INCLUDING THE GARY EVENING TIMES EDITION, THE LAKE COUNTY TIMES FOUR O'CLOCK EDITION, AND THE LAKE COUNTY TIMES EDITION, ALL DAILY NEWSPAPERS PUBLISHED BY THE LAKE COUNTY PRINTING AND PUBLISHING COMPANY.

"Entered as second class matter June 28, 1906, at the postoffice at Hammond, Indiana, under the Act of Congress, March 3, 1879."

MAIN OFFICE—HAMMOND, IND., TELEPHONES, 111-112.
BRANCHES—GARY, EAST CHICAGO, INDIANA HARBOR, WHITING, CROWN POINT, TOLLESTON AND LOWELL.

YEARLY \$3.00
HALF YEARLY \$1.50
SINGLE COPIES ONE CENT

LARGER PAID UP CIRCULATION THAN ANY OTHER NEWSPAPER IN THE CALUMET REGION.

CIRCULATION BOOKS OPEN TO THE PUBLIC FOR INSPECTION AT ALL TIMES.

TO SUBSCRIBERS—Readers of THE TIMES are requested to favor the management by reporting any irregularities in delivering. Communicate with the Circulation Department.

COMMUNICATIONS.

THE TIMES will print all communications on subjects of general interest to the people, when such communications are signed by the writer, but will reject all communications not signed, no matter what their merits. This precaution is taken to avoid misrepresentation.

THE TIMES is published in the best interest of the people, and its utterances always intended to promote the general welfare of the public at large.

WELCOME THE ATHLETIC CLUB.

ONCE AGAIN THE YOUNG MEN of Hammond are to have an athletic club. Athletic clubs have come and gone in Hammond like the summer blooms and winter winds. They have flourished in their heyday and fallen into decay. An athletic club properly organized and properly supported is a splendid thing for the young men of any community. It certainly is a means of advertising a city that cannot be surpassed. Athletic teams have made more than one city famous, but for which they would hardly be known on the map. The old Iroquois Athletic club was a flourishing organization during its days, but fell into what the late Grover Cleveland called "innocuous desuetude" after several years of life. Crown Point and Hobart have both had splendid athletic teams which won them much fame and other Lake county cities have supported strong athletic organizations for a time, but were permitted to die out. By all means have a strong athletic club and let it be well and liberally supported. It will be a good thing for the young men and a good thing for the city.

CRUMPACKER AND TARIFF REVISION.

THE TIMES MADE A PROPHECY the day after election that Congressman E. D. Crumpacker would by reason of the vote he received and the confidence placed in him by his constituency, become a national figure in politics. He has already been called in conference with President-Elect Wm. H. Taft regarding the tariff question in particular and Indiana politics in general. Mr. Crumpacker warned the president of the dangers to the republican party in "stand-pattism" and found a willing ear there. The Tenth district representative owes his success to the fact that he has listened to his constituents and knows that they want tariff revision without any dodging. Congressman Crumpacker's friends look for him to be a powerful factor in the coming fight for revision downward and his course and career in the battle will be watched with intense interest by his friends and well-wishers.

THE HON. BAT NELSON AS A PRESS AGENT.

THE HON. BATLING NELSON, champion of the world in his division, lecturer, author, really owner and hustler extraordinary, wrote another chapter Sunday afternoon when he wrestled a young cannon from a member of the Burnham constabulary, who might have let daylight through the members of a dog fight party in Mayor Johnny Patton's town. The valiant constable was one of the chief functionaries in a spectacular raid led by Judge Hunter's reserves and Hon. Nelson, valiant and fearless as when he faced the hitherto invincible Joe Gans in the fist arena, spared the doughty constable and simply jerked his gun out of his hands. "Bat" is his own press agent. He doesn't need to carry one with him and his latest escapade in Burnham, mind you we say Burnham not Hege-wisch, will undoubtedly help him to sell numbers of his forthcoming book when its virgin pages come fresh from the publisher.

KEEP YOUR EYES ON THE BRAGGART.

THE BRAGGART IS SOON FOUND OUT. He doesn't last very long. The louder he brags too, the quicker he is found out. He may fool some of the people some of the time but that is all, and when that happens his course is run. We meet the braggart in business circles and in society. He flies high for awhile and then somebody knocks the props out from under him. Your braggart, too, is generally a bully. If braggadocio and lying won't get him business he won't scorn to use bullying in getting it, and, of course, that is where he falls down. The braggart, besides being a bully, is crooked and his ways are devious. It is well to shun him. His mistake and misdeeds alone make him persona non grata. The business man doesn't want to be trapped by him for he is ever trying by hook and crook to pull the wool over his eyes. Beware of the braggart and the crook. One follows the other.

SALOME DANCERS are now turning their attention to the interpretation of Mendelssohn's "Spring Song." Of course, they can't use John the Baptist's head in that, but the props will be equally striking, consisting of twittering birds, real rain and a mechanical ground hog hunting his shadow. If they have a couple of men harruping a carpet, the atmosphere for Salome to do her spring wiggle will be all that could be desired.

A LAW SUIT involving a matter of 22 cents consumed three hours and then took the case under advisement. Twenty-two cents is such an odd amount that it would be hard to find two men who would agree regarding it. If it were 25 cents we men would know what to do with it, wouldn't we boys? That is, if we were near a shining bar.

MR. CARNEGIE says that Emperor William can abolish war among civilized nations if he wills. The Kaiser is certainly a versatile monarch, but he made quite a mistake recently. The great man is only human after all, even though some of his admirers think he can do almost anything except walk on the water.

IT IS REPORTED that our steamed contemporary, the Gary galled jade, is still wincing. Important news if true.

THIS DATE IN HISTORY.

- November 24, 1807—Thayendanegea (Joseph Brant), a famous Indian chief, died near Burlington, Ontario.
- 1818—William W. Holden, governor of North Carolina, who was impeached and removed from office for his course in the "Klu-Klux" troubles, born in Orange county, N. C. Died in Raleigh, March 1, 1892.
- 1829—New England began the custom of declaring the last Thursday in November as a day of Thanksgiving.
- 1842—Lieutenant William B. Cushing, who blew up the Confederate ram "Albatross," born in Delaware, Wis. Died in Washington, D. C., Dec. 17, 1874.
- 1863—General Sherman's command crossed the Tennessee river and gained a part of Missionary Ridge by assault.
- 1867—Execution of the "Manchester martyrs."
- 1875—William Backhouse Astor, the founder of the great Astor fortune in real estate, died in New York City. Born there Sept. 19, 1792.
- 1902—Labor riots in Havana.
- THIS IS MY 33RD BIRTHDAY.
John W. Stewart,
John Wolcott Stewart, United States senator and former governor of Vermont, was born in Middlebury, Vt., Nov. 24, 1825, and graduated from Middlebury college in 1846. He read law in the office of United States Senator Horatio Seymour, and was admitted to the bar in 1850. In 1855 Mr. Stewart was elected a member of the Vermont legislature. He served as state senator in 1862, and in 1864 returned to the house to become its speaker. In 1870

Heart to Heart Talks.

By EDWIN A. NYE.

Copyright, 1908, by Edwin A. Nye.

HOW TO BE HAPPY THOUGH MARRIED

Professor F. H. Blackmore of the University of Kansas proposes the introduction into the schools of a "course preparatory to matrimony."

Whereat a guffaw goes up. But is it really "to laugh?" Surely there is great need of education concerning marriage. Surely a better understanding of its meaning would prevent much marital misery and many divorces.

That is to say—
A boy and a girl "fall in love" with each other. They have been told that love will resolve all things into factors of married happiness. Therefore the happy-go-lucky plunge!

But—
Does the average boy and girl know what love really is? Much that passes under the name is the mere froth of sentimentality that will quickly pass away, or it may be mere animal passion—not love, but lust.

Could not young persons be delicately and simply taught the difference? They could be shown that love is devotion; that it spells self sacrifice; that it is kind and long suffering; that it thinks no evil; that it knows naught that is unseemly; that it hopes all things, endures all things; that it upbraids not; that it abides forever.

After such an understanding of real affection they could be taught that—
Marriage means equality.

That it requires understanding and sympathy, which are more than equality.

That it presupposes the ability and patience to live with another person successfully.

That selfishness must be put away and that unfaithfulness is treason.

If ethics and philosophy can be taught in the schools, why cannot it be taught "how to be happy though married," which involves the practical side of both ethics and philosophy?

It is true not every teacher could teach or lecture in such a course. Strong common sense, experience, an altruistic spirit—these would be necessary.

But what an opportunity for such a teacher!

How, for instance, it could be enlarged upon that successful marriage requires the exercise of the highest qualities of manhood and womanhood; how its discipline of spirit is designed to bring out the highest and noblest in man and woman!

If the schools can help society in this, one of its greatest needs, why not try them?
Something must be done.

He was elected governor of Vermont for a term of two years, and after another short term as speaker of the house, he was elected to congress from the first Vermont district in 1852. He was re-elected to congress for three successive terms. Upon the death of Senator Redfield Proctor last March, Mr. Stewart was appointed by Governor Fletcher Proctor to fill out the unexpired term of the latter's father in the United States senate.

RANDOM THINGS AND FLINGS

If Alfred Austin possessed a sense of humor, he might get a great deal of fun reading over his own works.

The man who is always talking about himself seldom says anything that will benefit his fellow men.

To do away with public love-making a western town has passed an ordinance requiring young people to be home by 9 o'clock. Well, it gets dark much earlier now and much can be done before curfew.

The man who keeps overestimating at it is apt to accomplish a lot of things. That are absolutely not worth the effort.

Some correspondence school could make a big hit by teaching people what letters to burn and what letters not to write at all.

MEN WILL BEAR THEIR BURDENS A GREAT DEAL BETTER IF THEY THINK THEY ARE GETTING A SQUARE DEAL. NO MAN THINKS HE GETS THIS, HOWEVER.

You know if you can't give turkey there may be a poor family living near you somewhere who would be thankful for any kind of meat next Thursday. It is Thanksgiving day, you know!

Funny, isn't it, that what turns the leaves red and brown, leaves us blue?

Now it is announced that locomotor ataxia is curable. The science of the twentieth century is evidently going to be epoch-making.

Whose novels are so
Padded that a woman can
Skip and devour a whole one in
An afternoon.

UP AND DOWN IN INDIANA

TRUG SHOOTS OFFICER.

The shooting of Harry Jennings, a policeman, by a thug, early Sunday morning, concluded a week of crime in South Bend. Jennings is thought to have a fair chance for recovery, although his right lung was punctured by a 44-caliber bullet and another bullet of the same size lodged between his shoulders.

TO SEND STORK TO TEDDY.

George Myers, an old-time trapper and fisherman of Elwood caught a fine specimen of the stork species, the only one ever seen alive here, and will send it to President Roosevelt. A large wire cage will be constructed to ship it in, and it will be so arranged that the bird cannot injure itself.

"YEGGS" MAKE BIG HAUL.

"Yeggs" blew the safe in J. A. Freed's shoe store in Wakarusa at 2 o'clock yesterday morning and took \$116 and \$250 in notes. Entrance was gained through the rear door.

TRIAL MAY END SOON.

The third week of the trial of Ray Lamphere on the charge of murdering Mrs. Bella Guinness and her three children at Laporte, began this morning, but the indications are that it will end before the close of the week.

GRANDMOTHER, AGED 32.

There is joy in the home of Mr. and Mrs. Harley Lucas of Nashville. They are entertaining a boy baby who arrived yesterday. The mother is 16 years old, while its grandmother, Mrs. Randolph Penrose, is in her thirty-second year.

MAD DOG SCARE SERIOUS.

The mad dog scare at Delphi continues to increase. The dog which bit Meade Titlow and Harry Maxwell, who are now taking treatment at the Chicago Pasteur institute, was killed and its head sent to the institute, where the physicians pronounced it a case of genuine hydrophobia.

CRIME WAVE AT CAPITAL.

Burglars, purse snatchers, holdup men and other thieves are causing the Indianapolis police department no end

When Kermit goes to Africa may be he can do something that will get him at least 50 cents a word, though this might be queering the colonel's game.

The reason many a married man wears such poor clothes is because his wife wears such expensive ones.

A man in New York has sued his wife because she either gives him raw or burnt beefsteak. Well, men are brutes and ought to be able to eat any old kind of steak.

THE CREAM OF THE Morning News

Comprehensive survey of Chicago's life, with civic incoherence as the cause, is given by Dean W. T. Sumner before the Nineteenth Century club.

Annual International Live Stock Exposition, which opens Saturday, is expected to bring 40,000 visitors to Chicago.

President Buase of county board defends Dunning asylum in addressing Woman's club.

Judge Dupuy tells lawyers in case the proceedings before him in the action of Montgomery Ward against the South Park commissioners must stand.

President-elect Taft wants tariff revision to be thorough and fair and believes that the way and means committee on the house is engaged in a farcical performance.

Cannon promises prompt tariff revision, while General Grant scores United States artillery at luncheon given by Alexander H. Revell for rear admirals and Chicagoans.

Wholesalers urge house committee on ways and means to reduce tariff on pottery and china, while manufacturers insist on present rates or higher ones.

Some evils of American banking system will probably be corrected at coming session of congress, but general revision will go over till next year.

John D. Rockefeller comes near breaking down under persistent cross-examination of Frank D. Kellogg.

Attorney General Bonaparte makes plea to the United States supreme court for a writ of certiorari in the Standard Oil \$29,240,000 case, and asks that the ruling of the court of appeals be set aside.

Evidence in trial of Ray Lamphere, accused of the murder of Mrs. Bella Guinness and her children, will close at Laporte, Ind., today.

Lord Roberts appeals to the house of lords for an army sufficient to make an invasion of England hopeless.

Another land bill is introduced in the house of commons by Secretary Birrell, who says \$200,000,000 is needed to complete the work begun.

Wheat values are affected adversely by breaking of drought, lack of exports and continued large receipts and accumulations; corn helped by wet weather; oats and provisions firmer; live stock higher.

Volume of business in Wall street is much reduced and weakness in United States Steel causes uneasiness.

Charles F. Dally's promotion to position of vice president in charge of all traffic on New York Central, calls attention to remarkable and rapid advance.

Bacteria in Direct Mud.
In a gram of street mud, equal to a cube of earth with sides of about a quarter of an inch, there are enough bacteria, if placed in line, side by side, to cover 259.74 feet.

By the Light Within.
The world is a comedy to those who think, a tragedy to those who feel.—Horace Walpole

of trouble. Their boldness early yesterday morning was a surprise. The robbers broke a plate glass window in Krauss & Spector's jewelry store at 45 North Illinois street and got away with nine watches, a tray of rings and other articles valued at about \$100.

DUST FEVER NOT NEW.

In regard to the new Indiana disease named "dust fever" by Dr. D. W. Dryer, secretary of the Lagrange county board of health, Dr. J. Arthur McClintock of this city, points out that the disease is not new, but that it is seldom mentioned and much less understood.

SAFE BREAKERS GET \$100.

Thieves forced an entrance to the postoffice at Secelyville, west of Brazil, and blew open the safe. About \$100 in money, a quantity of stamps and valuable papers belonging to Postmaster Samuel Shipley and other citizens, were taken.

Y. M. C. A. CONVENTION ENDS.

The thirty-ninth annual convention of the Indiana Y. M. C. A. came to an end at South Bend yesterday evening. All of the delegates pronounced the South Bend meeting one of the best in point of interest and attendance ever held.

YOUNG MAN SUICIDES.

Irvin Floyd of Jeffersonville, aged 28, killed himself at 11:30 o'clock yesterday morning by taking two ounces of carbolic acid. He followed his wife, Grace Floyd, and his 8 year old son Willie, to the Government depot where she went for sewing. When she would not stop he halted and swallowed the acid.

POLICE ARREST MURDERER.

When the Peru police arrested Frank Rim last Thursday upon advice from Chicago, they did not know he was accused of murder. Rim came to Peru Nov. 1 and obtained a position at the Lake Erie & Western shops. He called for his time Thursday, saying he was going to leave the city. As he was receiving his pay check the police stepped into the railroad office and made the arrest.

IN POLITICS

The capital removal bill for the removal of the state capital from Sacramento to Berkeley was decisively defeated in the recent election in California.

Zapata is the banner republican county of Texas. The official returns of the recent election show that Taft received 424 votes and Bryan none.

W. D. Jamieson, who defeated William P. Hepburn for congress in the Eighth Iowa district, is a comparatively young man, who has been engaged in the business of making both ends meet on a weekly newspaper.

According to a report circulated in Washington friends of John Hays Hammond, the millionaire mining man and publicist of Massachusetts, will ask Mr. Taft to make him a member of his cabinet.

Thomas R. Marshall, whom the democrats have elected governor of this state, is a noted story teller and public speaker. He is a lawyer by profession and for several years was on the bench.

In all probability before the close of President-Elect Taft's administration there will be four vacancies on the United States supreme bench, and close friends of Mr. Taft are of the opinion that he is likely to appoint to these vacancies three republicans and one democrat.

LABOR NEWS

The report of the Amalgamated Society of Carpenters and Joiners shows a total membership of 65,310.

San Francisco Bakers and Confectioners' Union has an organizer at work unorganizing the men working in French and Italian bakeries.

The mayor of Knoxville, Tenn., recently appointed three representatives or organized labor to assist in drafting the new city charter.

The most recent acquisition of membership of the A. F. of L. is from Jamaica and the neighboring colonies of Trinidad, Barbadoes and British Guiana.

In Austria and France the provision of rescue apparatus in mines is made compulsory. In Germany it is optional, but has been voluntarily adopted.

Farm laborers in the south, paid by the month or year, and fed and supported by the land owner, receive 35 and 40 cents a day during working season.

Spinners and cardroom workers in Manchester, Eng., have adjusted their differences with the manufacturers, agree, temporarily, to accept a 5 per cent. reduction.

The last available statistics show that in one year in Germany the sum of about \$30,000,000 was paid to invalid workmen to the number of \$71,000 in the form of old-age pensions.

Memphis (Tenn.) Bakers' Union has started a label campaign, which is headed by the members will be productive of results. The idea is to place a value upon bread labels and thus encourage the use of the union product.

How to Cure the Drink Habit.

We are honestly desirous of curing all who are interested to drink, and if you are interested in any one needing Orlin we invite you to write us. Our correspondence is confidential and our replies are sent in plain sealed envelopes. Orlin No. 1 is the secret remedy, and No. 2 for those who wish the voluntary treatment. \$1.00 per box. Orlin is sold on an absolute guarantee to effect a cure or money will be refunded. The Orlin Company, Washington, D. C. The leading druggists endorse Orlin. Sold by the Lion Store Pharmacy.

John W. Gates' Mother Seriously Ill

Mrs. AZEL GATES.

FADS AND FASHIONS

PICKLED GRAPES.

Pick fresh grapes from the stems without breaking, and put in a jar. For seven pounds of grapes allow a quart of vinegar, three pounds of sugar, a tablespoonful of each whole cloves and cinnamon sticks. Cook vinegar, sugar and spices together a few moments. Cool to a little hotter than lukewarm, and pour over the grapes, which are not to be cooked. Cover and set in a cool place.

KEEPING CHILDREN COVERED.

Mothers of small children know it is hard to keep them covered in cold weather. Take common elastic such as used for hose supporters, sew a hook on each end, similar to those used on dress belts, then attach at each side of the foot of mattress one inch of tape to form an eyelet. After the bed is made draw the elastic to eyelets. This holds the bedding in place. All defects can be covered by placing the spread over all. This can be applied to any bed.

LACE ON PETER PAN COLLARS.

The Peter Pan collar is familiar, but few people know how readily an effective collar of this type may be made trimmed with lace applied to the linen and buttonholed in place. The lace may then be cut from underneath, giving the decoration a transparent effect. These collars are especially pretty, and they are made in so many charming and attractive ways that one might easily have a clean collar every day in the year without any two being alike. To wear with these collars there are many fine little butterfly bows, which are trimmed with lace and bits of insertion.

WOODEN WEDDING GIFT.

A unique present for a wooden wedding is one of the candle boards to hold birthday or other cakes for special occasions. These are made of a smooth, white board, about 20 inches in diameter. The center is left plain and is burnt to a delicate tint, while around the edge is a border burnt or painted in rich colors. On the outer rim and the depth of the border within it are set candle holders at intervals of an inch or more apart. The inner circle of candles must be big enough to allow your largest circular cake pan to slip into the space easily. The candles are then set into the holder instead of the cake.

TO SAVE FUEL.

If you live in the country and have a base burner you can prepare a whole meal on it with a great saving of both steps and fuel. Carefully shake down the ashes and remove the ash pan a few minutes before ready to use and you can bake pies, biscuits and light bread in the oven below. One can also roast meats. Place squash, sweet potatoes, or Irish potatoes in the coal magazine with top closed in usual way, and in from half to three-quarters of an hour they will be ready to serve. Coffee, fruit and cereals you can prepare nicely on the cover back of the stove.

MASSAGE FOR CHEEKS.

Don't allow your cheeks to become hollow. Of course, to retain full, round contour good health is necessary, but there are a number of people whose health is good and whose cheeks are hollow. For these massage is the remedy. Use a good vegetable cream and massage each night just before going to bed, about 15 minutes. The movement to be used should be upward—never downward, as the object is to

make the muscles and flesh hold up firmly. The rotary movement can be used also, working from the center of the cheek outward. Some people make the mistake of massaging too heavily. You must remember that the flesh is delicate, and the cushions of the fingers should be used very lightly. Don't plow the flesh.

ABOUT NEW CORSETS.

It is interesting to know that while corsets are longer, the bones in them are shorter. They go over a part of the hip but do not run down to the end of the corset. These long bones were found disastrous, as they were constantly breaking or bending and pushing the corset into a curve below the waist.

Now the bones stop short enough to prevent breakage, and the corset is strapped and stitched and fitted to the figure for the rest of the length.

SKIN BEAUTIFIER.

A magical skin whitener and beautifier, and one which is a favorite of French women, who are authorities on what is good for the skin, is the steam bath. To prepare the steam bath pour two quarts of boiling water into a large pan or bowl, and into this drop one teaspoonful of tincture of benzoin. The water immediately will become milky and the steam fragrant. Have at hand a large bath towel, and as soon as the benzoin is added to the water bend over the basin so that the steam arises to the face and throw the towel over the head and shoulders so that the face is enveloped, thus preventing the steam from escaping.

Steam the face and neck for 10 minutes. Now fill a basin with warm water and dissolve a teaspoonful of finely powdered borax into it. Wash the face thoroughly in this, as the pores are all open and the grime and dirt loosened. Rinse the face carefully in warm water and dry carefully. Massage the skin carefully with a good skin food or cold cream and leave it on the face for half an hour, so that the pores may absorb all they will. Then rub off all remaining grease. The best time to take this treatment is just before going to bed, as the pores are opened by the process and they need a complete rest. One or two of these steam baths a week will give you a complexion such as you have always longed and sighed for.

WHEN HAIR IS FALLING.

Many believe that when the hair is falling the use of tonics will stop it; this is a mistake; a tonic cannot prevent the hair already loose from falling any more than a leaf can be fastened back into its place on a tree by applying fertilizer to the roots. But the scalp can be so invigorated by proper massage that the follicles will secrete the oils as they should, and the new hairs will not fall. It is always advised to cut off very long hair when it begins to fall. The strength then goes into the length that is left, giving it a new and more vigorous growth. Hair that is uneven is not ugly, neither is its unevenness a sign of bad condition. It is only that hair that is the least inclined to be wavy or is fine and soft "flies" much more than the heavy locks. A small bottle of boneline kept on the dressing table and just a speck passed over the hair after dressing will help, and the invisible net may be worn when one does not wear a veil.

IF YOU DON'T SEE IT IN THE OTHER PAPERS LOOK FOR IT IN THE TIMES.
