

FROM NEIGHBORING TOWN AND CITY

NEWS OF THE COUNTY SEAT

LAKE COUNTY BAR PRACTICALLY AGREED.

Hot Fight with Gary Expected Over Superior Court.

It is said that the Lake county bar has practically agreed on the way the seats of justice shall be disposed of, and the matter will be presented to the next legislature in the following manner: A continuous court will be played for at Crown Point and Hammond will lead for an additional superior court judge, they to hold continuous sessions of court. The heavy dockets of cases now pending with additional ones being filed every day makes it practically impossible for the bench to keep pace with the business and something, of course, will have to be done to relieve the congested situation. The additional offices and a continuous court will bring heavy costs to the county, but it is only in keeping with its wonderful growth and unless people come to the aid of the county, the mills of justice will continue to grind, and even then an occasional case would be filed, resulting from an argument probably as to who had the largest wings.

MANY GREAT CHANGES MADE IN THE PLANT.

Installation of Electric Machinery at Electric Light Power house.

Unless they have made a visit to the electric light plant recently many Crown Point people are unaware of the great improvements that have gone on inside the building. A mammoth new engine and dynamo with the requisite switch-boards and other apparatus have been installed recently to take care of the Lowell business that has been secured by the company. The most wonderful part of the new improvement is that at no time have the local patrons been disturbed in their service, owing to the excellent management used in installing the heavy machinery.

No Destitute Folk Here.

One thing Crown Point can be thankful for is that it has no destitute people or people in straightened circumstances within its confines at present. The town is small enough so that such cases could be learned were they prevalent, but so far none has come to light. The recent cold spell has caused a great deal of suffering among the needy in other cities, in manufacturing districts, but Crown Point is even fortunate in this.

Death of Well Known Lady.

Word has been received here by the relatives of Mrs. J. S. Wilson stating that she died at her home in Los Angeles, Cal., about a week ago. Mrs. Wilson was a former resident of this place and has been a frequent visitor here. She was a sister-in-law of Mr. and Mrs. Joe Wilson, and has many friends throughout Lake county, who will be sorry to learn of her sudden demise. She was buried in California.

Mrs. Lella Howell has returned from Chicago, where she has been employed as governess in a private family for some time. The weather permitting the Crown Point Gun club will hold their regular weekly shoot for the medal at their west side grounds. The contests will probably have to be abandoned in the near future on account of the cold weather.

The basketball team of the Crown Point high school are being considerably hampered this year on account of a suitable place to play in and so far have not scheduled any games for this season.

It is said there is a lull in the opera house deal at present and that the buyers are somewhat backward about coming forward.

Don't forget that Crown Point is after the street car line from track to track, and mayhap the citizens here will gobble up the whole plum themselves if the present promoters are too dilatory. Crown Point has plenty of loose capital to build twelve miles of street car line. Ginger up!

WHITING NEWS

Tag Day Is Nigh.

The first "tag day" to be given in Whiting is close at hand. Perhaps you don't realize it, but it actually is. If you meet a young woman in the morning, who offers you a small round bit of pasteboard and even offers to attach it to your button-hole, don't be frightened or unduly elated. Just produce a small bit of change you may happen to have about your person and repeat the quotation you once learned about "sweet charity."

The "tag day" committee refuse to divulge the color of the tag, and also whether it will be round or not, but any kind of a tag goes, and as its all for charity it is really worth the while. Thirty girls in Whiting have been chosen to do the work and each campaigner will wear a badge bearing the name of the Whiting Relief and Aid society, and will carry a sealed box, with an opening large enough for a silver dollar to slip through.

As each giver makes his contribution he will receive the much-talked-of tag, which on one side will have the name of the Relief and Aid society, and the other side will bear the inscription, "I have been tagged for the benefit of the sick and destitute."

The tagging will continue throughout the day, and as late in the evening as it is thought there will be any one on the street.

On Friday night the boxes will be placed in the vault of the First National bank. Saturday morning a committee, with Mrs. William E. Warwick as chairman, will gather in the directors' room of the bank and count the funds.

It is hoped that a neat sum will be realized, but as it happens to be pay day it is almost a certainty.

A misunderstanding has unfortunately occurred between the athletic association and John Kollar, owner of Goebe's hall, and it is doubtful as to whether the high school will play basketball this year. This is the chief topic of discussion among the students, and it will not be possible to secure the hall, which is the only place in town, a great gloom will be cast over the students.

The miracle of motherhood is often overshadowed by the misery of motherhood. The great functional changes which are incident to child bearing leave their mark for life on many a mother.
