

Good TEA

If you want an extra fine quality of tea and at a reasonable price, you will find it at J. E. Brennan's, No. 148 Hohman Street, Hammond. He is making a specialty of a selected Japan tea, imported especially for his trade in the Calumet District, and each day it is finding favor among a large class of people who demand good tea and know when they get it. Call up phone No. 55, if you find it inconvenient to call, and your order will be delivered to you. But you will find it much more satisfactory to call at his store which is one of the most complete tea and coffee stores in this section.

MODEL CITY HAS AN IDEAL NEW SCHOOL

\$18,000 Heating Plant Being Installed in the Emerson Building.

NONE BETTER IN COUNTRY

Massive Pile Has Been Built With Object of Giving Pupils Warmth, Light and Ventilation.

The heating system for the new Emerson school building, at Gary, is now being installed by the B. F. Sturtevant company of Lowell, Mass., one of the largest of its kind in the world. The cost of the hot air system of heating in this building will be \$18,000, and is one of the most complete and modern in use in public buildings.

The work of installing is being done by Louis Cole, who has come to Gary from Lowell especially to superintend this work. Mr. Cole is one of the most experienced men in the employ of the company. The heating system is the finest that has been installed in any school in the country, not barring the famous schools of St. Louis, Omaha and Louisville.

Problems Aply Solved.
The great problems in every school are proper heating, lighting and ventilation, so that the student can have his mind clear and breathe fresh air, and at the same time be warm enough to be comfortable. In the system about to be installed in Gary's splendid new building, the Sturtevant company claim that the air in the room will be entirely changed every fifteen minutes, by a wonderful method of ventilation. The heating proposition is the one which the school board regarded as one of the most difficult that they have had to contend with and they feel that the question has been properly solved.

Praises Local System.
Mr. Cole said today that he had made a specialty of installing heating systems in school houses throughout the country, and he asserted that the one being put in the Emerson building was one of the finest adapted for this purpose of any he had seen. He also commended the architect of the building for the light which would be provided for the students. He said that the mistake of having poor light was a most common occurrence in building school houses and that the strain on the pupils' eyes was most injurious.

One of the special features of the heating system which will be installed in the footways for the students, which will be placed in the corridors. As the students enter the building on a cold morning they will sit on a bench on the side of the corridor, where their feet will hang over radiators set in the floor. In this manner they will not only warm their feet comfortably but they will melt the snow which they carry in.

BUILDING SITE CHOSEN

Indiana Harbor Commercial Club Home Will Stand on Guthrie Street.

(Special to THE TIMES.)
Indiana Harbor, Ind., Nov. 21.—The new Commercial club building is to be erected on Guthrie street, between Elm street and Michigan avenue. At a meeting of the Auxiliary Building association last evening it was decided to purchase two lots in that district and to prosecute the building operations with all the haste possible. Sufficient money has now been subscribed to warrant the carrying through of the organization's plans, and before April 1 of next year Indiana Harbor will have one of the finest equipped club-houses in northern Indiana.

A committee of seven prominent citizens has been appointed to act as a directorate in the preparation and acceptance of plans and the general supervision of the affairs of the body. They are Attorney Walter J. Riley, John R. Farvid, W. R. Sauer, P. A. Parks, W. B. Van Horne, Robert Ansley and G. J. Bader of the Harbor State bank.

It has not yet been decided whether a two-story building, fifty feet wide, or a three-story brick building, twenty-five feet wide, is to be erected, and this point of contention will be settled in a meeting of the directorate this afternoon.

CHICKEN COSTS \$13.35

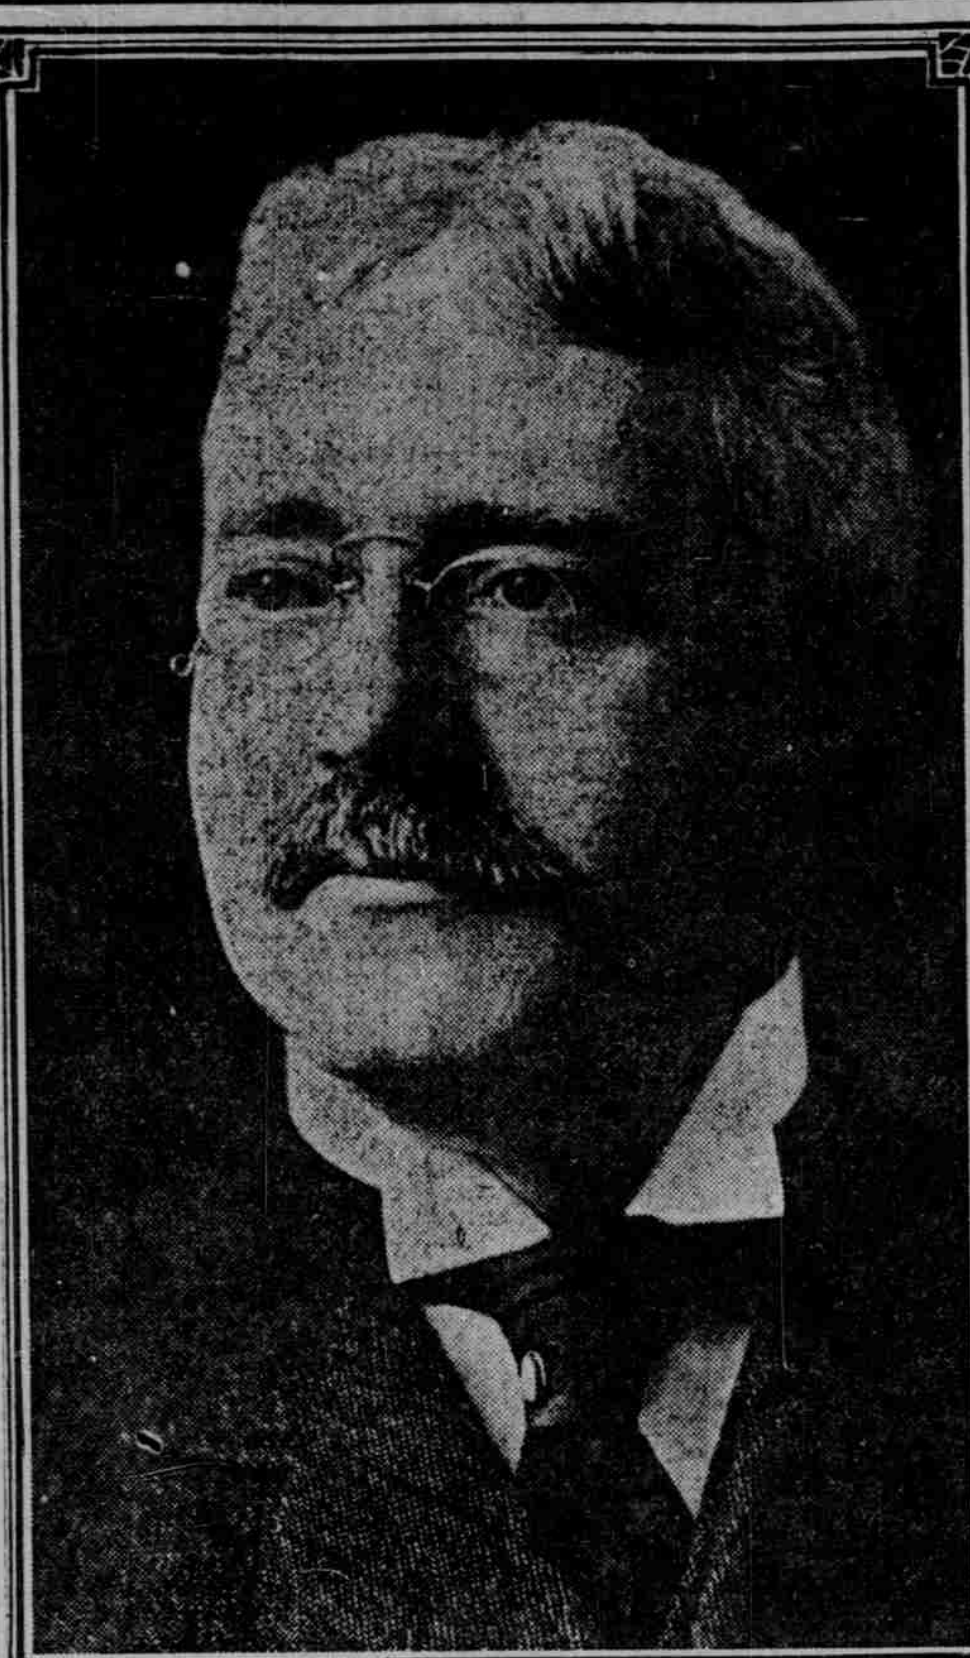

A chicken comes rather high in the case of Mrs. Annie Kanasky, who was arrested on a warrant sworn out by Mrs. Andrew Hainska, and fined \$13.35 by Judge G. W. Jones.

The two women are neighbors, residing on East One Hundred and Nineteenth street, opposite the Bank of Whiting.

Mrs. Hainska is the owner of several fine chickens, who will insist on roaming from their own yard into those of their neighbors. When the chicken strayed into Mrs. Kanasky's yard she became very angry, and made short work of the fowl for which she had to pay the penalty by handing over the \$13.35 in the court-room.

Want Chinese Steamship Line.
Chinese residents at Pacific coast ports are subscribing to a Chinese national steamship company to enter into the trans-Pacific carrying trade with a line to San Francisco or Seattle.

Succeeds To Presidency Of Biggest Bank In U.S.

Smith, who is visiting his brother-in-law, Mr. W. G. Paxton of Hammond. Both, Mr. Vanderlip and Mr. Smith, are old newspaper men and were employed on the Chicago Tribune.

UNDERTAKERS WAR OVER DEAD BODY

Suit For Replevin Is Instituted at Gary Over Remains of Popich.

JONES GIVES BODY TO RIVAL

Telegrams From Victim's Brother Causes Rupture and Matter Is Finally Settled.

A suit for replevin of a dead body was instituted in Justice P. L. Fitzgerald's court this morning, the claimant being Undertaker P. C. Finnerty, and the defendant being Undertaker C. P. Jones.

The undertaker's war broke out over the body of John Popich, who was killed by the interurban last Wednesday night. Each claimed the body by right of order from good authority, but Jones managed to be on the scene of the accident first and carried the remains to his morgue. Judge Fitzgerald issued the writ of replevin this morning, ordering Jones to turn the body over to Finnerty.

Conflicting Orders Are Issued.

Immediately after the accident occurred, Dr. Templin, who is the city's health officer, was summoned to the scene and ordered the body taken to Jones' morgue. John Ivanich, a friend of the dead man, and a lodge brother, ignorant of the instructions issued by Dr. Templin, ordered that the body be taken to Finnerty's morgue. The undertaker arrived on the scene too late, however. Yesterday he received a telegram from Joseph Popich, a brother of the dead man, ordering that the body be sent to his home in Clarendon, Pa. On the strength of this telegram Finnerty claimed the body, but Jones insisted on being paid \$15 for his services. Finnerty argued that this was an unreasonable amount for the work that had been done, and refused to pay it, offering Jones \$10, however. Jones still refusing, Finnerty asked for a writ of replevin. He will ship the body to Clarendon this evening. It will be accompanied by Ivanich.

BRYAN TO WINTER IN SOUTH.

Will Pass Several Weeks in Texas and Oklahoma.
Dallas, Texas, Nov. 21.—Mr. and Mrs. W. J. Bryan yesterday left Corpus Christi, Texas, for Monterey, Mexico, by way of Laredo. Mr. Bryan said that it is his intention to return to Texas within the next thirty days and that he will probably spend much of the coming winter in this state and Oklahoma.

EAST CHICAGO POLES IN BIG CELEBRATION

Rt. Rev. Bishop Rhode of South Chicago Visits Congregation.

CONFIRMATION IS TOMORROW

Catholic Church Dignitary is Guest of Father Balka This Evening—Confirms Class of 84.

(Special to THE TIMES.)
East Chicago, Ind., Nov. 21.—East Chicago will be honored today by a visit from Bishop Paul Rhode of South Chicago, who will visit the city as the guest of St. Stanislaus' Polish Catholic church, on Magoun avenue. The Rt. Rev. Rhode is the first—and only—Polish bishop in America, and extensive preparations have been made for his welcome. Five or six arches, made of national flags, will be erected along Magoun avenue and at Krupa's hall, where Bishop Rhode is to deliver an address at 4 o'clock this afternoon.

It was arranged to meet the bishop at the Pennsylvania station at 2 o'clock this afternoon by a large parade. He will be taken around the city in a carriage and shown the points of interest. Two bands have been engaged for the occasion and will keep up the enthusiasm until a late hour this evening.

Confirmation Service Tomorrow.
Following the address at Krupa's hall, the Rt. Rev. Rhode will preach at St. Stanislaus' church, of which Rev. Father Balka is pastor. His address will be a welcome review of the labors of his church during its inception in this country. He will be the guest at the home of Father Balka over night, and will assist in the confirmation services at St. Stanislaus' church tomorrow.

This service will include the confirmation of about eighty-four students and will be one of the prettiest functions in the religious life of the local Polish parish. Local Poles declare that their reception of their bishop will be carried through with such pomp and splendor as to occupy the memory of the right reverend gentleman for several years and give him reason to look upon St. Stanislaus' as one of the energetic parishes of his diocese.

NEW BUILDING PERMITS

Indications Are That Construction Work Will Remain Brisk.

There has been quite an increase in the amount of building permits issued during the last few days, and if present indications amount to anything, building in Gary this winter promises to be very active.

A permit was issued yesterday to R. E. Schoenberg for a two-story brick building on Broadway, between Fourth and Fifth avenues. Also for a two-story brick flat on Fifth avenue, near Adams street.

Other permits issued by the building department are:

Two-story frame residence on Virginia street, near Seventh avenue, for Harris and Bretsch.

One-story frame residence on Washington, near Twenty-second street, for L. C. Sage & Co.

Two-story brick in the first addition on Broadway, near Sixteenth avenue, for M. R. Hask.

One-story frame on Jefferson street, between Thirteenth and Fourteenth avenues, for Joe Stifowski.

Two-story frame on Jefferson street for J. S. Pernel.

IS HE PERSECUTED?

J. Benjamin Kline of Gary Says Health Officers Nag Him.

J. Benjamin Kline, the Gary saloon-keeper, who has been nagged so many times for conducting an unsanitary saloon, believes that he is being persecuted by the Gary health officials.

At the present time there are four charges against the Gary man. The crusade against unsanitary business houses is being conducted by Gus Newman, the deputy health officer.

The first charge against Kline was tried before Judge William Reiland of East Chicago and a fine of \$10 and costs was assessed. Kline's attorney then had two cases which had been filed in Judge H. A. Townsley's court in Gary, and Judge Pres't's court in Hammond.

Another case was venue to Justice George Reiland's court at Indiana Harbor. The Gary health officials say that they are going to keep after Kline until he finally decides to comply with the provisions of the law and keep his saloon in a sanitary condition.

CHANGE IN OWNERSHIP OF CARRIER BUSINESS

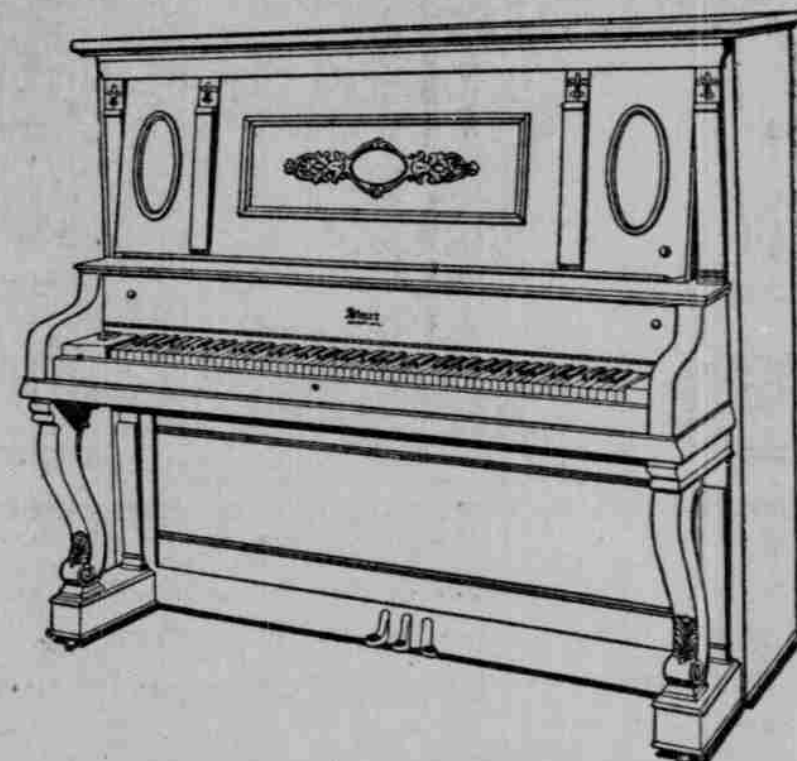

(Special to THE TIMES.)
East Chicago, Ind., Nov. 21.—East Chicagoans will be surprised to learn that a change has been made in the ownership of the East Chicago Transfer company, one of the largest carrier

We Sell Pianos that are Pianos. If you Want Pianos that Last a Lifetime, get the best, which is the cheapest

STARR PIANOS

THE MARK OF QUALITY

For 40 Years the Leader - 70,000 Satisfied Customers

A piano costs a large sum of money. This is true even of a cheap one, and often a buyer thinks it wise to get the opinion of some outsider before purchasing. This affords the supposed friend a chance to make arrangements with the piano dealer, and as a result there is small chance that the customer will get a square deal in the matter of price. And this system is so outrageous as the sliding scale scheme or the oily salesman, for often the supposed friend gets a commission from both the piano house and the customer.
