Sad Event for Drummer.

Although a good-sized crowd of horse buyers and traders from Chicago and the surrounding country attended the regular monthly horse sale here yesterday, the day fell flat as a market day on account of there being such a noticeable lack of good sound horses.

The above kind, it is said, are getting to be a scarce article, and where one is found there is usually a farmer holding on to him, and he cannot be bought for love or money. The farmer is getting so that there is nothing too good for him, which fact is keeping many good horses out of the market. Possibly twelve or fifteen horses were sold and exchanged hands, but few of these were of the higher quality.

Poor House Market Day.

A jewelry drummer who came to Crown Point on Monday comes pretty near knowing from personal experience what the appellation of a "bull in a china closet" means. Anyway, he knows it to the tune of nearly \$50, for that just about covers the damage done to a collection of hand-painted china which he unluckily destroyed in a local jewelry store. In endeavoring to pull down a window shade he climbed onto the false bottom of the window thereby tipping the whole outfit on the store floor and damaging the collection as above stated. Next time

COMFORTING WORDS

Many a Hammond Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Hammond readers.

E. S. Stevens, of 153 Morton court, Hammond, Ind., says:

"I suffered terribly from pain in the back and disorder of the kidneys. In the morning I would be so stiff and lame that I could hardly crawl out of bed, and to face my morning toilet was an impossibility. I did not rest well at night for two causes. First, on account of the frequent action of the kidneys, second, because of the pain in my back and loins. I was in this condition when Doan's Kidney Pills were brought to my attention, and concluding to try them I procured a box. The benefit I received from the use of this box was more than I have obtained from all the other remedies put together. All the disagreeable symptoms were considerably lessened, and after using the contents of five boxes, disappeared entirely. I am now in good health, have a strong back and am able to stoop or lie without any inconvenience. My kidneys are also in a healthy condition, the secretions being normal and regular and free from sediment. I am grateful to Doan's Kidney Pills and highly recommend them."

RAILS TO CONNECT TWO CITIES.

(Continued from page 1.)

these, the daily traffic between Whiting and Indiana Harbor should vastly increase, and the interchange of business between the two towns show an appreciable degree of advancement.

Mr. Seeds declared to a Times representative last evening that the projected road was entirely independent, although it would likely be used by other, and larger, interurban lines. Immediately following the granting of the franchise a company will be organized for the prosecution of the railway, the membership of which is not yet to be made public. This corporation will be organized under the laws of the state of Indiana, and papers for its construction are now being prepared by a local attorney.

Quick Action Necessary.

It is necessary, however, that the local franchise be granted and made operative within one month, to avoid the forfeiture of an indemnifying check deposited with the Whiting council. Should the local council refuse to grant the franchise, this check would be given over to the city of Whiting, and the entire project dropped as impossible. Residents of the sister cities have long felt the need of a direct street railway system, however, and are confident that its operation will be one of the most successful ever attempted in the Calumet region.

The Gary council will not be asked to grant a franchise before the local branch of the system is completed, the promoters of the enterprise declaring that they are confident that the franchise rights will be granted them in the steel city without any heavy legislative opposition.

Climate of New Zealand.

New Zealand offers to the tourist a temperate climate, and mountain, lake, road and river scenery unsurpassed. Its geysers, thermal springs and hot and cold lakes are natural wonders which are being visited by increasing numbers each year. No country offers greater attractions to sportsmen. Mountain climbing, deer stalking, trout fishing and shooting are available to all. The charges are moderate for traveling and accommodation, and, therefore, touring in New Zealand is not necessarily confined to wealthy people.
