

BURIED IN 30 TONS OF ORE

Foreigner at Indiana Harbor Has Miraculous Escape from Sure Death in One of the Huge Hoppers of Inland Steel Mills.

LIFE NEARLY EXTINGUISHED WHEN DISCOVERED

Ore Dust Is Filled Into Bin While Victim Is Working There Unknown to Other Employees—Was Imprisoned in Pit for Nearly Ten Minutes.

(Special to THE TIMES.)
Indiana Harbor, Ind., Nov. 25.—Beneath thirty tons of iron ore for ten minutes, without any possible chance to breathe pure air, Joe Bergenzato still lives to tell the tale of his suffering. Bergenzato is an employee of the inland mills in this city and boards with a family of foreigners on Pennsylvania avenue. His miraculous escape is the conversation of the hour among Harbor medical practitioners, who declare that never before in their careers have they met with so extraordinary a constitution.

The victim of the accident, if the disaster may be called, was busily engaged on Monday evening in sweeping slittings from the central hopper of the huge ore weighing bins. Over his head towered another of the large steel hoppers, while directly beneath him is the final, or receiving bin, into which the weighed material is poured for distribution. It is the labor of a certain class of employees to weigh the ore, dumping thirty or more tons into the central hopper and sitting out a sufficient quantity to satisfy their needs. The upper hopper is always full of powdered ore and from this is the demand satisfied.

No Witness to Accident.
At the time of the accident, no one knew that Bergenzato was in the central bin, and some one commenced to drop the ore through the chute and into the bin. His cries for assistance were evidently drowned by his fright and the noise of the rushing metal. Upward and upward the ore crept, the heavy material literally forcing him to the floor of the bin. Ton after ton was poured in on top of his semi-prostrate form, until eight feet of the metal dust was in the bin, aggregating about thirty tons. For ten minutes he lay thus, until the final weighing was completed and the signal given for the drawing off of the ore.

This was speedily accomplished by the drawing off of a huge slide. Hardly had the first small stream of ore passed through, when the slide operator saw a human form shoot through the aperture and into the lower bin. Startled, and fearing that someone had been killed, he hastily shut off the outlet, and lifted the unconscious Bergenzato into the air.

Rescued in Nick of Time.
Doctors Teegarden and Ansley were called, and worked over the man for almost half an hour, before he showed any signs of resuscitation. It was found that he had suffered a severe concussion of the brain, due probably to the blow received when he fell into the lower bin. In addition to this injury, the air passages of his throat were filled with the choking powder, and his body almost blue from the compression of his flesh. As soon as he was conscious enough to be moved, he was taken to his boarding place, on Pennsylvania avenue, where he is reported as doing nicely.

CURE IT IN ONE DAY.
Coughs and Colds Disappear Like Magic When Hyomel is Used.

If the thousands of people who suffer from hacking coughs and agonizing colds would arouse themselves sufficiently to follow this advice, they would cease to complain within twenty-four hours.

Here is the advice, if you take it and you are afterwards sorry that you did, it won't cost you a penny:
Go to Summers Pharmacy, the druggist, and purchase from him a Hyomel (pronounced High-o-me) outfit. It will only cost you \$1.00. Take it home; use it according to directions, and if it does not cure your cough or cold, take it back, and Mr. Summers will refund the purchase price.

When you use Hyomel you don't swallow nauseating drugs. You simply breathe in the soothing pleasant and antiseptic Hyomel air through the little pocket inhaler that comes with each outfit. As this medicated air passes over the inflamed parts, relief comes almost at once, and cure follows.

Hyomel is also guaranteed by Summers to cure catarrh, croup, grip and asthma.

GARY TOWN BOARD IN SHORT SESSION

Resolutions and Bills Are Passed and Improvements Discussed.

THE ORDINANCE IS DELAYED

City Regulation Imposing Fine on Spitters Did Not Come Up Yesterday.

The Gary town trustees got through their business yesterday in hurry-up order and were in session just an hour by the clock.
Very little business of importance was transacted out of the ordinary routine, which consisted of the passing of resolutions and bills.
The board instructed the city clerk, C. Oliver Holmes, to write a communication to the Gary, Heat, Light and Water company, directing them to place water hydrants on the alternate corners of Broadway and Washington street as far as Twenty-second avenue, and from there to Twenty-fourth avenue. The city water hydrants are installed at the present time as far as Seventeenth avenue, but as residents on lower Broadway have asked the board for city water, it was thought advisable to comply with their requests as they are unable to secure good drinking water by drive wells. The installing of the hydrants will also afford that section better fire protection.

Clerk Makes Report.
The clerk made a report to the board saying that he sent letters to the Michigan Central, Wabash and Pennsylvania railroads, asking them to place gates at their crossings of Broadway and Madison streets, but no answers had been received.
Ingwald Moe appeared before the board and asked that the Gary and Interurban cars stop in the middle of the block between Seventh and Eighth avenue upon signal. Mr. Moe said that the block was a long one and that passengers riding near the middle were compelled to walk either to Seventh or Eighth avenue to take or get off a car. The matter will be taken up with the street car company.

A resolution was introduced for the vacation of an alley in block 50, on which the new Catholic school will be constructed. The matter was referred to the Gary Land company.

A resolution was passed vacating the alleys in blocks 6 and 7, now occupied by the Emerson school.

A resolution was passed confirming the assessment and benefits of local sewer No. 1.

The spitting ordinance which was to have come up for the consideration of the board is not yet complete, but will probably be ready at the next meeting of the board.

INDIANA STATE LEAGUE A FACT.

(Continued from page one.)
mond, East Chicago, Indiana Harbor, Hobart, Gary, LaPorte and Michigan City. The league may include other cities in the league and exclude some of those which will be asked to become a part of the league if it develops that any of them are not good baseball towns.

The name adopted for the new league is to be the Indiana State league. The name is dignified and as the cities of the Calumet region grow in size and importance it is expected that the new league will become one of the small organizations in the west.

TIMES IS THANKED.
A resolution was adopted by the representatives present tendering THE TIMES a vote of thanks for taking the initiative in boosting the new league.

The baseball fans of the region recognize THE TIMES as their best journalistic friend. Not only will THE TIMES continue to furnish the people of the Calumet region with its unexcelled baseball extra during the coming season, but will aid in boosting the new league and will print standings and results in the new league just as it does in the major organizations.

It was decided to hold the next meeting of the league at Gary on Dec. 13 at 2 p. m. Judge Fitzgerald's office will be the meeting place.

The interest which Gary people showed in baseball last year is an indication that the fans in the new steel city will bend every effort to put a championship team in the field.

HAMMOND FANS INTERESTED.

But the Hammond fans are also very much interested in the new proposition and are also expected to have a good team. The Whiting Garys in their third year are regarded as the best team ever organized in the region and the interest in the Oil City is now so great that there is sure to be a good team there.

Both Indiana Harbor and Michigan City may be expected to have good teams and East Chicago and LaPorte will not be far behind with the right kind of a team.

MUCH SPECULATION RIFE.
Already the speculation as to which city is likely to bring out a winning team is an absorbing topic of conversation among the baseball players and the first pennant race of the Indiana State league is already on in the minds of the fans.

The problem of securing the proper grounds for the teams in the various cities in the region is a difficult one. This will be the first hard proposition the officials of the new league will be up against, but they expect to secure help from the Chicago, Lake Shore & South Bend Interurban and the Hammond, Whiting & East Chicago Street Railway company.

GROWS HAIR ON BALD HEADS

Bald Headed People May Get a New Chance in Life.

In these days when youth is the moving factor in business; when a man makes his mark at thirty-five and is ready to retire at forty-five; when business houses pension the man we call "middle-aged" rather than allow his lagging influence to intrude upon the commercial rush, a bald head is almost fatal to any man's hopes. The following must therefore prove interesting to people who are losing their hair or who are bald.

Research is one of the latest and most effective germ killers discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment, and also creates a clean and healthy condition of the scalp, which prevents the development of a new germ.

Pilocarpin is a well known agent for restoring the hair to its natural color, where the loss of hair has been due to a disease of the scalp. Yet, it is not a coloring matter or dye.

This combination of curatives mixed with alcohol as a stimulant perfects the most effective remedy for hair and scalp troubles.

The famous Rexall "33" Hair Tonic is chiefly composed of Research, Beta Naphthol and Pilocarpin. It makes the scalp healthy, nourishes the hair, stimulates the follicles. Where the hair is already bare, it enters the follicles, revitalizes the roots, supplies nourishment and stimulates a new growth.

We want you to try a few bottles of Rexall "33" Hair Tonic, on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "33" Hair Tonic will grow hair on bald heads, except of course, where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "33" Hair Tonic, and we have the right to assume that what it has done for hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50c and \$1.00. Kaufman & Wolf, Hammond, Ind.

HARBOR COMMERCIAL CLUB GETTING BUSY

(Special to THE TIMES.)
Indiana Harbor, Ind., Nov. 25.—Indiana Harbor's Commercial club building is becoming more and more of an assured fact every day. Now that the site on Guthrie street has been chosen—between Elm street and Michigan avenue—the question of the size and description of the building has to be settled.

The plans of the architects, Messrs. L. N. Mitchell & Co., of Chicago, call for a fifty-foot building, two stories high, built of brick with white enameled brick front. This will make a beautiful addition to the Harbor's already splendid showing of business and residence buildings, and will give the proposed Commercial club a splendidly appointed club home.

The plans and specifications are to be accepted at a meeting of the building organization next week—probably Thursday evening—after which the work will be prosecuted with all haste until completed. Sponsors of the project believe that it will be opened to the public before February 1 of next year.

BURGLARS LEAVE MONEY BUT STEAL TYPEWRITER

(Special to THE TIMES.)
East Chicago, Ind., Nov. 25.—Well, here's the latest! Although there was a considerable amount of money in the office, the burglars who entered the office of the Lesh-Prouty-Abbott sawmill, at One Hundred and Fifty-first street and Ridge avenue, last evening, took none of it. Their tastes were evidently for higher values and they levied upon brand new Fox typewriter, securely locked in the stenographer's desk. The police are now looking for the machine and men and report that they have an excellent clew to their identity.

Entrance to the office was effected through a side window, evidently picked with a screw-driver. The burglars disturbed none of the papers lying about the desk and it was not until the company's stenographer arrived at 9 o'clock that the robbery was discovered.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a "run in the ears," or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Sent for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

FORGER IS TRAPPED AT INDIANA HARBOR

Tries to Pass Check Stolen From Famous Manufacturing Co.

COHEN ASSISTS IN ARREST

Man Now a Prisoner Came to His Store Pretending That He Wanted Suit.

(Special to THE TIMES.)
East Chicago, Ind., Nov. 25.—The police yesterday succeeded in capturing Joe Judko, the forger, who cashed a check stolen from the office of the Famous Manufacturing company, about five months ago. Strange to say, he was arrested on a duplicate charge yesterday, having attempted the cashing of a Famous Manufacturing company check which he had stolen the night before. The check was for \$28.92 and the person who materially assisted the police in their work was Julius Cohen, an Indiana Harbor merchant.

Early yesterday morning employees of the manufacturing company, which is located south of the Republic mills, found a rear window open in their office. Investigation showed that nothing had been stolen except the \$28.92 check, and a description of this was forwarded to the East Chicago bank.

Tried to Buy a Suit.
About 11:30 o'clock Judko entered the store of Mr. Cohen in Indiana Harbor and said that he wanted to purchase a suit of clothes. A cheap working suit was shown him, costing \$6 and he signified his intention to purchase it at the same time tendering the check in payment. "I just quit my job at the Famous plant," he said, "and would like to get this check cashed."

The check was one drawn to the order of the robbed concern by a bank in Stuart, Neb., and was drawn on a Chicago banking institution. This aroused the suspicions of Mr. Cohen and while he fumbled with his cash drawer, a clerk was dispatched for an officer, who soon arrived in the person of Thomas Tweedle. Judko was arrested and taken to the jail, where he will be tried this afternoon.

Investigate His Record.
The similarity of the offense to that committed five months ago caused the police to investigate Judko's record. He was found to have left the employment of the Famous company shortly after his first offense, cashed the check, and departed for parts unknown. He now relates how he went to Chicago, where he was employed by a Lincoln avenue gardener. He denies his guilt, however, declaring that he purchased

the check from an unknown man on Kennedy avenue, but his forgery of another man's name as endorsement on the check proves his guilt in the minds of police officials.

"I believe," said Chief Higgins yesterday, "that Judko will be found guilty of several other forgeries that have disturbed our department in the past, and a thorough investigation of his past deeds will be made."

Judko is a foreigner and about 30 years of age. He apparently possesses a marked degree of education, his cleverness in carrying out his project being equal to that of an experienced crook. The gardener on Lincoln avenue is to be communicated with, and the Chicago police department notified in an effort to learn whether Judko has passed any of the "phony" checks while working in Chicago.

JOHN MAKER IS FINED.

John H. Baker was fined \$11.90 in Justice Huber's court this morning, having been convicted on the charge of provocation.

EDITOR IS NOW A HERO

Indiana Harbor Scribe Prevents Dangerous Fire and Saves Ladies.

Indiana Harbor, Ind., Nov. 25.—Editor W. W. Moberly of the Harbor Sentinel has entered the ranks of the heroes. Moberly has earned his reputation by averting a dangerous fire in the theater of Louis Greenfield, on Michigan avenue, at the same time saving the lives of three women engaged in the theater as renovators.

Yesterday morning, as the editor was chasing the festive item, he saw smoke curling from beneath the box of the Bijou theater. Deciding to investigate, he found that three scrub women had accidentally (?) turned on a switch, supposed by them to regulate the electric lights. The switch really operated a small electric heater, and the unusually heavy power yesterday morning caused the woodwork to catch fire. As soon as the three women saw the flames and still greater quantity of smoke, their fears almost drove them into hysterics, and they could not be induced to pass through the doors.

After several minutes of persuasive arguments, Editor Moberly succeeded in carrying (?) all three of the women to the street, after which he sweat some more, rolled up his sleeves and re-entered the theater. This time he found what had caused the fire, and after extinguishing the flames with a pail of water, he kicked the small heater into the street. Editor Moberly is somewhat modest in his story of the affair, but his friends declare that the sight of Moberly carrying a 250-pound woman in both arms—one wouldn't reach around—would repay them for any labor expended in bringing the matter to the attention of the Carnegie hero commission.

The plan for raising funds for the sake of sweet charity by having a tag day has worked wonderfully well in several other cities, so it is most certain that a neat sum will be realized in this manner in Whiting. There will be thirty young ladies chosen for the purpose of tagging. To encourage the girls in their work the members have decided to give two prizes. The first prize, which will go to the one receiving the largest amount of money, will be a solid gold medal, and to the one receiving the second largest sum, a sterling silver medal will be awarded. These are well worth working for, and besides the medal it would be fine to be able to say you had collected the largest sum of money for the benefit of the poor. It is certain that there will be some tall hustling done, and no one will find it possible to escape.

City Promises Contribution.
The city council has promised to give a contribution, but the sum has not yet been decided upon.

The officers chosen to carry on the work are:

President—Dr. A. J. Lauer.

Vice president—Dr. T. W. Kohr.

Secretary and treasurer—H. S. Dav-

idson

The executive committee is composed of Gallus J. Bader, C. D. Davidson, H. E. Baublen and A. Heyden.

Those who were elected to draw up the constitution and by-laws were: Rev. F. M. Webster, chairman; William Grestrake and James M. Smith.

Another meeting will soon be held at which the organization will take a firmer basis.

DEC. 4TH. SET FOR TAG DAY IN WHITING

Leading Citizens of Oil City Organize for Charity's Sweet Sake.

TWO PRIZES FOR THE HUSTLERS

Thirty Young Ladies Will Be Appointed to Place The Badges on Generous Givers.

Whiting, Ind., Nov. 25.—A very enthusiastic assembly of Whiting's most influential citizens was held in the high school assembly room on Monday evening, the result of which gathering was the organization of the Whiting Relief and Aid society.

The society will be a permanent organization and was formed for the purpose of assisting in the charitable work of the city.

There is already a large number of members, but this list will be greatly increased for many, owing to engagements, were kept away from the first meeting. Those who have already joined the ranks are certain that much good will be done by taking up this work.

Arrange a Tag Day.

The first move to be made by the society for the purpose of raising funds will be to have a "tag day."

This they have decided to have on December 4.

The plan for raising funds for the sake of sweet charity by having a tag day has worked wonderfully well in several other cities, so it is most certain that a neat sum will be realized in this manner in Whiting. There will be thirty young ladies chosen for the purpose of tagging. To encourage the girls in their work the members have decided to give two prizes. The first prize, which will go to the one receiving the largest amount of money, will be a solid gold medal, and to the one receiving the second largest sum, a sterling silver medal will be awarded. These are well worth working for, and besides the medal it would be fine to be able to say you had collected the largest sum of money for the benefit of the poor. It is certain that there will be some tall hustling done, and no one will find it possible to escape.

"BOOZE" HIS DOWNFALL

Chicagoan Lands in East Chicago Thinking Himself Badly Abused.

(Special to THE TIMES.)

East Chicago, Ind., Nov. 25.—"Sure, an' me wife's run away with another man and is hiding in that doorway," was the tale of James Quirk, of Chicago, to a local police officer Monday evening. A glance into the designated half-way, which happened to be that adjoining Nick Vukosavitch's saloon, relieved the fact that it was deserted, and Quirk was immediately booked as a "drunk." Although perfectly rational on every subject, he declared for hours that his wife had deserted him, leaving him alone with two small children in their little Chicago home. The police finally decided that Quirk was mentally deranged, from the effects of too much bad "booze," and decided to give him careful treatment.

Couldn't Stand the Pace.

He gave his address as 3119 South Halstead street, Chicago, and inquiry, through Captain P. D. O'Brien, of the Chicago police department, elicited the information that the woman was at home, working hard that her children might be kept in school. Quirk was said to have left home several days ago, without saying a word to his wife. The proprietor of a blacksmith shop, evidently doing a prosperous business, he began to drink, and was unable to stand the pace. He drifted towards East Chicago in search of employment and when he recovers his senses will find himself peeping from behind six good solid bars in the new city hall.

On An Unusual Spec.
Chief of Police Higgins declared that Quirk would be given a chance to get sober, retained in his jail for two or three days and then release him. A condition will be attached to his release, however, that he return home and take care of his family as he should, and not leave them to suffer as they have in the past. Quirk is really a well educated man, about 30 or 35 years of age. While he shows the effects of years of toll, he has not the rough appearance of the habitual drunkard. Officers about the police station last evening declared their sympathy for the wife and children and one of the officers will accompany Quirk on his homeward trip, to see that he does not fall from the straight and narrow path.

Idson
