

STEEL COMPANY WILL NOT REDUCE WAGES

Glad News Is Brought to East Chicago For Millworkers.

Pittsburg, Pa., Nov. 12.—There will be no cut of puddlers wages, nor in any other line of work at the Republic Iron and Steel company's different plants over the country. This was announced after there had been a meeting of the Republic officials. They had met to make the adjustment of wages for the months of November and December, based on sales of the past two months.

It appears that the sales were so large a few days before election that the average was pulled up until it is possible to maintain the present wages all along the line. It is estimated that a raise in wages will be announced for January.

MORE PRAISE FOR DICK

Lowell Editor Has Warm Words For Talented County Chairman.

When Dick Schaaf, county chairman of the Lake county central committee, organized for the campaign, he selected the biggest executive committee ever known. Some thought it too big for effective work. On top of this he had the precinct committee men select ten men each and several times called the precinct committee, the executive committee and workers to Hammond to meet with him and get their expressions. He also met the workers all over the county and in this way took the whole republican party into his confidence and united them into one big political family. At all times Dick Schaaf has been accessible, ready at any time to meet all comers. The result was he had such party organization that swept the party in Lake county to victory and has placed Richard Schaaf on a pedestal of fame. Today the whole state is singing his praises and he will hence forth be a factor in Indiana's state politics. Lake county's four thousand majority saved the state's electoral vote to Taft and the state officers.

"DEKES" TO DINE.

New York, Nov. 12.—Nine hundred members of the Delta Kappa Epsilon fraternity are to gather about the banquet board at the Waldorf-Astoria tonight as a fitting climax to the big convention of the society which had its beginning in New Haven last Wednesday and was continued in Hartford yesterday. The banquet promises to be one of the most notable affairs of its kind that has taken place in the metropolis in a long time. Charles P. Taft, of Cincinnati, brother of President-Elect Taft, is to act as toastmaster and among the notable speakers will be Secretary of the Navy Metcalf, Senator Beveridge of Indiana, Senator Brandegee of Connecticut, and ex-Governor Black of New York. It is also expected that Hon. Cum Men Yow, '64, will attend and contribute to the toasts. Cum, who recently arrived in this country as a special envoy with Prince Tang Shao-yi, was coxswain of the Yale '83 varsity boat and is the only Chinaman in the world who can wear the varsity "Y." He has the distinction also of being the only Chinese member of the Delta Kappa Epsilon fraternity.

MICHIGAN VS. PENNSYLVANIA.

Ann Arbor, Mich., Nov. 12.—It will be Michigan vs. Pennsylvania on Perry field tomorrow and the indications are that the game will be witnessed by the largest crowd that ever attended a football game here. Hotels, dormitories and fraternity houses are filled with visitors who have come to see the most important game of the season on Michigan's schedule. Several hundred enthusiastic rooters have come to town with the Pennsylvania eleven to cheer the red and blue on to victory.

A feeling of confidence pervades the Michigan camp. The supporters of the Wolverines figure that, although Pennsylvania probably has the best team it has had in years, it is no better than the Michigan squad, which was able to win over the Vanderbilt team by a score nearly as large as that which Pennsylvania won over the Carnegie Institute, with all of her stars in the game.

The game tomorrow will be the third between the Michigan eleven and Pennsylvania. Both of the previous contests were won by Pennsylvania. Last year the score was 6 to 0 and in 1906 the score was 17 to 0.

VIRGINIA BAPTISTS MEET.

Richmond, Va., Nov. 12.—Between 600 and 700 delegates and an almost equal number of visitors have come to Richmond for the annual convention of the Baptist General Association of Virginia. The convention has its formal opening in the First Baptist church this evening and the sessions will continue until Wednesday.

In addition to the usual routine of business to be brought before the association there will be a number of addresses on education, and the plans for building a great Baptist male and female college in Richmond will be outlined. The commission entrusted with the task of raising a \$50,000 endowment fund for the proposed college will report gratifying progress.

TEXAS LUMBERMEN MEET.

Houston, Tex., Nov. 12.—The large crowd of visitors already in Houston for the fall carnival was increased this morning by the arrival of several hundred prominent lumbermen come to at-

lend the annual session of the Texas Hoo-Hoo and Lumbermen's club. The lumbermen will remain in the city two days. Several business sessions are scheduled but the greater part of the time has been left open for the enjoyment of the carnival parades and other festivities.

RULER OF MONACO 60 YEARS OLD

Paris, Nov. 12.—A dispatch from Monte Carlo says that flags were everywhere displayed throughout Monaco today in celebration of the sixtieth birthday of Prince Albert, the reigning prince of the little Mediterranean principality which derives its entire revenues from the world-famous gambling casino of Monte Carlo.

Prince Albert at the present time is absent from the syndicate which controls the gambling privileges. The heir to the throne is Prince Louis, a son of Prince Albert by his first wife, Lady Mary Hamilton, who was the sister of the Duke of Hamilton. He was divorced from her in 1880 and several years later married the widow of the Duke of Richelieu. She was originally Miss Alice Heine of New Orleans, and her father was a wealthy Hebrew banker and financier.

Prince Albert's one passion is the study of oceanography. He has published many volumes on this subject and in order to be better able to pursue his investigations he had built at an enormous expense a vessel equipped with scientific apparatus and fitted with a glass bottom for observations of the ocean bed.

HICKS ON THE WARPATH

Anti-Saloon Leader Goes to Indianapolis to Figure a Bit for His Side.

Superintendent Hicks, of the South Bend district of the Anti-Saloon league, is in Indianapolis to attend a meeting of the state league called to meet today.

Mr. Hicks stated a few days ago that the league members of Indiana were in any fear that the new legislature would attempt to repeal the local option law but the cry has gone up from several of the counties where the "wet and dry" was made an issue and there is a decided movement to get after the law and wipe it off the books.

In Vigo county where the democrats made a clean sweep and secured everything in sight, it was a plain "wet and dry" campaign and now that the battle is over the members from Vigo have begun campaign lining up other counties of the state in a movement to repeal the law.

The meeting at Indianapolis this week, it is understood, is to outline plans to forestall any movement of this kind.

GERMS IN HER SYSTEM

Every Woman Should Read This.

The number of diseases peculiar to woman is such that we believe this space would hardly contain a mere mention of their names. And it is a fact that most of these diseases are of a catarrhal nature. A woman cannot be well if there is a trace of the catarrh germs in her system.

Some women think there is no help for them. We positively declare this to be a mistaken idea. We are so sure of this that we offer to supply medicine absolutely free of all cost in every instance where it fails to give entire satisfaction or does not substantiate our claims. With this understanding, no woman should hesitate to believe our honesty of purpose, or hesitate to put our claims to a test.

There is only one way to cure Catarrh. That way is through the blood. You may use all the snuffs, douches or like remedies for years without getting more than temporary relief at best. Catarrh is caused by a germ. That germ is carried by the blood to the innermost part of the system until the mucous membrane is broken, irritation and inflammation produced, and a flow of mucous results, and you can probably realize how silly it is to attempt to cure such an ailment unless you take a medicine that follows the same course as the germ or parasite.

Rexall Mucuo-Tone is scientifically prepared from the prescription of an eminent physician who for thirty years made his specialty catarrh, and with this medicine he averaged 95 per cent. of cures where it was employed. No other remedy is so properly designed for the ailments of woman. It will purify and enrich the blood, stop mucous discharge, destroy all germ matter, remove all impurities from the system, soothe, heal and strengthen the mucous tissues, and bring about a good feeling of health and strength.

We want you to try Rexall Mucuo-Tone on our guarantee. If you are not benefited, or for any reason not satisfied, simply tell us and we will hand you back your money. Rexall Mucuo-Tone comes in two sizes, 50c and \$1.00. Kaufman & Wolf, Hammond, Ind.

LABOR NEWS

William D. Ryan of Springfield, Ill., the national secretary-treasurer of the United Mine Workers of America, will retire on April 1 of next year to enter a new field of work. He was secretary for twelve years.

By a referendum vote the Poster Artists' Association of America has decided to affiliate with the American

Federation of Labor. The union has passed its tenth anniversary and has locals in every important labor center of the country.

The Wisconsin supreme court has declared unconstitutional the Wisconsin eight-hour railroad telegraphers' law, which was enacted at the 1907 session of the legislature. The law is considered in conflict with the federal constitution.

The annual meeting of the Connecticut State Conference of Bricklayers, Masons and Plasterers is to be held in Bridgeport, Conn., on Oct. 26, and calls have been issued to the various unions in the state for the election of about 150 delegates.

Until 1901 the United States and Great Britain had more trade unionists than all the rest of the world taken together, but since that time the rate of growth of the unions in France and Germany has been exceptionally great, owing to the active labor campaign carried on in these countries.

School Director Dr. W. G. Weaver, of

the Wilkes-Barre (Pa.) school board, proposes to pension the aged teachers in the employ of the city by appropriating a pension fund of \$10,000, which the board saves to the city annually in the salaries, fees and other expenses. The teachers are to contribute their share to the fund.

Accidents in coal mines of the United States during the last calendar year resulted in the death of 2,125 men, and injury to 3,316 more, according to statistics just made public by the geological survey. The death record among the coal miners during the year was greater by 1,933 than in 1906, and is said to have been the worst year in the history of the coal mining industry.

What promises to be the largest and in many respects the most important annual convention of the American Federation of Labor is scheduled to open in Denver today. A novel feature of the program will be an excursion to Colorado Springs embracing a visit to the Union Printers' home as the guests of the International Typographical union.

Read this Carefully

An Acorn Challenges Any Stove on Earth

This is what we call a genuine Acorn, hot air circulating flue, base burner; its weight is one-quarter of a ton; the hot air flue is four square inches, larger than the largest flue in any stove on the market, consequently it will give more heat and consumes less fuel than any other stove on earth. Two and one-half tons of coal will last six months and heat a six-room flat to 79 degrees. Sold everywhere for \$60.00; our price
