

A DAY IN GARY LAND

IN THE SUPERIOR COURT

The case of Henry Lassens of Whiting, who is alleged to have been guilty of running a fire sale without a license, is being tried in the Lake superior court today.

The case was started yesterday afternoon and will probably be completed today. The case of Bob Grant, who is charged with adultery, was continued until next term and will be the first criminal case to be taken up.

Eugene F. McGovern, alias Edward F. McGovern, will probably be tried for perjury next term. A motion to quash, which was argued yesterday, was taken under advisement by Judge Reiter and will be decided by him some time during the coming term.

If he refuses to quash the affidavit, the case will probably be tried by a jury early next term. It is expected that today will clean up the criminal work, and the disposition of civil cases, beginning Monday.

BLIND PIG CASES ON TRIAL TODAY.

Four Boarding Houses Charged With Illegal Liquor Selling.

The trial of the blind pig cases, where the four boarding houses were arrested for selling liquor without a license, has been set for this evening in Judge Hubers court. The police believe that from the evidence obtained that three of the men will be bound over to the superior court and that one of them may be released. The men who are charged with running a blind pig will be bound over to the superior court because of the fact that the penalty for this offense is greater than the justice has jurisdiction to impose.

MISS NAOMI FOX ENTERS THE VAUDEVILLE FIELD.

Well Known Ballad Singer in Region Deserts Local Stage.

The Broadway theater has changed its musical attraction this week and Mr. Alex Jordan, a baritone, will do the singing at the theater. Miss Naomi Fox, who has been at the theater for several weeks past, has left, and it is understood that she will enter vaudeville with her sister, in a sister song and dance act. Mr. Jordan is a high class baritone, will undoubtedly prove a good attraction.

LAURA MUST NOT SWEAR IN PUBLIC.

The arm of the law yesterday reached out and snatched up Laura Long, a negroess staying at Fourteenth and Washington street, she having been charged with using profane language. Steve Lukick was arrested for assault and battery, while Anna Mishko was arrested on a similar charge. Anna was fined \$12.00 in Justice Townsley's court, while the other cases will come up later for trial.

SLASHES BOSSY WITH KNIFE; WOUDN'T STAND.

On Nov. 23 Dewey March, living south of the Michigan Central tracks, will learn whether it is permissible for any man to cut and slash a cow with a knife if she fails to stand properly for him while he attempts to milk her.

March was arrested last night on the charge of cruelty to animals, he having been detected in the act of mistreating the dumb animal by cutting it with a large knife.

NOTICE.

If you are looking for a clean neighborhood to build a home in S. Carlson's addition, located on Borman boulevard in Toleston, close to all car lines, churches and schools free street improvements. Call or address, Alf. Carlson, room 214, Gary building, Gary, Ind.

HEARD BY RUBE.

And as usual, Gary got what she asked for at the Richmond convention. Gary "boys will be boys" and lots of girls would be the same if it were possible.

Isn't it about time for the ice men to tell about the failure of the ice crop.

One street car accident a week will be plenty, thank you.

Although the new United States postage stamps haven't arrived in Gary, there has been no complaint of persons liking the old ones.

Mr. Earle must either come to his oats or leave the bag alone.

Thanksgiving will be with us next week and many people will be thankful that prosperity hasn't come in too large an overdose.

Anybody who thinks it is any easy task to pave Broadway with brick, let them try it and see.

Many people in Gary who never had them before have been to see the snakes this week.

The roast chestnut man is quite the popular personage about Gary these days.

From now on you will see a gradual decrease of school boys on the streets during the school hours.

We trust that nobody will go to sleep and snore loudly while Thanksgiving prayer is being said.

Have you had the spring fever yet?

The average woman is all the time thinking of something she knows her husband will not approve of.

TWO DROWNED IN CALUMET.

(Continued from page 1.)

road which parallels the Erie tracks to Hegewisch. Not over a hundred feet west of the Erie bridge which crosses the Calumet river north of Hegewisch there is a pontoon wagon bridge.

Warned of Danger.

Just at the time the party arrived at the bridge it was swung open to permit a tug and a scow to pass. The automobilists were warned of the danger, but it seems the driver of the machine was too intoxicated to heed the warning and the automobile plunged over the edge of the bridge into the river.

The whole accident was seen by the bridge tender and one or two other spectators and they at once went to the rescue. They managed to pull six of the victims of the accident out of the water, but the other two were drowned before help could reach them.

The machine was lifted out of the river by improvised derricks, and it was not until 10 o'clock in the morning that the bodies of Miss Margaret Atkins and Joseph Meiers were recovered.

Efforts Here Frustrated.

The number of the machine was 15,456 Illinois, but it has not yet been learned where it was rented.

The chauffeur is said to be the one who is employed by "Skinny" Madden, the labor leader, who came to Hammond the other day and tried to get a seat in the Lake County Trades and Labor council.

The first report that came to the East Side police station was that a machine had been stolen and then the particulars of the accident came in. The East Side police were very prompt in handling the case and at once sent a patrol wagon with half a dozen officers in it to the scene of the accident to aid in the recovery of the bodies.

FEDERATION OF CLUBS COMPLETE.

(Continued from Page One.)

that not so much attention be paid to the legislation, but in the personnel of the legislature.

Gary Carries the Day.

The place of meeting for next year will be Gary. The active campaign instituted by the lively delegation of this remarkable city, had its sure effect, and there was practically no opposition. Connersville was proposed as a possible place, but the name was withdrawn and the selection of Gary was made unanimous. The meeting will be held at the same time next year.

The constitution adopted was brief. It provided for officers, a president, thirteen vice presidents, one for each congressional district, and a secretary-treasurer. The executive committee will be made up of the officers. The original draft of the constitution provided for the appointment of the executive committee by the president.

Great interest was displayed in the reforms that were adopted. It had been the general impression throughout the meetings that the Merchants' association reforms would be indorsed. The road reforms have a tinge of originality. The resolution indorsing the new Indiana Waterways Commission was introduced at the close of the business meeting this noon, as was the resolution of thanks.

Following the business meeting three highly instructive papers were read on the "Inland Waterways," by Henry Relsenberg of Indianapolis, Perry Randall of O'Ft Wayne and Thomas Sims of Indianapolis.

Capt. Norton Advocates Publicity.

Mr. H. S. Norton of Gary responded to the toast, "Publicity as an Aid to Commercial Indiana." He spoke on account of the phenomenal growth of Gary, the "magic city of steel." Within a short time he said 30,000 men will be employed in that city, for whom only 1,500 homes are now built.

IF IT'S ADVERTISED IT'S WORTH LOOKING UP.

GARY BRIEFS.

Dr. J. W. Niewirk returned today from Indianapolis, where he attended the sixty-first annual meeting of the Encampment I. O. O. F.

The Owls held their regular meeting last night in the I. O. O. F. hall.

Fred Baldwin, the jeweler, went to Chicago yesterday to purchase holiday goods.

Why cook when you can get a Sunday dinner at the Gary hotel at 75 cents, served from 12 to 2:30 p. m.

V. N. Young, of the real estate firm of Young & Vosler, went to Chicago yesterday on business.

G. L. Smith of the Smith Construction company, returned last night from Chicago, where he had been on business.

William E. Jones, of Michigan City was in Gary yesterday on business.

Gary hotel serves club breakfasts, 30 cents to \$1. Served 6:00 a. m. till 9:30 a. m.

Next Monday night the Gary Retail Merchants will hold a smoker at the Gary hotel.

Mr. and Mrs. C. E. Kendricks returned this morning from Fort Wayne where they have been visiting for several days.

The civil action started by Attorneys Fox and Dunn against Justice H. A. Townsley, for the collection of \$10 fees which he charged them and which they claim are illegal, will be heard this afternoon in Judge Hubers court. The case has excited considerable interest.

Gary hotel serves Noonday lunch, served from 11:30 a. m. till 2:00 p. m., 40 cents.

MORE SCHOOL LEGISLATION.

Cotton Proposes High School and Normal School Inspectors.

Fassett A. Cotton, state superintendent of public instruction, in his annual report, which will be handed to the governor within a few days, will recommend that the next legislature pass a law creating the positions of high school inspector and normal school inspector.

Mr. Cotton believes the state board of education should be relieved of some of its duties. The law passed by the last legislature, fixing the salaries and qualifications of teachers requires teachers to have high school and normal school training. This makes necessary the inspection of the high schools and normal schools of the state. This work has been done by the state board.

SOCIETY TO BE STARTLED

Callahan Divorce Case in Gary Will Make People Sit Up and Listen.

An interesting divorce case, for which the papers are in preparation, promises to develop in Gary this week.

The petitioner in the case will be Frank Callahan, a driver for the Slick laundry, living in the Dubitz building on Broadway. He will name a well-known physician in Gary as the co-respondent, and will file the complaint against his wife on statutory grounds.

Heer behavior, according to the husband, in relation to the co-respondent has been anything but becoming to a dutiful wife. The latter at the present time is said to be in Cincinnati, knowing, however, that her husband will file the divorce proceedings. He says that on many occasions when she left town that he learned that the co-respondent was out of town simultaneously. The Callahans have no children, while the physician, who is named in the petition, is a widower.

KNEELS AT EVERY CRACK IN WALK TO CRY BRET.

Man Who Voted For Bryan Saves \$1,000 by His Act.

Atlantic City, N. J., Nov. 20.—J. F. Smith, said to be a rich western visitor, to settle an election bet knelt at every crack in the board walk in front of Young's Ocean Pier this afternoon and yelled: "I voted for Bryan!" He wore a white suit with the trousers turned around. By doing this he saved \$1,000 put up as a forfeit.

A jeering crowd of friends of both bettors carried megaphones, through which they called attention to the feat being performed by the perspiring victim.

Weak Hearts

"I was terribly afflicted with my heart. At times it seemed to miss every other beat. I took Dr. Miles' Heart Remedy until my trouble was all gone—it has never returned."

One person in every four has a weak heart. Some are born weak, some become weak from disease, others by over-exertion. If you have palpitation, fluttering, irregular pulse, short breath, oppressed feeling in chest, smothering or faint spells, you may know your heart is weak. There is nothing better for a weak heart than

Dr. Miles' Heart Remedy. It has brought relief to thousands, it should to you, even in cases of long standing.

The first bottle will benefit; if not, your druggist will return your money.

CITIES NOW GET TOGETHER

Toleston and Gary Quit Fighting and Will Be Introduced Making Both One City at Next Session of Legislature.

Toleston has given up its bitter fight against its stronger sister city, Gary. All indications now point to the probability that when the next state legislature meets that a bill will be passed, with the consent of both Gary and Toleston, that the latter town be incorporated in Gary.

Toleston has already taken a vote on the matter in the way of a petition, which has been signed by a majority of the people in the town, thus signifying that they are willing to become part of Gary.

Petition in Gary Today.

The Toleston petition was sent to Gary this morning, where it was started out in quest of signatures to get the consent of the majority of people in Gary for the consolidation. The petition asks that Toleston be permitted to come under the beneficent rule of Gary, and points out that the interests of the two municipalities are so alike that it would result in mutual benefit.

Issues Are Dead.

This having been the precise object over which Gary and Toleston have fought bitterly, and the issue now being dead, it is expected that a majority of the signers will be gained in a short time. It is estimated that it will not take more than ten days to circulate the petition in Gary and after that, provided there is a majority, an election will be held, one in Gary and the second in Toleston.

The issue will be whether the Toleston people want to come under the jurisdiction of Gary; while in the latter city the issue will be whether Gary wants to incorporate Toleston. The vote, of course, is thought to be a mere formality and that it will decide in favor of the Toleston annexation.

Both Communities Benefited.

Once the people of the two cities having given their opinion, a bill will be prepared and presented to the next legislature.

In Toleston, the petition has the support of sub men like Otto Borman and Smith and Bader, all members of the Toleston bank, and in fact of all the leading men in the community.

The consolidation, it is argued, both in Toleston and Gary, will be a great benefit to both corporations. Toleston will gain by the prestige that Gary has secured for itself, while Gary will grow in population and size until its borders will reach to Hammond.

DIES AT MERCY HOSPITAL YESTERDAY

Victim of Gary Interurban Was Injured Internally It Seems.

Owing to the injuries he received by being struck while alighting from a Gary and Interurban car in Gary, last Sunday night, Michael Kurovich died at Mercy hospital yesterday morning.

It was thought at first that Kurovich's condition was not at all serious, but it is the opinion of the physician that when he fell to the pavement he received internal injuries. The inquest will be held this morning and the conductor and motorman who were in charge of the car at the time of the accident. It is not thought they will be held responsible, as the man alighted from the car while it was in motion and was slightly intoxicated at the time. The inquest is being held by Deputy Coroner Templin.

BIG ORE CARGO ARRIVES

Steamer William A. Payne of Chicago Lands at Indiana Harbor.

(Special to THE TIMES.)

Indiana Harbor, Ind., Nov. 20.—Loaded with 9,000 tons of ore from the Duluth mines, the steamer William A. Payne of Chicago, entered the Harbor yesterday afternoon, consigned to the Inland Steel company. The shipment was the last to be made this year, and its receipt signified that there is sufficient of the metal ores in the large bins to last during the winter months. The reddish dust is piled almost mountains in height along the company's wharf and is the cause of comment from passengers of outgoing passenger trains, who see in its magnitude the making of enormous wealth for the country should it be transformed into the completed steel products.

Chief Engineer Strale yesterday made the final soundings of the harbor for the year, finding the depth of the opening in all places sufficient to warrant the easy passage of vessels at high draught.

FATHER WILL FILE SUIT FOR HIS SON

Will Claim Damages For Boy's Injuries Sustained on Interurban.

THE LAD FALLS FROM A CAR

Conductor on Lake Shore-South Bend Line is Charged With Neglect of His Duties.

(Special to THE TIMES.)

East Chicago, Ind., Nov. 20.—As the result of a conductor failing to give the proper signal to stop the car, Nick Vuksanovitch, formerly a member of the East Chicago police force, will file a suit for damages against the C. L. S. & S. B. line. The damages were sustained by Peter, the 7 year old son of Mr. Vuksanovitch and consisted of several bad bruises about the face and hands.

According to the story told by the little fellow, he was riding on one of the Harbor branch cars with two companions of his own age. Their fares had been paid, and as they neared Alexander avenue, on which the injured lad lives, he gave the customary "high sign" to the conductor. Contrary to the rules of the company the conductor was on the front platform with the motorman and failed to heed the proffered signal. The car slowed down slightly at the crossing, and the three lads jumped from the car. Two of the youngsters succeeded in landing safely, but the Vuksanovitch boy was rolled for several feet in the stones along the right of way. It was feared at first that bones had been broken by the fall, but an examination by Dr. A. G. Schleiger resulted in the information that the lad's injuries consisted mainly of painful bruises. While the lad's face is badly swollen, his condition is improving and he will be inconvenienced for but a few days.

PIG IRON IS ADVANCING

Steel Situation Over the Country Is Very Hopeful.

Cleveland, Nov. 20.—The Iron Trade review says: The two extremes of its production—pig iron and old material—are furnishing the most interesting developments of the present moment in the iron and steel industry. The markets for both these materials are following the line of the unusual, under the condition of only medium activity now holding forth in the general industry.

Supported by optimism on the part of producers, to which the sellers are contributing by their hope of a larger consuming power in the near future, the pig iron market is steadily advancing in price. This condition has led to more less speculative activity among buyers which many furnaces, by adopting conservative policies of selling, are attempting to discourage in behalf of a healthy and more gradual ultimate recovery.

The old material situation appears much more artificial. The advancing level is directly charged to the domination of the dealers of the country who are absorbing much of the limited current offerings and are adding these to the immense tonnage already held in yards for profitable uplift of the market. The abnormal state of affairs prevailing was illustrated the last week by action of bar iron makers in raising the price of their product \$2 a ton to a base of \$15.00 Pittsburgh, because of the high level of wrought scrap. The tone of the iron and steel situation as a whole is quite hopeful, and a slow but sure recovery is more clearly shown.

ANOTHER PRAIRIE FIRE

Police Department Takes Chemical Wagon to Threatening Blaze.

The Gary fire department was called out yesterday afternoon at 1 o'clock when a report was sent in by telephone that the prairie at Seventeenth and Madison streets, together with several of the cottages and shacks in the vicinity, were on fire. The police department, according to custom, hailed the first man that passed with a team and pressed him into service. The chemical engine was hurried to the scene of the blaze, which by the time it arrived three-quarters of a mile had nearly been extinguished.

None of the houses in the vicinity had been touched by the flames, contrary to the report telephoned to the police station, although the forest fire which was raging looked dangerous for a time. Several of the women of the neighborhood had made a hard fight against the flames, which threatened to destroy their homes, and by the time the fire department arrived they had the blaze so well under control that there was no necessity of using the chemicals at all.

The women in the vicinity, who were very much excited at the time, told the police that their houses would surely burn up when they sent in the alarm that they did to the police station. Several of them accused a negro who lives in a shack next to theirs of setting the woods on fire for the purpose of burning them out, but this story was doubted by the police.

GOT JOB THROUGH TIMES

Edward Gallagher, the old man who was turned out of his house by his son-in-law in Chicago a few days ago and came to Gary to secure work, has now found a position in this city, through the article printed in THE TIMES. Frank Hubinger, employed by the S. L. Elsler company, who has a big heart, took pity on the old man and has given him employment for his board and room. Mr. Gallagher was as happy as a boy when he found the position, and says that he will stay in Gary just as long as he can, as everybody in the city has been kind to him and he appreciates it.

If you have a house or a room to rent you can inform 40,000 people by advertising in the classified columns of THE TIMES.

ECZEMA CURED

After 6 Years Agony

BY Dr. Taylor's Eczema Remedy

Gentlemen—I have suffered from burning, itching Eczema for six years, which tortured me so that I could not endure my underclothing on. My back, neck and face were one mass of eruptions, and I was so unsightly I was ashamed to go out. I purchased a set of Dr. Taylor's remedies and was cured. I hope this testimonial will come under the notice of other sufferers of this terrible disease, so that they will also get relief.
