mushrooms and Chief Martin is determined to wipe them out.

For the past few days the police have been kept busy trying to secure evidence against the boarding bosses, but the men are so clannish that they find it difficult to do so. Once in a while, however, a man becomes angry at his fellow countrymen and will give the remainder away.

Wholesale Raid Planned.

The chief of police is planning a wholesale raid of the "blind pig" dealers, whose places of business are mostly on the nor side, near the gas house and Lake Shore railway and on the east side of the city, near the Lake

KOPELKE CANDIDACY CREATES A FURORE

Ex-Senator Gets Many Congratulations from Friends Abroad Concerning It.

Crown Point, Ind., Nov. 12.—The exclusive announcement in the columns of THE TIMES that friends of ex-Senator Johannes Koppelke were boozing his candidacy for the United States senate to succeed Hon. James A. Hemenway, has made a hit among Lake county democrats and Mr. Koppelke has received scores of congratulations from out-of-town friends. Members of the Hammond Business Men's association called Mr. Koppelke up by telephone and promised to do all in their power for the Crown Point lawyer should his candidacy pass the receptive stage.

Not only democrats but republicans have sent their congratulations to Mr. Koppelke. The story that he would be a candidate appeared yesterday in the Indianapolis papers and other papers over the state are taking up the matter. Judge Koppelke has been approached by a number of Indiana democrats in regard to his candidacy, but he refuses to begin an active canvass, declaring it is too early yet. Mr. Koppelke's friends and boomers realize that the Kern candidacy looks at present, but they say that there may be an entirely different aspect on affairs before the balloting and that it then may be anybody's race.

One of the first ordinances that will be drawn up by the town boards in the near future will be the one against expectorating on sidewalks and other public places in Gary.

The members of the board have seen the necessity in the new ordinance when the matter was brought up for discussion at the last meeting, it being, it is being introduced by Town Trustee M. A. Caldwell. Not only will the ordinance be passed by the board but will be rigidly enforced as well.

A trip down Broadway, Gary's main thoroughfare, will only convince a person of the unsanitary condition of the local sidewalks. It is as a Gary business man said this morning when the subject was introduced by a TIMES reporter, "I have been in many towns and cities in my life time but I never saw one where they are in Gary. Walk along the street at any time of the night or day and you will see the sidewalks besmirched from one end to the other. It not only speaks bad for a town, but shows lax conditions. Nobody is to blame in particular, it is just because the people are not educated and do not think enough about it to walk to the edge of the sidewalk and expectorate in the street."

Foreigners Are Worst Offenders.

The cause of the greatest part of the unsanitary condition of the sidewalks is because of the foreign element in Gary, who are ignorant of the fact that thousands of disease germs are carried in this way. It would only be a matter of a short space of time until they would become familiar with the law if the ordinance was only passed and enforced in Gary.

The matter was discussed at length by a number of business men gathered this morning and all expressed themselves and said the sooner the town board passed the ordinance and put it into force the better would it be for the health of the citizens, as well as the appearance of the sidewalks of Gary.

Columbus, Dead.

The history of Columbus' bones is about as checkered as that of his life. His remains, after burial at Valladolid, Spain, were removed to Seville. In 1536 they were taken with great pomp to Santo Domingo and interred in the cathedral. In 1796 what were supposed to be his ashes were again removed to be his ashes were again removed to the cathedral of Havana and buried there with imposing ceremonies.
