

## WIFE CELEBRATES IN HUSBAND'S ABSENCE

Spouse Goes on Junket With the Gary Commercial Club.

While her husband had gone on the junket trip to South Bend Wednesday, a woman took occasion to celebrate her Thanksgiving day in advance, and proceeded to get shamefully intoxicated. The police found her on the streets in a certain part of town and took her to the police station to sober up. The woman became frantic when she saw where she had been taken and threatened to commit suicide. The police quieted her, however, and as soon as she became sufficiently sober she was allowed to return to her home with her husband.

The woman has a reputation in police circles for disgraceful conduct, and yesterday she took advantage of the absence of her husband to get in a worse condition than ever before. For a time after she was brought to the station it seemed that the woman would go insane, but she gradually recovered as she sobered up.

This woman is the one who was charged some time ago with having taken \$80 from her husband's trunk after she had seen him place it there. With this money she started to get drunk again and met a man with whom she started to celebrate. Her husband, instead of going to the mill as she thought he would, returned home and saw her in an intoxicated condition.

## YOUNG MEN HAVE ACHING BACKS TODAY

Spend Thanksgiving by Laying Concrete Floor in Church.

Eighteen young men of Gary are nursing aching backs and sore hands today as they follow their work in their various offices. None of them are complaining, however, on account of the soreness that he feels, on the contrary, if each one had to contract it again they would all be willing again.

The eighteen young men are members of the Gary Congregational church, which is in course of construction. Yesterday having been Thanksgiving day, the young men banded together, and, donning overalls and jumper and led by their pastor, the Rev. A. J. Sullen, they proceeded to lay the concrete floor in the basement of the church.

They mixed the concrete and covered an area of 35 by 65 feet. It was a hard day's work and though it was hard, they found considerable enjoyment in it.

At noon all the young men, including the pastor of the church and Mrs. Sullen, were the guests of Mr. and Mrs. Ora L. Wildermuth, who served a big turkey dinner.

The basement of the church will be used by the Men's League of the church for athletic purposes.

JOHN THE ARMY WHO HAVE TRIED TIMES WANT ADS AND HAVE NOT FOUND THEM WANTING.

## RAILROAD MEN INTERESTED IN CAR

Eighteen Thousand Dollar Auto Car Goes Over the Erie Railroad

A large crowd of Hammond people and especially the railroad men of the city were greatly interested in the Strang Electric car, which went through Hammond on the Erie railroad yesterday morning.

The Strang Gas Electric car is sort of a hybrid car in that it is a cross between a railroad car and an interurban car. Its promoters say that it is destined to take the place of the passenger engine and coach for suburban service and for the entrance to big cities over the terminals of the larger railroads.

Is Really Big Auto. The Strang gas electric car is really a railroad automobile. It is a large interurban car equipped with a large six cylinder gasoline engine, which is used to generate an electrical current which in turn propels the car.

The advantage of the Strang system is that every car is a power house in itself and does not require that an expensive power house or costly third-rail or trolley wires to be built. All of the power for running the car is developed within the car.

The representatives of the Strang company, who were on the car, were James King Duffy, the vice president; L. G. Nilson, the chief engineer; J. W. Escholine, assistant engineer, and W. M. Lloyd Jr. of the J. G. Brill & Co. of Philadelphia.

The officials on the car were very courteous to all of those who cared to inspect the car. The fact was explained that the car has a maximum speed of sixty miles an hour and can climb a 3 per cent grade with ease.

Car Costs Round Sum. The cars cost in the neighborhood of \$18,000, and can be run at a cost of 5 cents a mile for gasoline. It seemed peculiar to see an interurban car move off on a railroad with the ease of an interurban car and without a trolley or third-rail in sight.

Local railroad men expressed the opinion that if the car is all that the officials claim for it there is no question that it will mean a revolution in the methods of transportation in this country. With such a car the railroads would have the best sort of competition for the electric interurban.

## SOCIAL NEWS CONTINUED FROM PAGE TWO.

Miss Ethel Hathaway is spending a few days' vacation with her parents, Mr. and Mrs. Hathaway, at their home in May May street.

Mr. and Mrs. Jack Reinlein of Woodlawn spent Thanksgiving with Mrs. Reinlein's parents, Mr. and Mrs. Joseph Jaeger, of State Line street.
